■ london valves  
**2012** YEAR OF THE  
TEXTBOOK

## first announcement

**London 2012**  
30<sup>th</sup> September - 2<sup>nd</sup> October

PCR London Valves is the official meeting of  
the European Association for Percutaneous  
Cardiovascular Interventions (EAPCI).

In 2012, the Course will remain practical and very clinically driven. There will be no didactic lectures in the main arena, but instead, live demonstrations from three international centres and case-based discussions will share the spotlight.

This is a year of new devices. The Course will have 5 sessions dedicated to the latest technologies entering the clinical domain along with an innovation session for devices that are in the pipeline.

PCR London Valves is made by and for you with many sessions based on your clinical cases submissions and included in the complications and tips & tricks sessions. New in 2012, an abstract category has been added where we anticipate that registry data will be shown.

The crucial element of this year's meeting remains shared learning and interactive discussions. You can also look forward to the interactive LTT of aortic and mitral interventions, which continue to be a major part of the meeting.

As of this year, PCR London Valves has been recognised as the official meeting of the European Association for Percutaneous Cardiovascular Interventions (EAPCI). The Course will take place in our new beautiful venue, the Queen Elizabeth II Conference Centre, just opposite the Houses of Parliament and Westminster Cathedral.

See you all in London!

**Martyn Thomas**  
Chairman of PCR London Valves

**Stephan Windecker**  
Co-Chairman of PCR London Valves

# NEW LOCATION!

The Course will take place at the **Queen Elizabeth II** Conference Centre, **near to Big Ben**.

Join us from Sunday **30<sup>th</sup> September** to Tuesday **2<sup>nd</sup> October, 2012**.

# Board members

Switzerland

## Course Co-Directors

**Jeroen Bax**  
Netherlands

**Jean Fajadet**  
France

**Olaf Franzen**  
Denmark

**Martin Leon**  
United States

**Mark Monaghan**  
United Kingdom

**Nicolo Piazza**  
Germany

**Simon Redwood**  
United Kingdom

**Alec Vahanian**  
France

**Olaf Wendler**  
United Kingdom

## Programme Committee Members

**Vinayak Bapat**  
United Kingdom

**Christopher Young**  
United Kingdom

**Jane Hancock**  
United Kingdom

**Philip MacCarthy**  
United Kingdom

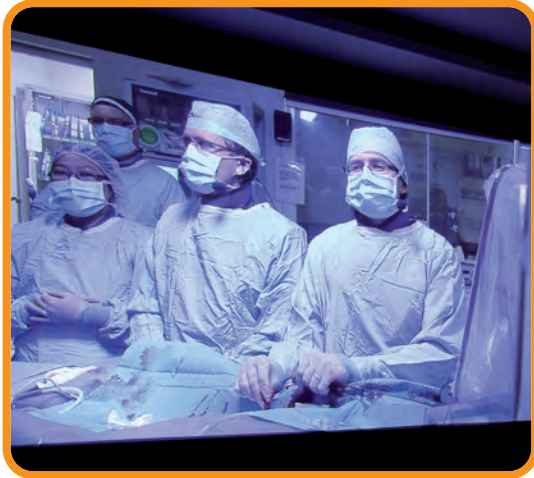

**Ranjit Deshpande**  
United Kingdom

**Jonathan Byrne**  
United Kingdom

# Don't miss the live demonstrations from...

**St Thomas' Hospital**  
London, United Kingdom

**Bern University Hospital**  
Bern, Switzerland

**Hospital Clínico San Carlos**  
Madrid, Spain

# What to expect

## Sessions on...

- › Aortic interventions with poor LV function
- › Aortic regurgitation
- › Health economics session
- › How to decide on valve size and type
- › Innovative surgery to aortic valve
- › Live multidisciplinary discussion
- › New technologies
- › Patient selection and access route
- › Specialised imaging modalities
- › TAVI and stroke
- › Worldwide transcatheter valve registries

## LTT on...

- › Access
- › Imaging
- › Mitral valve interventions
- › Valve-in-valve

and more to come...
