

## Instructional Courses in Hand Surgery Series VI 2014–2016

These two day courses are comprehensive and, over a three-year cycle, cover the entire spectrum of surgery of the hand and upper limb. There will be two courses each year with a faculty of British, European and international speakers. The courses are aimed at surgeons and trainees from all over Europe. The official language of the course is English. Consultant surgeons will find this course an essential tool for revalidation.

## Instructional Courses in Hand Surgery Series VI 2014–2016

### NEW – ICHS MANCHESTER CADAVERIC COURSE

The original 2 day courses running over a three year cycle are an established and respected part of the hand surgery educational programme.

We are pleased to announce a new enhancement to the Course. The same expert tutors will now provide a practical course in the new purpose built Cadaver Lab at the University of Manchester. The courses will run annually on the day prior to the summer ICHS (on Thursday) and will concentrate on the themes discussed in the lecture series for that year (Jan & Jun).

The courses will have just 18 participants with one specimen per delegate and a faculty to participant ratio of 1:2.

The courses have been supported by generous education grants from industry to make the price affordable.

June 2015: Tendon repair, Finger fractures; joint arthroplasty  
(ICHS 6.3 & 6.4)

June 2016: Wrist fracture & ligament surgery, scaphoid fracture;  
(ICHS 6.5 & 6.6)

June 2017: Skin cover (flaps), Dupuytren's and nerve (ICHS 7.1 & 7.2)

**Course Convenors:** Zaf Naqui & Lindsay Muir
