PRELIMINARY PROGRAM AHO 2016

Monday 30th May 2016

8.30: Welcome. Dr Javier Escaned

9.00-11: Live Case 1: Dr Masahisa Yamane

UPDATE ON CLINICAL EVIDENCE ON CTO

11-11.30. The most relevant articles on CTO published last year: devices, techniques and long term results. Dr Javier Escaned

11.30- 12: TORO registry: Long term results. Dr Asier Subiras

12-12.15. Spanish CTO Registry. Dr. José Antonio Fernandez

12.15- 12.45: Japanese CTO Registry: long term results (antegrade y retrograde techniques). Dr Etsuo Tsuchikane

12.45-13: Coronary Chronic Total Occlusions & Elderly: Clinical Profile And Prognosis. Dra Victoria Martin-Yuste

13 -14. LUNCH

14.-16. Live case 2: Dr Dimitrios Karpaliotis

IMAGING TECHNIQUES & ENDOTHELIAL FUNCION & CTO

16.-16.30. IVUS guided CTO retrograde recanalization. Dr Masahisa Yamane

16.30- 17. Assessment of endothelial and smooth muscle cells dysfunction distal to recanalized chronic total coronary occlusions. DrA Nieves Gonzalo .

17 - 17.30. Myocardial viability & distal vessel diameter recovery. Dr Javier Goicolea

17.30-18. Hybrid approach and reentry techniques.

18. Closing remarks.

Tuesday 31st May 2016

9: Live case 3. Dr Etsuo Tsuchikane

PROCEDURAL COMPLICATIONS DURING CTO RECANALIZATION

9.30-10: Complications during CTO percutaneous revascularization. Dr Luis Teruel.

10-12. PCI CTO complicated cases brought by the audience: discussion with the experts:
How would I avoid? How would I solve?.

Moderators: Dr Javier Goicolea, Dr Javier Escaned, Dr Manel Sabate.

Discussants: Dr Masahisa Yamane / Dr. Etsuo Tsuchikane /

BEYOND THE CTO RECANALIZATION

12.30. 12-45. DES in CTO: past, present and future. Dr Raul Moreno

12.45-13. ABSORB SCAFFOLD & CTO: Our experience: Dr Pablo Salinas

13:00: What have we learned? Take home messages. Lunch
