MASTERCLASS IN

Sunday, 30th November 2014, 8:30 – 18:00

RAMADA Hotel (next to ICM)

Konrad-Zuse-Platz 14, 81829 München

08.30 Welcome coffee and registration

09.00 Introduction & course objectives

Michel Adamina, Winterthur, CH

09.10 Surgical anatomy revisited: complete mesocolic excision & total mesorectal excision

Ayhan Kuzu, Ankara, TR

09.50 Performing a safe and thorough complete mesocolic excision

Brendan Moran, Basingstoke, UK

10.30 Optimal oncologic surgery translates in optimal outcomes

Phil Quirke, Leeds, UK

11.10 Coffee break

11.30 Presentation and management of acute colonic volvulus

Chris Cunningham, Oxford, UK

12.10 A primer on imaging of the anal canal and rectum

Gina Brown, Surrey, UK

12.50 The EBSQ Coloproctology examination

Michel Adamina, Winterthur, CH

13.10 LUNCH BREAK
Luncheon with the Professors

COLORECTAL SURGERY

Sunday, 30th November 2014, 8:30 – 18:00

- 14.10 An expert view on acute management of hemorrhoids, prolapse and fistula in ano**
Bruno Roche, Geneva, CH
- 14.50 Investigations and management of pelvic floor disorders**
Ian Lindsey, Oxford, UK
- 15.30 Step by step laparoscopic ventral rectopexy – lessons learned**
Andre d'Hoore, Leuven, BE
- 16.10 Coffee break**
- 16.20 Contemporary management of anastomotic leaks**
Herand Abcarian, Chicago, USA
- 17.00 Implementing enhanced recovery pathways: advice from the expert**
Willem Bemelman, Amsterdam
- 17.50 Wrap-up and attendance certificate**
Michel Adamina, Winterthur, CH

SCIENTIFIC PROGRAMME

Monday, 1st December 2014

Opening and welcome

Jochen Lange, St.Gallen, CH

10.00 Investigations and natural history of diverticular disease: when not to treat

P. Ronan O'Connell, Dublin, IE

10.30 Tailored surgical management of acute diverticulitis

Desmond Winter, Dublin, IE

11.00 Emergency laparoscopic colorectal resections

Willem Bemelman, Amsterdam, NL

11.30 Laparoscopic lavage: moving beyond resection

Jaap Bonjer, Amsterdam, NL

12.00 LUNCH BREAK

13.00 Preferred approach for Hartmann's reversal

Chris Cunningham, Oxford, UK

13.30 NOTES in colorectal surgery

Antonio Lacy, Barcelona, ES

14.00 Prediction and detection of anastomotic leaks in colorectal surgery

David Jayne, Leeds, UK

14.30 Quality of life and anorectal function after resection for diverticular disease

Soren Laurberg, Åarhus, DK

15.00 Coffee break

Monday, 1st December 2014

**15.45 Surgical roadmap and prognostic value
of high-resolution MRI staging for rectal cancer**

Gina Brown, Surrey, UK

**16.15 Reconstruction of continence:
beyond anal sphincter repair**

Bruno Roche, Geneve, CH

**16.45 IBD in 2014:
perspectives and wisdom for the general surgeon**

Neil Mortensen, Oxford, UK

SCIENTIFIC PROGRAMME

Tuesday, 2nd December 2014

09.00 LIVE SURGERY

Markus Büchler, Heidelberg, DE
Beat Müller, Heidelberg, DE

12.00 LUNCH BREAK

13.00 Advanced endoscopic resections for premalignant and malignant lesions

Brian Saunders, London, UK

13.30 The best of both worlds: combined laparoendoscopic resections

Robin Kennedy, London, UK

14.00 Transanal approaches to low rectal tumors: transanal, TEM, TAMIS, TEO

Mark Whiteford, Portland, USA

14.30 Enhanced recovery pathways: moving to single-day colectomy?

Timothy Rockall, Surrey, UK

15.00 Coffee break

SCIENTIFIC PROGRAMME

Tuesday, 2nd December 2014

- 15.45 Medical oncology for colorectal cancer: highlights**
Richard Herrmann, Basel, CH
- 16.15 Quality of life measures in islamic rectal carcinoma patients receiving counseling**
Ayhan Kuzu, Ankara, TR
- 16.45 Indications and results of cytoreductive surgery and hyperthermic intraoperative chemotherapy**
Brendan Moran, Basingstoke, UK
- 17.15 Preemptive second look and intraperitoneal chemotherapy in patients at high-risk of peritoneal carcinomatosis**
Paul Sugarbaker, Washington, USA

SCIENTIFIC PROGRAMME

Wednesday, 3rd December 2014

09.00 Metastatic colorectal cancer – does palliative surgery harm or help

Iain Anderson, Manchester, UK

09.30 Surgical resection of recurrent colonic cancer

Peter Sagar, Leeds, UK

10.00 Eurecca: auditing colorectal cancer care in Europe

Phil Quirke, Leeds, UK

10.30 Coffee break

11.30 Benefits and limits of stenting for obstructing left colonic cancer

Ian Lindsey, Oxford, UK

12.00 An innovative surgical approach for ODS and hemorrhoids

Gabriele Naldini, Pisa, IT

12.30 LUNCH BREAK

SCIENTIFIC PROGRAMME

Wednesday, 3rd December 2014

14.00 Update on image guided surgery for colorectal cancer

Cornelius J. H. van de Velde, Leiden, NL

14.30 Clinical analytic systems to improve outcomes and efficiency in colorectal surgery

Conor Delaney, Cleveland, USA

15.00 May virtual reality improve OR performance?

Teodor Grantcharov, Toronto, CA

15.30 Coffee break

16.00 Raising up a nation to laparoscopic surgery as a standard of care: the UK experience

Danilo Miskovic, Leeds, UK

16.30 Robotic total mesorectal excision: clinical experience & scientific evidence

Herand Abcarian, Chicago, USA

17.00 Resection margin in low rectal cancer after radiotherapy - How much is enough?

Lars Pahlman, Uppsala, SE

19.30 FESTIVE EVENING

SCIENTIFIC PROGRAMME

Thursday, 4th December 2014

- 09.00 Staple line reinforcement: hope or hype**
Anthony J. Senagore, Saginaw, USA
- 09.30 Transanal total mesorectal excision**
André d'Hoore, Leuven, BE
- 10.00 Pelvic exenteration: technique and limits**
Paris P. Tekkis, London, UK
- 10.30 Local control and survival after extralevator
abdominoperineal excision**
Torbjörn Holm, Stockholm, SE
- 11.00 Coffee break**
- 12.00 Transanal anastomosis in LAR with
intraoperative control**
Francesco Crafa, Avellino, IT
- 12.30 The impact of 'complete response'
thinking on future practice in rectal cancer**
Richard Heald, Basingstoke, UK
