# SAGES 2014

## Scientific Session & Postgraduate Courses

Dear Colleagues:

On behalf of SAGES and the Program Committee, we would like to welcome you to the 2014 SAGES Annual Meeting in Salt Lake City, Utah.

This year's Annual SAGES Meeting continues a long-standing tradition of strong didactic sessions by experts, combined with exploration of innovative technology in the fields of general, upper GI, colorectal, endoscopic, robotic, and minimally invasive surgery. In addition, the program will highlight improved patient care with our first full-day course on enhanced recovery protocols, an interactive symposium on the ethics of innovation, and a return to common surgical procedures including bile duct exploration and ventral hernia repair.

The program for the 2014 meeting focuses on relevant clinical problems that busy surgeons encounter every day in their respective practices including management of complications, approaches for reoperative surgical cases, and laparoscopy in the acute care setting. The information obtained from this year's conference may be readily adopted into daily practice. Also, the sessions are structured to provide self-assessment CME credits, which may be used toward fulfilling Part 2 of the American Board of Surgery Maintenance of Certification (MOC) program. Surgeons must obtain self-assessment credits for Board certification and re-certification.

As with all SAGES technology-friendly meetings, the conference features electronic media to allow you to personalize your experience. A SAGES Meeting App will be available, providing access to meeting content via your handheld devices. Furthermore, e-mails and tweets during the meeting will keep attendees informed of upcoming and on-going informative and exciting events.

SAGES members are encouraged to bring the entire family as day care opportunities will be available for all children. High school students are invited to attend the Mini-Medical School and children of all ages can experience Top Gun for Kids. The entire family is encouraged to volunteer for one of our community service events. Finally, all children under 10 may eat free at the Gala and Sing Off events when accompanied by a parent.

The 2014 SAGES Annual Meeting will be held at the Salt Palace Convention Center, April 2-5.

Highlights include:

- **Hands-on courses (Endoscopic Management of Bariatric Complications, Laparoscopic and Open Bile Duct Exploration, and a Comprehensive Hands-on Review of Flexible Endoscopic Training Systems)**
- **Practice-, Career-, and Life- Changing courses (Enhanced Recovery Protocols, Career Development Symposium and PG Humanitarian Course)**
- **Didactic courses and panels co-sponsored with ALACE, ASMBS, SSAT, KSELS, CAGS, JSES, The Joint Armed Forces & EAES**
- **Numerous panels, symposia, video & scientific sessions**
- **SAGES sense of humor/humour as seen in the Presidential Debates and MIS Jeopardy**
- **Patient Safety issues are identified and highlighted throughout the program**
- **World Class Faculty**
- **Part 2 Self Assessment MOC compliant Sessions**
- **FLS and FES testing opportunities, plus the new FUSE program**
- **Top Gun and Top Gun for Kids**
- **Learning Center with new simulators & simulation scenarios**
- **SAGES Mini Medical School for high school students**
- **An Exhibit Hall that showcases the latest equipment & instruments, with a new "SPOTLIGHT ON HERNIA" area, incorporating the learning center station, posters, and industry products pertaining to hernia repairs with the related educational courses and sessions**
- **Fabulous social events**
- **Let you should wonder, no – Salt Lake City is not a "dry" city. An advance team of SAGES explorers ascertained this already**

If you go to just one surgical meeting in 2014, this is the one! We look forward to seeing you in April.

Tonia Young-Fadok, MD, MS  
Program Chair

Jeffrey Marks, MD  
Program Chair

# General Information

**SAGES 2014**  
Scientific Session & Postgraduate Courses

## Surgical Spring Week

### Location

The Salt Palace Convention Center  
100 SW Temple  
Salt Lake City, UT 84101

### Hosted By

Society of American  
Gastrointestinal and Endoscopic  
Surgeons (SAGES)

11300 W. Olympic Blvd., Suite 600  
Los Angeles, CA 90064  
Phone: 310-437-0544  
Fax: 310-437-0585  
Email: [sagesweb@sages.org](mailto:sagesweb@sages.org)  
Website: [www.sages.org](http://www.sages.org)

## Registration

11300 W. Olympic Blvd., Suite 600  
Los Angeles, CA 90064  
Phone: 310-437-0544, ext. 128  
Fax: 310-437-0585  
Email: [registration@sages.org](mailto:registration@sages.org)

### How do I register?

Register on-line!  
[www.sages.org/registration/](http://www.sages.org/registration/)

Please register prior to the early registration deadline of **February 21, 2014** online or complete the registration forms on pages 61 & 62.

### Who Should Attend:

The SAGES Annual Meeting has elements that have been specifically designed to meet the needs of practicing surgeons, surgeons-in-training, GI assistants, nurses and other allied health professionals who are interested in minimally invasive surgery and gastrointestinal endoscopy. Thorough coverage of traditional topics and presentations of "cutting edge" material can be found in this program. The SAGES Program Committee recommends that participants design their own attendance schedule based on their own personal educational objectives.

## Exhibit Only Registration

For those participants only interested in attending the technical exhibits, we will offer a special Exhibits Only Pass. **This option will only be available on-site.** You may register for an Exhibits Only Pass beginning the morning of Wednesday, April 2, 2014.

For additional information, please contact the Registrar (310) 437-0544 ext. 128.

## SAGES Registration Hours

Tuesday, April 1, 2014	12:00 PM - 5:00 PM
Wednesday, April 2, 2014	6:30 AM - 6:30 PM
Thursday, April 3, 2014	6:30 AM - 5:30 PM
Friday, April 4, 2014	6:30 AM - 5:30 PM
Saturday, April 5, 2014	7:00 AM - 2:00 PM

## Exhibits Hours - Dates/Times & Refreshment Breaks

### Wednesday, April 2:

Welcome Reception in Exhibit Hall 5:30 pm - 7:30 pm

### Thursday, April 3:

Brunch Break 9:30 am - 10:00 am  
Happy (Half) Hour Break 3:00 pm - 3:30 pm

### Friday, April 4:

Happy (Half) Hour Break 9:30 am - 4:00 pm  
3:15 pm - 3:45 pm

### Saturday, April 5:

Free Lunch for ALL Attendees 10:00 am - 12:30 pm  
11:45 am - 12:30 pm

Exhibits will take place at the Salt Lake Convention Center in Exhibit Hall A-C.

*The SAGES Meeting has different registration options & pricing. See pages 61 - 62 for details.*

**Try the SuperPass for best value!**

**Register on-line at [www.sages.org](http://www.sages.org) by the February 21, 2014 early deadline!**

## What Is The Military Surgical Symposium?

The Military Surgical Symposium will meet April 3-4 concurrent to SAGES in Salt Lake City. The military symposium will include all the military services (note this is not an official Department of Defense event) and will be part of the scientific and clinical sessions of the annual SAGES conference. Registration for both the SAGES conference and military symposium will be free to military personnel currently on active duty. Contact the registrar for the registration form.

See pages 26 and 38 for their program outline.

## VISA Information for International Attendees

For more than 50 years, the United States of America has required visas to be issued to those wishing to study, visit, or conduct business in the U.S. While changes have been made recently to U.S. visa law, many procedures remain the same. **Most importantly, you must APPLY EARLY for a visa, as processing time has increased in some instances.** For information about obtaining a visa, please visit the following website: <http://www.unitedstatesvisas.gov>

If you need a written invitation to assist you with your visa, please email the SAGES Registrar, [registration@sages.org](mailto:registration@sages.org), with your name and complete mailing address for each request.

## Airport/Travel Information:

The Salt Lake Convention Center and surrounding hotels are approximately 15 minutes from the Salt Lake City International Airport (SLC). Transportation from the airport to the hotels is available via taxi, shuttle service, TRAX transit or car rental.

SAGES 2014

Scientific Session & Postgraduate Courses

## SAGES

### *Humanity, Education, Leadership, Perspective, Support*

Again this year SAGES will be involved in several projects to support the community in which we host our annual meeting. This is an extraordinary way for registrants and guests to help repair the world one tiny step at a time.

#### *This year's initiatives:*

UTAH FOOD BANK

Thursday, April 3 – 1:30PM - 4:30PM

Meet at 1:15PM for Pick-Up at a location TBD

Limitation: Must be 12 years of age or older

Snacks & Water Provided

Cost: No fee

#### *Utah Food Bank*

1 in 6 Utahns, and 1 in 5 Utah Children are unsure where their next meal will come from. Come out and help the Utah Food Bank fight hunger by volunteering at their warehouse sorting food drive donations or putting together boxes to be delivered to senior citizens.

Transportation will be provided from the convention center to/from the Utah Food Bank. Please dress appropriately for the tasks at hand and wear comfortable closed toed shoes.

Friday, April 4 – 9:00AM - 3:00PM

Meet at 8:30AM for Pick-Up at a location TBD

Limitation: Must be 16 years of age or older

Lunch and "Volunteer" T-Shirt Provided

Cost: No fee

#### *Habitat for Humanity*

This organization needs no introductions. Come join us to help Habitat for Humanity eliminate poverty housing and homelessness in the county of Salt Lake City by helping to build and rehabilitate houses. Due to a mandatory safety orientation only individuals who can arrive at the build site by 9am can sign-up (unfortunately no latecomers allowed). You do not need any type of experience, knowledge or background in construction to participate. We are limited to a maximum capacity of 15 volunteers at the construction site so sign-up fast for this memorable experience!

Transportation will be provided from the convention center to/from the construction site. Please dress appropriately for the weather as you may be working inside and/or outside and wear comfortable closed toed shoes.

Saturday, April 5 – 8:00AM - 1:00PM

Limitation: Must be a High School Student

Lunch Provided

Cost: No fee

#### *Mini-Med School Boot Camp*

High school students from the Salt Lake City area and SAGES membership will have the opportunity to experience the wonderful world of medicine and minimally invasive surgery. The day is power packed with classroom lectures, tours of the Learning Center and Exhibit Hall and the Top Gun Interactive Experience. Both cognitive and skill competitions with awards and prizes will be offered. See page 49 for further details.

#### *SAGES Recognition of Excellence Award*

Log onto SAGESPAGES to learn To Whom, From Whom and Why. SAGES will announce recipients of the 2014 SAGES Recognition of Excellence Coin daily.

[www.sages.org/sagespages](http://www.sages.org/sagespages)

#### *Save the Date!*

- *SAGES Scientific Session & Postgraduate Course*  
April 15 - 18, 2015, Gaylord Opryland Hotel, Nashville, TN
- *SAGES Scientific Session & Postgraduate Course*  
March 16 - 19, 2016, Boston, MA
- *SAGES Scientific Session & Postgraduate Course*  
March 22 - 25, 2017, Houston TX

## CAMP SAGES

### Onsite childcare service

*Give your children an exciting, entertaining experience,  
and bring them with you to Salt Lake City!*

While you're attending meetings, your children can enjoy their own Convention Camp, organized by ACCENT on Children's Arrangements, Inc., a national company specializing in children's activities. Camp SAGES is a complete morning to early evening entertainment program packed with activities for children ages 6 months\* to 17 years. \*All children must be pre-registered to ensure proper staffing levels. Children participate in age-appropriate activities, including arts and crafts projects and active games, in a safe, nurturing, and educational environment.

**The high ratio of caregiver to child (1:2 for children 6 months - 12 months, 1:3 for children 13 months-2 years, 1:5 for children 3-5 years, and 1:8 for children 6 - 17 years) ensures campers receive lots of personal attention.**

### Available hours:

The Camp SAGES will take place at the Grand America Hotel (Headquarters Hotel)

Wed - Fri, April 2 - 4: 7am - 6pm

Saturday, April 5: 7:30am - 2:30pm

**Fee:** \$12/hour with 3 hours minimum.

Non-refundable pre-registration fee is \$25

**Advance registration is available at [sages2014.org/childcare](http://sages2014.org/childcare)  
Non-refundable pre-registration fee is \$25**

Each session has been assigned a relevant Learning Theme(s) and appropriate Guideline(s) will be referenced. Look for more information in Final Program and/or the SAGES 2014 Meeting App.

### Attention Medical Students!

**SAGES is sponsoring 3 Scholarships available for medical students to travel to the SAGES meeting (up to \$2K each). Contact the registration office for details today!**

SAGES will be using a cell-phone based system to handle Audience Response, Questions From the Floor, and General Meeting Announcements. **If you wish to participate, please be sure to have in Salt Lake City a cell phone capable of sending SMS text messages in the USA.**

Please contact [webmaster@sages.org](mailto:webmaster@sages.org) if you have questions or need advice.

### \* SPOTLIGHT ON HERNIA \*

This year, SAGES will be implementing our first "Spotlight on..." series. The goal of the series is to integrate all aspects of the SAGES meeting that relate to a specific procedure, including courses and sessions, learning center stations, posters, and exhibits.

For the first in this series, SAGES has elected to \* **SPOTLIGHT ON HERNIA** \*. There will be a Spotlight on Hernia section of the exhibit hall, which will include exhibits/products relative to hernia procedures, the Learning Center with a station featuring hernia repair, and posters related to hernia research. This exhibition will be connected to the related \* **SPOTLIGHT ON HERNIA** \* courses and sessions throughout the meeting.

**Be sure to look for the \* SPOTLIGHT ON HERNIA \* activity tag throughout the meeting program!**

### Patient Safety

Look for the  connotation throughout the meeting program to easily identify focused sessions and specific lectures highlighting patient safety issues.

# SAGES 2014 Schedule at a Glance

(as of Oct. 2013)

**Program Chairs: Tonia Young-Fadok, MD, MS & Jeffrey Marks, MD**

Oral & Video Sessions will take place throughout the SAGES Scientific Session (Thursday, Friday and Saturday). The exact program will be determined in November, 2013. Check the SAGES website ([www.sages.org](http://www.sages.org)) in late December, 2013 for the exact schedule of presentations.

## Wednesday, April 2

SAGES/CAGS/ERAS Full-Day Postgraduate Course: Enhanced Recovery After Surgery Pathways- How you can Optimize Perioperative Care, Improve Outcomes and Decrease Costs

SAGES/ASMBS Half-Day Postgraduate Course: Endoscopic Management of Bariatric Complications

Symposium: Career Development

SAGES/SSAT Panel: Optimizing Results of Fundoplication

### **SAGES Foundation Awards Luncheon**

SAGES/ASMBS Half-Day Hands-On Course: Endoscopic Management of Bariatric Complications

Panel: Getting Your Video Accepted

Panel: POEM

Panel: Reoperative Pelvic Surgery, Benign and Malignant – What is the Big Deal?

Panel: FUSE, Fire and Fiasco – OR Safety 101

Panel: Product Development – Innovations for Patients Benefits

Updates in Benign CRS Panel

**Exhibits Opening Welcome Reception 5:30pm - 7:30pm**

## Thursday, April 3

**Exhibits/Posters/Learning Center open 9:30am - 4:00pm**

Full-Day Military Surgical Symposium

Half-Day Postgraduate Course: Common Bile Duct (CBD) Stones

Half-Day Postgraduate Course: Ventral Hernia Repair – Technical Considerations and Strategies for Success

Hepato-Pancreato-Biliary Panel

NOSCART™ Symposium – Advances in Natural Orifice Surgery

**Karl Storz Lecture – David Williams, MD**

**Educator's Luncheon – “Optimizing Simulation and Technology in Graduate Surgical Education: State of the Art 2014”**

Postgraduate Video-based Course: Ventral Hernia Repair – Technical Considerations in Challenging Scenarios

Half-Day Hands-On Course: CBD Stones

Half-Day Didactic and Hands-On Course: Flexible Endoscopy – Train the Trainers

Symposium: Ethics of Innovation

SAGES/KSELS Panel: Gastric Cancer

Current Management of Rectal Cancer Panel

**Industry Education Symposia**

## Friday, April 4

### **SAGES Scientific Sessions**

**Exhibits/Posters/Learning Center open 9:30am - 4:00pm**

Full-Day Military Surgical Symposium

SAGES/JSES Panel: Endoscopic Submucosal Dissection – When Will We Catch Up With Our Japanese Colleagues?

**Presidential Address – Gerald Fried, MD**

**Gerald Marks Lecture – Amitai Ziv, MD**

**Fellowship Council Luncheon – “Strategies for Overcoming the Financial Challenges Facing the Fellowship Council”**

Postgraduate Course: Humanitarian

The Great Presidential Debates of 2014

Panel: Emerging Frontiers in Simulation – Based Surgical Education

SAGES/ALACE Panel: Evolution and Clinical Applications of Minimal Access Surgery in Latin America

Panel: MIS Jeopardy

Session: Emerging Technology

Panel: MIS for Acute Care Surgeons

SAGES/EAES Panel: Benign Foregut – Opinions and Evidence in the Management of Benign Esophageal Disorders

Resident/Fellow Scientific Session

**Meet the Leadership Reception**

**Main Event - SAGES Gala & Sing-Off**

## Saturday, April 5

### **SAGES Scientific Sessions**

**Exhibits/Posters/Learning Center open 10:00am - 12:30pm**

Panel: Bariatric Complications for the non-Bariatric Surgeon

Panel: Why Haven't Conversion Rates Improved?

**SAGES General Business Meeting**

**FREE Lunch in Exhibit Hall for all SAGES Meeting**

**Attendees**

**11:45am - 12:30pm**

## SAGES Goes Green!

**In our continuing effort to support the environment, you will see less paper at the SAGES 2014 Annual Meeting. The printed Final Program will include the regular schedule and course/panel outlines only. Electronic copies of all the abstracts and digital posters will be available on-line for all attendees and in the SAGES 2014 Meeting App.**

**Go to [sages2014.org](http://sages2014.org) for more information.**

# SAGES

## SAGES TOP 21 PROCEDURES EVERY PRACTICING SURGEON SHOULD KNOW

SAGES Top 21 contains video-based training on the most common minimally invasive procedures performed by general surgeons, as determined by the SAGES Educational Resources Committee. Purchase of DVD also includes online access to content.

## SAGES PEARLS SERIES

**\$195  
EACH**

SAGES Pearls provide step-by-step instruction by one or more expert laparoscopic surgeons on the following topics. The content also includes specially-prepared commentaries.

- |   |        |
|---|--------|
| • Laparoscopic Nissen Fundoplication    | MS1109 |
| • Laparoscopic Roux-en-Y Gastric Bypass | MS1110 |
| • Laparoscopic Sigmoid Colectomy        | MS1111 |
| • Laparoscopic Right Hemicolectomy      | MS1112 |
| • Laparoscopic Inguinal Hernia Repair   | MS1214 |
| • Laparoscopic Incisional Hernia Repair | MS1215 |

### Coming Soon!

- Laparoscopic Adrenalectomy
- Laparoscopic Cholecystectomy
- Laparoscopic Sleeve Gastrectomy
- Laparoscopic Splenectomy

## SAGES PATIENT INFORMATION BROCHURES

Patient information brochures developed by The SAGES Educational Resources Committee assist surgeons in preparing their patients for surgery. Brochures are 8 pages and feature full color illustrations. Patient information brochures are available for the following topics:

- |                                    |   |
|------------------------------------|---|
| • Colonoscopy                      | • Laparoscopic Inguinal Hernia Repair     |
| • Upper Endoscopy                  | • Laparoscopic Surgery for Severe Obesity |
| • Flexible Sigmoidoscopy           | • Laparoscopic Ventral Hernia Repair      |
| • Laparoscopic Spine Surgery       | • Laparoscopic Adrenal Gland Removal      |
| • Diagnostic Laparoscopy           | • Laparoscopic Gall Bladder Removal       |
| • ERCP                             | • Laparoscopic Spleen Removal             |
| • Laparoscopic Anti-Reflux Surgery | • Laparoscopic Appendectomy               |
| • Laparoscopic Colon Resection     |   |

## Unique Features of the 2014 SAGES Meeting

- » Casual attire – Leave your ties and button down shirts at home. Order a SAGES polo.
  - » Learn essentials regarding Foregut Surgery, Colorectal Benign and Malignant Disease management, Emerging Endoscopic Techniques (POEM), and the Ethics of Innovation
  - » Attend comprehensive postgraduate courses dedicated to the basic tenets to treat Common Duct Stones, Management of Bariatric Complications, Complex Ventral Hernia Repairs, and Enhanced Recovery Pathways
  - » Enjoy a Collaborative Conference with our Joint Armed Forces colleagues
  - » SAGES Humanitarian Postgraduate Course
  - » Patient Safety issues are identified and highlighted with  in focused sessions and specific lectures
  - » Attend Joint sessions with ALACE, ASMBS, CAGS, EAES, JSES, KSELS & SSAT
  - » Heckle previous Presidents as they debate current topics
  - » Enjoy the New \* **SPOTLIGHT ON HERNIA** \* Area with learning center stations, posters, and industry products related to hernia repairs all in one spot!
  - » Check out your medical colleagues' "fund of knowledge" at the MIS Jeopardy session
  - » Relax at the Exhibit Hall Oasis for informal gatherings and re-charge your electronic devices!
  - » Gala and Sing-Off at "The Depot"
  - » iOS + Android App!
  - » Bring the family. Child care, mini med school for high school students; and Top Gun for Kids
  - » Come before the meeting starts or stay a couple days after the meeting to enjoy the snow and ski slopes
- P.S. What is not unique is that food and alcoholic beverages will be plentiful, as always, at the SAGES Gala event**

**The entire 2014 meeting has been designated for Self-Assessment CME Credit, applicable to Part 2 of the American Board of Surgery (ABS) Maintenance of Certification (MOC) Program. In order to claim Self-Assessment credit, attendees must participate in a post meeting quiz**

# SAGES 2014 Meeting Leaders

## SAGES Panel/Session/Symposium/Debates Chairs/Co-Chairs:

### Bariatric Complications for the non-Bariatric Surgeon Panel:

**Chair:** Ninh Tuan Nguyen, MD  
**Co-Chairs:** Matthew I. Goldblatt, MD

### Emerging Frontiers in Simulation-Based Surgical Education Panel:

**Chair:** Steven D. Schwaitzberg, MD  
**Co-Chair:** Suvranu De, Sc.D.

### FUSE, Fire and Fiasco – OR Safety 101 Panel:

**Chair:** Pascal R. Fuchshuber, MD  
**Co-Chairs:** Anne O. Lidor, MD and Daniel Bougere Jones, MD

### Getting Your Video Accepted Panel:

**Chair:** Jon C. Gould, MD  
**Co-Chair:** Sharona B. Ross, MD

### MIS for Acute Care Surgeons Panel:

**Chair:** Kosar A. Khwaja, MD  
**Co-Chair:** Garth R. Jacobsen, MD

### MIS Jeopardy Panel:

**Chair:** Frederick L. Greene, MD  
**Co-Chair:** Richard Larry Whelan, MD

### Optimizing Results of Fundoplication Panel:

**Chair:** Ralph W. Aye, MD  
**Co-Chair:** John Hunter, MD

### POEM Panel:

**Chair:** Kevin M. Reavis, MD  
**Co-Chair:** Haruhiro Inoue, MD

### Product Development – Innovations for Patients Benefits Panel:

**Chair:** Raymond P. Onders, MD  
**Co-Chair:** David W. Rattner, MD

### Reoperative Pelvic Surgery, Benign and Malignant Panel:

**Chair:** Alessandro Fichera, MD  
**Co-Chair:** Sharon L. Stein, MD

### Hepato-Pancreato-Biliary Panel:

**Chair:** Horacio J. Asbun, MD  
**Co-Chair:** Rohan Jeyarajah, MD

### SAGES/ALACE Panel: Evolution and Clinical Applications of Minimal Access Surgery in Latin America

**Chair:** Alonso Alvarado, MD  
**Co-Chair:** Eduardo Moreno-Paquentin, MD

### Current Management of Rectal Cancer Panel:

**Chair:** David Etzioni, MD  
**Co-Chair:** George J. Chang, MD

### SAGES/EAES Panel: Benign Foregut – Opinions and Evidence in the Management of Benign Esophageal Disorders

**Chair:** Marco G. Patti, MD  
**Co-Chair:** Eduardo Targarona, MD

### Updates in Benign CRS Panel:

**Chair:** Mark H. Whiteford, MD  
**Co-Chair:** Conor Delaney, MD, PhD

### SAGES/JSES Panel: Endoscopic Submucosal Dissection (ESD) – When Will We Catch Up With Our Japanese Colleagues?

**Chair:** Manabu Yamamoto, MD, PhD  
**Co-Chair:** Lee L. Swanson, MD

### SAGES/KSELS Panel: Gastric Cancer

**Chair:** Ho-Seong Han, MD  
**Co-Chair:** Jose M. Martinez, MD

### Why Haven't Conversion Rates Improved? Panel:

**Chair:** Ali Tavakkoli, MD  
**Co-Chair:** Elisabeth C. McEmore, MD

### Emerging Technology Session:

**Chair:** Matthew M. Hutter, MD  
**Co-Chair:** Dmitry Oleynikov, MD

### Resident/Fellow Scientific Session:

**Chair:** Vanessa N. Palter, MD  
**Co-Chair:** Linda P. Zhang, MD

### Career Development Symposium:

**Chair:** Aurora Dawn Pryor, MD  
**Co-Chair:** Karen D. Horvath, MD

### Ethics of Innovation Symposium:

**Chair:** Phillip P. Shadduck, MD  
**Co-Chairs:** Robert D. Fanelli, MD and Steven C. Stain, MD

### NOSCAR™ Symposium – Advances in Natural Orifice Surgery

**Chair:** Daniel J. Scott, MD  
**Co-Chair:** Michael L. Kochman, MD

### The Great Presidential Debates of 2014:

**Chair:** Jeffrey M. Marks, MD  
**Co-Chair:** Tonia M. Young-Fadok, MD, MS

## SAGES Accreditation

Accreditation: The Society of American Gastrointestinal and Endoscopic Surgeons (SAGES) is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor Continuing Medical Education for physicians.

The Society of American Gastrointestinal and Endoscopic Surgeons (SAGES) designates this live activity for a maximum of **31.25 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

### Self-Assessment CME Credit, Part 2 of the American Board of Surgery (ABS) Maintenance of Certification (MOC) Program

This activity has also been designated as Self-Assessment CME credit, applicable to Part 2 of the ABS MOC program. In order to claim Self-Assessment credit, attendees must participate in a post meeting quiz. For additional information on the ABS MOC program and its requirements, visit the ABS website at: <http://home.absurgery.org/default.jsp?exam-moc>.

## FES & FLS Testing

**Wed. April 2 - Fri. April 4, 2014**

For more details or to schedule your test:

**Fundamentals of Endoscopic Surgery™**  
[fes@sages.org](mailto:fes@sages.org)

**Fundamentals of Laparoscopic Surgery™**  
[fls@sages.org](mailto:fls@sages.org)

Wednesday, April 2, 2014

7:30 AM - 11:45 AM and 1:30 PM - 5:30 PM

\*Included in Registration SuperPass (Option A) or Registration Option B

## SAGES/CAGS/ERAS Enhanced Recovery Postgraduate Course: Enhanced Recovery After Surgery Pathways – How You Can Optimize Perioperative Care, Improve Outcomes and Decrease Costs

Session Chair: Olle Ljungqvist, MD, PhD; Session Co-Chair: Liane S. Feldman, MD

### SESSION DESCRIPTION

You are providing state-of-the art minimally invasive surgery for your patients. But is your perioperative care meeting the same standards? What is keeping your patients in the hospital and impeding their return to their baseline performance and function? Recent guidelines identify over twenty evidence-based interventions spanning the entire perioperative period that reduce surgical stress, improve functional and physiologic recovery and reduce morbidity, allowing for short or ultrashort hospital stays and decreasing costs. Enhanced Recovery Pathways (ERPs) are standardized, coordinated, multidisciplinary perioperative care plans that incorporate these multiple interventions into a package. The ERP approach challenges surgical traditions for which there is a lack of evidence and that may in fact impair recovery, such as routine preoperative fasting, bowel preparation, and the prolonged use of drains and tubes. The evidence for the benefits of ERPs in decreasing length of stay and morbidity is strongest in colorectal surgery but there is emerging evidence in other areas, including upper GI and hepatobiliary surgery. This full day post-graduate course will introduce the ERP concept, review the evidence-base for the building blocks of an ERP program, and provide practical advice from experts to kick-start your own program.

It is strongly encouraged to attend the course as a team including anesthesiology and nursing, and ideally administration, in order to begin to integrate these approaches and optimize patient care. Multidisciplinary teams attending the course may be able to participate in a pilot implementation project providing mentorship to aid in adoption of an ERP program.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Recognize individual elements that are parts of ERP programs
- Identify components of traditional perioperative care that are not beneficial and may even cause harm
- Apply best practices for perioperative care after various types of digestive surgery
- List the steps required to implement an ERP program for various types of digestive surgery
- Understand challenges and barriers in implementing an ERP program
- List the benefits of ERP programs in colorectal surgery identified in meta-analyses
- Describe the cost impact of ERP programs

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
7:30AM	Welcoming Remarks	Liane Feldman, MD Olle Ljungqvist, MD, PhD
7:35AM	ERP, a Paradigm Shift for Perioperative Care: Overview from the Pioneer	Henrik Kehlet, MD
The Science of ERP Part I: Building Blocks For Your Program		Moderator: Liane Feldman, MD
8:05AM	Preoperative Preparation: The Program Starts Now! Getting The Patients On Board And In Shape	Liane Feldman, MD
8:25AM	Why are your Patients Still "NPO After Midnight"? Let's Give Them Carbohydrate Drinks Instead!	Olle Ljungqvist, MD, PhD
8:45AM	Bowel Preparation: Never, Always or Sometimes?	Dieter Hahnloser, MD
9:00AM	Preoperative Medical Optimization	Thomas Robinson, MD

## SAGES/CAGS/ERAS Enhanced Recovery Postgraduate Course: (continued)

### ERP: It's Not Just for Colorectal Surgery Anymore!

Moderator: Olle Ljungqvist, MD, PhD

1:30PM	Clinical Effectiveness of ERPs: Reviewing the Evidence	Henrik Kehlet, MD
1:50PM	Making the 23-Hour Colectomy a Reality	Conor Delaney, MD, PhD
2:05PM	ERPs in Bariatric Surgery: The 23-hour Sleeve Gastrectomy	Rajesh Aggarwal MD
2:20PM	My ERP for Upper GI Surgery: Esophagectomy, Gastrectomy	Lorenzo Ferri, MD
2:35PM	My ERP For Hepatobiliary Surgery: Liver and Pancreas	Nicolas Demartines, MD
2:50PM	Getting Your Team Together and Reaching Consensus: Overcoming the Obstacles	Julie Thacker, MD
3:05PM	Making the Business Case for Your ERP Program: Spending Money to Save Money?	Anthony Senagore, MD
3:20PM	Questions/Discussion	Panel
3:40PM	Break	

### ERP implementation: tips for success from around the world

Moderator: Anthony Senagore, MD

4:00PM	The Role of the Nurse	Debbie Watson, RN
4:15PM	The ERAS Society and the Interactive Audit System	Olle Ljungqvist, MD, PhD
4:30PM	Implementation of ERP at a US Center	Anthony Senagore, MD
4:45PM	Implementation of ERPs in a Swiss Centers	Nicolas Demartines, MD
5:00PM	The View from a Department Chair	Gerald Fried, MD
5:15PM	Questions/Discussion	Panel

7:30 AM - 11:45 AM

\*Included in Registration SuperPass (Option A) or Registration Option B

## SAGES/ASMBS Postgraduate Course: Endoscopic Management of Bariatric Complications

Session Chair: Natan Zundel, MD; Session Co-Chair: Jeffrey W. Hazey, MD

### SESSION DESCRIPTION

This session is for bariatric surgeons who routinely perform a variety of bariatric procedures and wish to update their endoscopic skills to manage complications that are unique to bariatric procedures. These complications may occur acutely at the time of the procedure (intra-op) or within days. Additionally, unique chronic complications may be addressed endoscopically remote from the date of the procedure.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Recognize and diagnose bariatric complications that may be safely treated endoscopically
- Identify which complications may be safely treated endoscopically
- Distinguish which endoscopic procedures would require referral to a practitioner with the endoscopic skills to safely and successfully treat the complication

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
7:30AM	Endoscopic "Normal" Anatomy After Different Bariatric Procedures	Bipan Chand, MD
7:50AM	Acute Complications: Endoscopic Management of Bleeding – Staple Line and Anastomotic	Thadeus Trus, MD
8:10AM	Acute Complications: Endoscopic treatment of Leaks after Bariatric Surgery	Manoel Galvao Neto, MD
8:30AM	Chronic Complications: Endoscopic Treatment for Strictures	Natan Zundel, MD
8:50AM	Chronic Complications: Fistula – Glue, Stents, Septotomies	Josemberg Campos, MD
9:10AM	Endoscopic Treatment of Cholelithiasis, Cholelocolitis after Bariatric Surgery	Jeffrey Hazey, MD
9:30AM	Break	
9:45AM	How to Access the Gastric Remnant for Management of CBD Stones – Endoscopically and Surgically	Samuel Szomstein, MD
10:05AM	Diagnose and Endoscopic Removal of Gastric Band Erosion	Erik Wilson, MD
10:25AM	Weight Re-gain: Pouch Reduction/Stoma Re-sizing	Nicole Pena, MD
10:45AM	Impactions, Bezoars, Marginal Ulcers	Dean Mikami, MD
11:05AM	When to Stop Endoscopic Management and Go to the OR	Ninh Nguyen, MD
11:25AM	Discussion	

Wednesday, April 2, 2014

7:30 AM - 11:45 AM

\*Included in Registration SuperPass (Option A) or Registration Option B

SAGES 2014  
Scientific Session & Postgraduate Courses

## Career Development Symposium

Session Chair: Aurora Dawn Pryor, MD; Session Co-Chair: Karen D. Horvath, MD

### SESSION DESCRIPTION

This symposium will be geared toward medical students, residents, fellows and junior faculty. It will provide the tools for planning a path to succeed in academic practice. The symposium addresses finding a job, how to negotiate for your position and how to position oneself up for promotion and career advancement. Grant writing, manuscript preparation and speaking will also be addressed.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Delineate promotion criteria and assess how to prioritize for success
- Effectively identify and negotiate for an academic position
- Plan, implement, fund, publish and present research
- Organize personal life to obtain balance and avoid burnout

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
7:30AM	Introduction	Aurora Pryor, MD Karen Horvath, MD
Session I – Research and Grants		
7:40AM	Designing and Implementing a Research Study	Brent Matthews, MD
7:52AM	Applying for Grants and The Grant Review Process	Melina Vassiliou, MD
8:04AM	A Primer on Funding Sources	Dimitrios Stefanidis, MD, PhD
8:16AM	Partnering with Industry - the Good, the Bad and the Ugly	Steve Eubanks, MD
8:28AM	Panel Discussion	Session I Faculty
8:45AM	Break	
Session II – The Art of Scholarly Presentations		
9:00AM	How to Give a Good Talk	Ray Onders, MD
9:12AM	Constructing a Scientific Manuscript	David Urbach, MD
9:24AM	Where Should I Submit My Manuscript/What Happens After I Submit?	Benjamin Poulouse, MD
9:36AM	How Do I Review a Paper?	Carla Pugh, MD, PhD
9:48AM	Panel Discussion	Session II Faculty
10:00AM	Break	
Session III– Promotion, Advancement & Sanity		
10:15AM	What Do I Look For in a New Hire?	William Richards, MD
10:27AM	The Foundation of Effective Negotiations	Mark Talamini, MD
10:39AM	The Promotion & Tenure Process	Mark Callery, MD
10:51AM	Balancing Career with Family and Personal Life	Kevin Reavis, MD
11:03AM	Avoiding Burnout	Jo Buyske, MD
11:15AM	Panel Discussion	Session III Faculty

SAGES 2014

Scientific Session & Postgraduate Courses

Wednesday, April 2, 2014

9:30 AM - 11:45 AM

\*Included in Registration SuperPass (Option A) or Registration Option B

## SAGES/SSAT Panel: Optimizing Results of Fundoplication

Session Chair: Ralph W. Aye, MD; Session Co-Chair: John Hunter, MD

### SESSION DESCRIPTION

It is estimated that up to 40% of the U.S. population suffers from GERD, yet less than 1% undergo antireflux surgery, despite the fact that 30-40% of those on daily PPI use having incomplete relief of symptoms. In part this reluctance stems from the perception by patients and referring physicians that surgery is associated with unacceptable side effects and complications and that it does not last. It is up to surgeons to regain their confidence through skillful patient selection, rigorous technique, and comprehensive support of their patients. This session is intended for surgeons wanting to take their antireflux practice from average to expert.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify pitfalls and develop increased sophistication in the selection of appropriate candidates for antireflux surgery
- Develop tools for postoperative management that lead to higher patient satisfaction
- Articulate the critical technical components of an expertly performed antireflux operation and elucidate the intraoperative obstacles, judgments and refinements that lead to excellent results and improved safety in antireflux surgery
- Recognize tools for identifying possible short esophagus preoperatively
- Describe the options for intraoperative assessment and management of short esophagus
- Differentiate the anatomic components of the gastroesophageal junction as a foundation for improving surgical technique
- Identify approaches for closing the esophageal hiatus safely and effectively
- Develop techniques for overcoming the obstacles to success in closing the esophageal hiatus
- Articulate the reasons referring physicians are hesitant to consider referring patients for antireflux surgery and develop approaches for building their trust

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
9:30AM	Anatomy of the Antireflux Barrier	Brian Louie, MD
9:45AM	 Proper Patient Selection, Work-Up, and Perioperative Management – From Perfect Patient To Reality	Jeffrey Peters, MD
10:00AM	Management of the “Short Esophagus”	Blair Jobe, MD
10:15AM	Difficult Diaphragmatic Closure	Brant Oelschlager, MD
10:30AM	 How to go from Learning Curve to Expert in the Technique of Fundoplication	Steven P. Bowers, MD
10:45AM	What does a Gastroenterologist Need to Know to Refer a Patient for Fundoplication?	Stuart Spechler, MD
11:00AM	Diagnosis and Management of GERD in Pediatric Patients: Different from Adult GERD?	Gretchen Purcell Jackson, MD, PhD
11:15AM	Panel Discussion/Questions and Answers	All Faculty

*To fully comply with ACCME regulations, all SAGES Meeting attendees must have their badge scanned before entering any course or session room in order to receive CME credit for that event.*

Wednesday, April 2, 2014

12:00 PM - 1:30 PM

\*Separate Fee Applies

## The 8<sup>th</sup> Annual SAGES Foundation Awards Luncheon

*SAGES does not offer CME for this session*

This annual ticketed event celebrates and honors distinguished leaders in minimally invasive surgery. Proceeds benefit the SAGES Foundation and its mission to advance endoscopic laparoscopic and emerging minimal access surgical methods and patient care. The 2014 Awards Luncheon features awards and research grants presented to outstanding surgeons and educators for their work in minimally invasive surgery and raises funds to keep patient safety and surgical innovation in the forefront.

### The Following Awards Will Be Presented:

- **SAGES Career Development Award & Research Grant Awards**
- **SAGES Young Researcher Award**
- **SAGES Researcher in Training Award**
- **SAGES IRCAD Traveling Fellowship Award**  
*SAGES acknowledges a generous grant in support of this award from Karl Storz Endoscopy*
- **SAGES Brandeis Awards (2 recipients)**  
*SAGES acknowledges a generous grant in support of one award from the SAGES Foundation*
- **SAGES Foundation: Margrét Oddsdóttir Traveling Fellowship Award**
- **SAGES Foundation: Gerald Marks Rectal Cancer Award**
- **SAGES Foundation: Excellence in Medical Leadership Award**  
*Generously funded through an unrestricted educational grant from W.L. Gore & Associates*
- **SAGES Foundation: Jeffrey L. Ponsky Master Educator in Endoscopy Award**
- **Arnold P. Gold Foundation: SAGES Award for Clinical Excellence and Humanism in Medicine**  
*SAGES acknowledges a generous grant in support of this award from the Arnold P. Gold Foundation*
- **SAGES International Ambassador Award**
- **SAGES Pioneer in Surgical Endoscopy Award**
- **SAGES Distinguished Service Award**
- **SAGES Berci Lifetime Achievement Award**

**How to RSVP:** To become an event sponsor, purchase individual tickets, tables, or virtual ads, please contact the Foundation office at (310) 437-0544 ext. 113 or [foundation@sages.org](mailto:foundation@sages.org). Individual tickets \$150 each and tables of ten are available for \$1,275. Since this event benefits the SAGES Foundation, a portion of your purchase is tax-deductible to the extent permitted by law.

## SAGES/ASMBS Hands-On Course: Endoscopic Management of Bariatric Complications

Session Chair: Dean J. Mikami, MD; Session Co-Chair: Eric Mark Pauli, MD

### SESSION DESCRIPTION:

The hands on portion of the endolumenal management of bariatric complications post graduate course will focus on the technical aspects of advanced endoscopy which will include endolumenal stenting, endolumenal suturing, balloon dilatation, endoscopic clipping and confocal microscopy.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify when advanced endoscopic techniques could be used to help diagnose or treat a bariatric complication (Endolumenal suturing, stenting, balloon dilatation, endoscopic clipping, confocal microscopy)

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
1:30PM	Lab Overview and Endoscopic Instruments, Part 1	Dean Mikami, MD
1:40PM	Overview of Endoscopic Instruments, Part 2	Eric Pauli, MD

### Lab Faculty:

Stacy Brethauer, MD; Diego Camacho, MD; Bipan Chand, MD; Sebastian Demyttenaere, MD; Luke Funk, MD; Manoel Galvao Neto, MD; Aliyah Kanji, MD; John Linn, MD; Kenric Murayama, MD; Sabrena Noria, MD, PhD; Pratibha Vemulapalli, MD; Eric Volckmann, MD

## SAGES 2014 Medical Student Scholarship Award

Medical students enrolled in medical schools located in the United States and Canada are invited to submit a 500 word essay explaining why he/she should be selected to attend SAGES Surgical Spring Week 2014 in Salt Lake City, Utah.

Award includes: \$2,000, and mentorship at 2014 Meeting

Deadline to Apply and Submit Essay: February 7, 2014

Program details and official online entry form, available at:

[www.sages2014.org/sages-2014-medical-student-scholarship-award](http://www.sages2014.org/sages-2014-medical-student-scholarship-award)

Wednesday, April 2, 2014

1:30 PM - 3:30 PM

## Getting Your Video Accepted Panel

Session Chair: Jon C. Gould, MD; Session Co-Chair: Sharona B. Ross, MD

### SESSION DESCRIPTION

Advances in video technology have contributed to widespread availability of systems capable of capturing high definition video during laparoscopic surgical procedures with the touch of a button. As a result interesting, unique, and novel procedures are often recorded. Surgeons, fellows, and residents with limited prior video editing experience can produce high quality learning resources with minimal cost using many readily available video editing software programs.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Differentiate between good and bad surgical videos
- Produce concise, high quality educational videos of laparoscopic and robotic procedures
- Describe the surgical video review process
- Create surgical videos that reviewers will rate highly and select for presentation at national meetings
- Discuss the legal requirements of recording procedures and possible HIPAA violations associated with sharing these videos

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
1:30PM	Introduction and Background	Jon Gould, MD Sharona Ross, MD
1:35PM	Technical Aspects of Making a Good Surgical Video	Daniel Herron, MD
1:50PM	The Video Review Process and Tips to Get Your Video Accepted	Leena Khaitan, MD
2:10PM	SAGESTV – Good and Bad Videos	Jon Gould, MD
2:30PM	Surgical Videos for Use in Social Media, Presentations, Education, and Research	Don Selzer, MD
2:50PM	Legal Aspects and HIPAA Requirements When Recording Surgical Procedures	Steven Schwartzberg, MD
3:10PM	Panel Discussion	

## FES & FLS Testing

Wednesday, April 2 - Friday, April 4, 2014

## Per Oral Endoscopic Myotomy (POEM) Panel

Session Chair: Kevin M. Reavis, MD; Session Co-Chair: Haruhiro Inoue, MD

### SESSION DESCRIPTION

This session will focus on the evolution of Per Oral Endoscopic Myotomy for the treatment of achalasia and its current trajectory in the development of related per oral submucosal treatments for diseases of the foregut. Surgeons, gastroenterologists and related professionals with an interest in endoscopic treatments of esophagogastric disease are encouraged to attend.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Distinguish the appropriate setting for POEM compared with traditional treatments for Achalasia and related esophagogastric diseases
- Formulate the potential roles for per oral treatments of neoplastic, distal motility based illnesses as well as intraabdominal processes
- Recognize safety concerns associated with per oral submucosal approaches to esophagogastric diseases including spatial relationship and potential injury to neighboring viscera

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
1:30PM	POEM: 2008-2014 (Myotomy to tumor enucleation)	Haruhiro Inoue, MD
1:45PM	Technical Modifications/ Endpoints of Dissection	David Earle, MD
2:00PM	Pitfalls including Difficult Closures	Kevin Reavis, MD
2:15PM	Outcomes, Learning Curve & Credentialing	Santiago Horgan, MD
2:30PM	Education of Patients/ Physicians about POEM	Homero Rivas, MD
2:45PM	Point: Traditional Treatments are the Rule	Steven DeMeester, MD
2:55PM	Counterpoint: POEM is Here to Stay	Christy Dunst, MD
3:05PM	Final Point/Counterpoint	Dr. DeMeester & Dr. Dunst
3:10PM	What's Next: Peroral Pyloroplasty and beyond	Jeffrey Ponsky, MD
3:20PM	Open panel/ Q&A	All Faculty

## Reoperative Pelvic Surgery, Benign and Malignant Panel – What is the Big Deal?

Session Chair: Alessandro Fichera, MD; Session Co-Chair: Sharon L. Stein, MD

### SESSION DESCRIPTION

The session will explore the issues that surgeons face when tackling problems of re-operative pelvic surgery. Any surgeon addressing re-operative pelvic surgery from a general surgeon to colorectal surgeon to pediatric surgeon will benefit from the expertise and knowledge shared in the session. Both benign and malignant colorectal disease will be addressed in the session by leading experts in the field.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Create a preoperative plan for re-operative pelvic surgery
- Appropriately employ the assistance of multidisciplinary team for re-operative pelvic surgery
- Diagram alternative planes for dissection in the pelvis
- Predict risks for re-operative complications, injuries and demonstrate ability to treat complications
- Identify issues in re-operative congenital surgery

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name

## FUSE, Fire and Fiasco – OR Safety 101

Session Chair: Pascal R. Fuchshuber, MD; Session Co-Chair: Anne O. Lidor, MD & Daniel B. Jones, MD

### SESSION DESCRIPTION

This session will review the current concepts of patient and operator safety in the operating room. The content reviews the current fundamentals of OR patient safety, proper use of surgical energy devices and prevention of OR fires. The intended audience is Nurses, Medical Students, Surgery Residents and Staff surgeons. This session is designed to serve as a blueprint for a SAGES enduring video product that can be used at Grand Rounds or other educational venues.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Implement strategies to reduce risk to patients and operators in the OR
- Improve communication within the operating room team
- Improve the performance of the operating room team
- Apply techniques to avoid injuries and fires caused by improper use of surgical energy devices

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
<b>Part 1 - OR Patient Safety</b>		
3:30PM	The Culture of Safety in the OR - Behavior, Systems and Standardization	Martin Makary, MD

## Product Development Panel – Innovations for Patients Benefits

Session Chair: Raymond P. Onders, MD; Session Co-Chair: David W. Rattner, MD

### SESSION DESCRIPTION

Surgeons historically have always been innovators developing techniques and devices to optimize patient care. This session will outline many of the steps in product development from fostering the climate of innovation to the end results of human use.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Understand what constitutes intellectual property and how to protect it
- Learn the role of the FDA in evaluating new devices, from 510k to first in human IDE exemptions
- Develop a knowledge how to use animal facilities in product development to improve patient safety
- Understand the role of CMS in funding product development

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
3:30PM	Introduction	Raymond Onders MD
3:40PM	Developing a Climate of Innovation: Guiding Junior Faculty and Focusing Their Research	David Rattner, MD
3:55PM	You Have a Thought for a Device: How to Protect It and When Do You Need an IP Lawyer and How to Work with Your Employer Either Hospital or University	Lee Swannstrom, MD
4:10PM	Working with the FDA: IDE Regulations Including New Draft Guidance in First in Human Studies	Herbert Lerner, MD
4:25PM	Product Development and Appropriate Use of Animal Laboratories – The Rules and Regulations. What Are the Goals and How to Meet Those Goals?	Steve Schomisch, PhD
4:40PM	Funding for Your Device Trial: Corporate, Government or Personal?	Dmitry Oleynikov, MD
4:55PM	Understanding the Role of CMS in Funding IDE Product Trials: The Timeline of Regulatory Studies – IRB, FDA and Now the CMS?	Paresh Shah, MD

## Updates in Benign CRS Panel

**Session Chair:** Mark H. Whiteford, MD; **Session Co-Chair:** Conor Delaney, MD, PhD

### SESSION DESCRIPTION

This session focus on a wide array of advanced techniques and concepts involved in advanced laparoscopic surgery for benign colon and rectal disease. Experts will discuss topics spanning education, minimally invasive surgical techniques including robotics and single port, and management of the most feared complication, anastomotic leaks. The target audience for this session includes General Surgery and Colorectal surgeons and residents.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify ways to introduce robotic surgery and single port surgery into your clinical practice in a safe and efficient manner
- Identify the signs of an anastomotic leak, utilize appropriate diagnostic modalities to establish the diagnosis, and manage the leak in a safe and efficient manner
- Distinguish between complicated and uncomplicated diverticulitis and identify patients in whom surgery might safely be deferred
- Develop a basic curriculum for teaching residents laparoscopic surgery
- Prioritize extraction site choices for laparoscopic colorectal surgery
- Identify patients who might be appropriate for one or two stage restorative proctocolectomies for ulcerative colitis

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
3:30PM	<b>Robotic Colorectal Surgery – Keeping it Safe and Efficient</b>	John Marks, MD
3:42PM	<b>Single Port Colectomy – Maintaining Quality, Teaching and Outcomes?</b>	Jamie Murphy, MD

## Military Surgical Symposium

**Note:** This is not an official Department of Defense event.

**Session Chair:** LTC(P) Robert B. Lim, MD; **Session Co-Chair:** COL Robert M. Rush, MD

### SESSION DESCRIPTION

Many surgical lessons are learned from war. The symposium will emphasize the academic work of military physicians as it relates to general surgery with emphasis on combat medicine, trauma care, and surgical technological advancement. We will discuss military specific issues as it pertains to the practice of surgery, from the biochemical to subspecialty aspects, in the combat and austere environment. We will also highlight the academic work that would be considered for incorporation into military doctrine for battlefield preparation. The specific topics will be determined by the session chairs after an abstract call.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify and address the specific care issues related to combat and austere environment surgical care
- Plan incorporation of surgical advancement onto the battlefield and into garrison practice
- Identify the differences of combat surgery versus trauma surgery in the civilian sector
- Discuss the latest scientific data that could be considered for military doctrine
- Communicate with the senior leaders of each service and senior leadership of SAGES for academic and research endeavors

### What's New in the Exhibit Hall?

**There are more reasons than ever to visit the exhibit hall!**

**In addition to the latest and greatest products and technologies, you will find:**

- **\* SPOTLIGHT ON HERNIA \* Area** – with learning center station, posters and industry products related to hernia repairs all in one spot.
- **Centers of Excellence** – a unique group of nationally and internationally renowned training centers will be highlighted, where attendees can find out about training opportunities in today's evolving surgical landscape.
- **A New Technology "007" Exhibition** – this area will highlight the newest (non-FDA-approved) products and technologies from around the world
- **Happy (Half) Hour** – join exhibitors for a beer and a snack during before heading back to the sessions! Or, grab a cup of coffee and visit the exhibits during the morning break.
- **Exhibit Hall Oasis/Charging Station** – stop in for a break while charging phones, computers and tablets, or check email at the internet station.
- **Brunch Break** – on Thursday at 9:30am

## Postgraduate Course: Common Bile Duct (CBD) Stones

Session Chair: Joseph B. Petelin, MD; Session Co-Chair: Brian J. Dunkin, MD

### SESSION DESCRIPTION

Despite the fact that cholecystectomy is the most common intra-abdominal procedure performed by general surgeons, many do not feel comfortable managing patients with CBD Stones and have relegated their care to gastroenterologists. This program will teach surgeons how to provide comprehensive, cost efficient care to patients with suspected CBD Stones. It is the companion program to the CBD Stones hands-on training course and is meant for general and hepatobiliary surgeons as well as their operative teams.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Formulate a plan for the preoperative assessment of patients with suspected CBD Stones
- Describe a step-wise approach to the intra-operative management of CBD Stones with consideration given to local expertise and equipment availability
- Identify scenarios where CBD exploration may be contraindicated due to risk of injury
- Describe approaches to managing CBD Stones in patients with altered anatomy or pregnancy

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name

## Postgraduate Course: Ventral Hernia Repair – Technical Considerations and Strategies for Success

Session Chair: Kristi Lee Harold, MD; Session Co-Chair: Yuri Novitsky, MD

**\* SPOTLIGHT ON HERNIA \* Activity**

### SESSION DESCRIPTION

The reconstruction of abdominal wall defects remains one of the most challenging dilemmas facing surgeons. Although a laparoscopic approach to ventral hernia repairs is quite common, its role in approaching both routine and complex hernias is evolving. A multitude of composite mesh materials have been developed to facilitate laparoscopic ventral hernia repairs. This session will examine state-of-the-art concepts in modern LVHR. Participants will gain an in-depth understanding of the various meshes and their potential advantages and disadvantages. The benefits and limitations of the various laparoscopic techniques will be examined. Modern modifications to traditional laparoscopic ventral hernia repairs, including defect closure, mesh positioning devices, and absorbable fixation will be presented. Finally, various peri-operative strategies to optimize surgical outcomes will be discussed. The participants will be exposed to several interactive panel discussions of challenging and controversial cases.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Discuss the various composite meshes available
- Identify benefits and limitations of laparoscopic ventral hernia repairs
- Evaluate the value/advantages of modern modifications and adjuncts to traditional laparoscopic techniques
- Understand nuances of the laparoscopic approaches to challenges of atypical hernias

## Hepato-Pancreato-Biliary Panel

Session Chair: Horacio J. Asbun, MD; Session Co-Chair: Rohan Jeyarajah, MD

### SESSION DESCRIPTION

This session is dedicated to show difficult surgical steps in minimally invasive hepatobiliary surgery, presented by different experts in the field. Focus will be placed in safety and avoidance of complications.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify how to safely perform difficult steps of the liver procedures presented
- Assess different approaches to the same critical steps of these surgeries as presented by three different experts in the field
- Better understand the feasibility and learning curve of MIS HPB procedures
- Understand the variation in techniques that are available for MIS liver surgery

## NOSCAR™ Symposium – Advances in Natural Orifice Surgery

Session Chair: Daniel J. Scott, MD; Session Co-Chair: Michael L. Kochman, MD

### SESSION DESCRIPTION

The Natural Orifice Surgery Consortium for Assessment and Research (NOSCAR™) was established by SAGES and ASGE in 2005 to bring together innovators interested in developing natural orifice procedures. The field has continued to evolve, both in terms of NOTES procedures as well as advanced flexible endoscopy tools and techniques. This session highlights many of these cutting edge areas and will be of interest to surgeons, endoscopists, and those interested in innovation regarding natural orifice surgery.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Articulate the techniques, potential benefits, and risks of natural orifice procedures, including Transvaginal Cholecystectomy, POEM, Transoral and Transanal procedures
- Demonstrate their understanding of flexible endoscopy approaches for partial and full thickness resections in the GI tract
- Assess the suitability of instrumentation used for both rigid and flexible natural orifice platforms

## Karl Storz Lecture

**David Williams, MD**

Canadian astronaut and physician Dr. David Williams is the President and CEO of Southlake Regional Health Centre and Assistant Professor of Surgery at the University of Toronto.

*SAGES acknowledges Karl Storz Endoscopy-America for a generous endowment in support of this lecture.*

12:00 PM - 1:00 PM

\*Separate Fee Applies

## Educator's Luncheon "Optimizing Simulation and Technology in Graduate Surgical Education: State of the Art 2014"

**Session Chair:** John D. Mellinger, MD; **Session Co-Chair:** Brent D. Matthews, MD

### SESSION DESCRIPTION

This session will include presentations over lunch from two world-leading experts in graduate medical education. The presenters will focus on surgical simulation and its current role in the training of residents and fellows, and the use of web-based technologies in enhancing graduate medical education. A panel discussion with audience participation will be included in the session following these presentations.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Describe cost-effective strategies for the use of simulation in accelerating skill development, including transference of skill to the clinical setting
- Outline evidence-based justifications for the time and expense involved in utilizing both skills training and web based educational tools in the current era of GME
- Articulate how web based learning tools may be employed in a fashion that promotes learner engagement and educational efficiencies

### SESSION OUTLINE

## Postgraduate Video-based Course: Ventral Hernia Repair – Technical Considerations in Challenging Scenarios

Session Chair: Brent D. Matthews, MD; Session Co-Chair: Kent W. Kercher, MD

**\* SPOTLIGHT ON HERNIA \* Activity**

### SESSION DESCRIPTION

The surgical treatment of ventral and incisional hernias can be a challenge for practicing surgeons due to geometric and anatomical variation in abdominal walls and/or hernias, the reoperative abdomen and avoidance or management of peri-operative complications. This video-based session will provide practical instruction on open and laparoscopic techniques for open and laparoscopic ventral and incisional hernia repair, complication management, and novel approaches to abdominal wall reconstruction.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify strategies for complication avoidance and management during laparoscopic ventral hernia repair
- Apply techniques for abdominal wall closure to minimize ventral incisional hernia
- Incorporate myofascial release techniques during open ventral incisional hernia repair for abdominal wall reconstruction
- Demonstrate minimally invasive and open techniques to repair ventral incisional hernias limited by anatomical boundaries (pelvis/chest wall) for soft tissue fixation

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
1:00PM	Introduction	Brent Matthews, MD

4:40PM	Panel Discussion	Moderators: Brent Matthews, MD Kent Kercher, MD

## Hands-On Course: CBD Stones

**Session Chair:** Eric Steven Hungness, MD; **Session Co-Chair:** Mark J. Watson, MD

### SESSION DESCRIPTION

Despite the fact that cholecystectomy is the most common intra-abdominal procedure performed by general surgeons, many do not feel comfortable managing patients with CBD stones and have relegated their care to gastroenterologists. This hands-on course will expose surgeons to laparoscopic and open techniques to treat patients with CBD stones. It is the companion program to the CBD Stones post-graduate course and is meant for general and hepatobiliary surgeons as well as their operative teams.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Improve interpretation of intraoperative cholangiography
- Identify the equipment necessary to perform Laparoscopic Common Bile Duct Exploration (LCBDE)
- Describe the indications for LCBDE
- Determine when to perform a transcystic versus transcholedochal approach
- Demonstrate the steps of transcystic and transcholedochal LCBDE
- Recognize when and how to place Fanelli stents
- Demonstrate the steps of open common bile duct exploration

## Didactic & Hands-On Course: Flexible Endoscopy – Train the Trainers

Session Chair: Thadeus L. Trus, MD; Session Co-Chair: E. Matthew Ritter, MD

### SESSION DESCRIPTION

This session is designed for anyone involved in teaching endoscopy, including practicing endoscopists (surgeons and gastroenterologists) who teach or want to teach endoscopy either at an academic or non academic hospital or endoscopy center, program directors, surgical educators, simulation lab coordinators and fellows. The course is designed to highlight ways to integrate endoscopy training into a residency curriculum and to demonstrate various hands-on simulators ranging in price and sophistication.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Reinforce their knowledge of the basic fundamental steps of flexible endoscopy
- Teach the basic steps to residents using a variety of methods
- Review the changing requirements for endoscopy training
- Develop strategies for implementing the new requirements into their training program
- Gain exposure to a variety of hands-on models of various sophistication to use as training tools

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
1:00PM	Why Surgeons Need to do Endoscopy	Robert J. Bowles, MD

## Ethics of Innovation Symposium

**Session Chair: Phillip P. Shadduck, MD; Session Co-Chair: Robert D. Fanelli, MD & Steven C. Stain, MD**

### SESSION DESCRIPTION

This Ethics Session is presented with the intent of encouraging thought and dialogue about ethical considerations relevant to the development and implementation of new technologies and new techniques in gastrointestinal/endoscopic surgery. This is a collaborative effort of the SAGES Ethics Liaison Group, Conflict of Interest Task Force, Quality Outcomes Safety Committee, Technology & Value Assessment Committee, and Guidelines Committee. Examples from Robotic Surgery will be featured in the discussion.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Recognize ethical considerations relevant to the development and implementation of new technologies and techniques in surgery and their impact on patient safety
- Evaluate their own practice and determine whether any opportunities might exist for improving their own process for introducing new technologies/techniques
- Use the SAGES Guideline for the Implementation of New Technologies in Surgery to determine whether any opportunities exist for improving their institution's process for introducing new surgical technologies/techniques

## SAGES/KSELS Panel: Gastric Cancer

Session Chair: Ho-Seong Han, MD; Session Co-Chair: Jose M. Martinez, MD

### SESSION DESCRIPTION

This session will discuss the current status of laparoscopic gastrectomy and collaboration on the study and clinical practice in this field.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Describe the potential advantages of laparoscopic gastrectomy in terms of patients recovery
- Discuss the outcomes of a comparative study between laparoscopy and open surgery for the patients with gastric cancer
- Outline the benefits and challenges of collaborating on an outcomes study between two countries

### SESSION OUTLINE

Time	Presentation Title	Faculty Name
1:00PM	Laparoscopic Gastrectomy for Early Gastric Cancer. KLASS* Group, Multi-institutional Study 1	Hyung-Ho Kim, MD, PhD

## Current Management of Rectal Cancer Panel

Session Chair: David Etzioni, MD; Session Co-Chair: George J. Chang, MD

### SESSION DESCRIPTION

Evidence-based treatment of rectal cancer involves the appropriate use of surgery, chemotherapy, and radiation treatment. In this session we will review elements of decision-making and their basis in emerging knowledge in the field. This review will be helpful to any surgeon involved in rectal cancer treatment.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Discuss the advantages and disadvantages of extended pelvic lymphadenectomy
- Describe the advantages and disadvantages of three options for transanal approaches to rectal cancer
- Discuss national trends in the use of minimally invasive/robotic techniques for rectal cancer surgery

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name

## Military Surgical Symposium

**Note:** This is not an official Department of Defense event.

**Session Chair:** LTC(P) Robert B. Lim, MD; **Session Co-Chair:** Robert M. Rush, MD

### SESSION DESCRIPTION

Many surgical lessons are learned from war. The symposium will emphasize the academic work of military physicians as it relates to general surgery with emphasis on combat medicine, trauma care, and surgical technological advancement. We will discuss military specific issues as it pertains to the practice of surgery, from the biochemical to subspecialty aspects, in the combat and austere environment. We will also highlight the academic work that would be considered for incorporation into military doctrine for battlefield preparation. The specific topics will be determined by the session chairs after an abstract call.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify and address the specific care issues related to combat and austere environment surgical care
- Plan incorporation of surgical advancement onto the battlefield and into garrison practice
- Identify the differences of combat surgery versus trauma surgery in the civilian sector
- Discuss the latest scientific data that could be considered for military doctrine
- Communicate with the senior leaders of each service and senior leadership of SAGES for academic and research endeavors

## SAGES/JSES Panel: Endoscopic Submucosal Dissection (ESD) – When Will We Catch Up With Our Japanese Colleagues?

Session Chair: Manabu Yamamoto, MD, PhD; Session Co-Chair: Lee L. Swanstrom, MD

### SESSION DESCRIPTION

Endoscopic Submucosal Dissection (ESD) was developed in 1996 in Japan and has subsequently expanded its indications. ESD is a minimally invasive therapy for benign/selected malignant tumors and an important bridge to more radical surgery. In this panel, attendees can update their knowledge of ESD by seeing techniques and indications from the world's leading surgical endoscopists and understand its role in clinical care of early GI cancers.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Articulate indications for ESD
- Discuss ESD technologies and its role in clinical care
- Identify potential complications and how to avoid/treat them

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
7:30AM	ESD for Esophageal Lesions	Haruhiro Inoue, MD, PhD
7:38AM	Prevention and Treatment of ESD Strictures in the Esophagus	Christy Dunst, MD

## Presidential Address

**Gerald M. Fried, MD**

### SESSION DESCRIPTION

The address is directed to all those attending the SAGES annual meeting. The lecture will address the role of specialty societies and the value to those at various stages of their careers.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Recognize the opportunities in a surgical career
- Optimize the value of SAGES to them personally
- Better engage themselves in SAGES

## Gerald Marks Lecture – “Simulation-Based Education as a Cultural Change Vehicle in Patient Safety & Quality Care”

**Amitai Ziv, MD, MHH**

### SESSION DESCRIPTION

The lecture will discuss how simulation-based education can advance the much needed cultural change in quality care and patient safety. It will discuss trends, barriers and challenges of simulation-based education at large and surgical education in particular, as they become more recognized tools in health professionals' training and assessment.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Recognize the current status, trends, barriers and challenges in simulation-based medical education
- Identify the potential power of simulation-based education in changing patient safety and quality care culture in healthcare at large and in the surgical field in particular
- Identify opportunities in their own healthcare environment where simulation-based training can be applied in a more effective and systematic manner in order to improve patient safety and quality care

11:30AM - 12:30PM

## Fellowship Council Luncheon “Strategies for Overcoming the Financial Challenges Facing the Fellowship Council”

*SAGES does not offer CME for this session*

**Session Chair: Samer G. Mattar, MD; Session Co-Chair: Bruce D. Schirmer, MD**

### SESSION DESCRIPTION

The luncheon is dedicated to fellowship program directors, surgical educators, program administrators, industry leaders, and all other stakeholders within the realm of advanced surgical education. At least 80% of graduating surgical residents seek fellowship training and this trend is expected to continue. These fellowships provide much needed specialized training that ultimately prepares graduates for the demands of the surgical marketplace. Most of these fellowships have been financially sponsored by the Foundation for Surgical Fellowships (FSF). However a major threat to sustaining these programs is the potential decrease in traditional funding donors or actual funds to the FSF. Therefore, it is imperative that alternative donors or funding strategies be considered.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Articulate the current financial threats to sustaining viable and effective FC- accredited fellowship programs
- Assess and compare a variety of currently utilized financial models for supporting existing fellowship programs
- Develop alternate resources for financial support of FC accredited programs to be implemented if necessary

### ACTIVITY OUTLINE

## Postgraduate Course: Humanitarian

**Session Chair: Adrian Park, MD; Session Co-Chair: Raymond Price, MD**

### SESSION DESCRIPTION

This session will serve those with an interest in global surgery and a desire to understand more about and how to become involved. It will also be practical and informative for those with a developed passion for and experience with surgery in low resource settings.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Articulate 3 main areas of focus for surgeons who participate in "low resource setting" surgery
- Recognize the contexts and unique challenges to be adapted to make global surgery efforts most effective
- Identify key team members with a view to organizing or participating in a successful low resource setting surgical project
- Be prepared with some very practical clinical information and contact information to get started or on path to involvement in global surgery

## The Great Presidential Debates of 2014

Session Chair: Jeffrey M. Marks, MD; Session Co-Chair: Tonia M. Young-Fadok, MD, MS

### SESSION DESCRIPTION

SAGES Past-Presidents will hotly debate topical issues related to gastrointestinal and endoscopic surgery. This no-holds-barred format will engage the audience fully to determine the outcome of the controversial issues.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- State the advantages and limitations of natural orifice endoluminal endoscopic surgery
- State the outcomes that should be measured to evaluate the procedures used to treat GI neoplasia
- Recognize the balance between the patients' expectations and the profession's interpretation of best practice
- Describe a safe and thoughtful approach to introducing innovative procedures into practice
- Understand the technical tools available for advanced endoscopic interventional therapies
- Identify the natural orifice techniques which exist as practical alternatives to standard surgical procedures

## Emerging Frontiers in Simulation-Based Surgical Education

Session Chair: Steven D. Schwaitzberg, MD; Session Co-Chair: Suvranu De, Sc.D.

### SESSION DESCRIPTION

Simulation-based surgical education is now being adopted for training and credentialing in many surgical specialties for increasing surgical competency and reducing errors. This session would be of interest to anyone who is engaged in learning about the efficacy and latest technologies in this emerging field.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify the training opportunities that exist in virtual reality as a simulation modality
- Evaluate the numerous VR opportunities and select those that could be considered for acquisition that may fill an unmet local need
- Choose simulation options that would meet the emerging needs of the surgical training community

## SAGES/ALACE Panel: Evolution and Clinical Applications of Minimal Access Surgery in Latin America

Session Chair: Alonso Alvarado, MD; Session Co-Chair: Eduardo Moreno-Paquentin, MD

### SESSION DESCRIPTION

This session will allow attendees to further understand which are the procedures grouped as Minimal Access Surgery; what are their potential advantages over standard laparoscopy, including drawbacks and their specific advantages; how have they being undertaken by surgeon all over Latin America; and what is the clinical and socioeconomic outcome in these countries.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify specific advantages and disadvantages of each of the different minimal access laparoscopic procedures
- Select which of these techniques best suits their individual practice
- Recognize potential problems associated to each one of these techniques

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
1:30PM	Metabolic Surgery: A Marketing Tool?	Gustavo Salinas, MD
1:45PM	Hybrid Procedures, Really? Myth and Facts	Manoel Galvao Neto, MD
2:00PM	Evidence Based Surgery and Minimal Access Surgery	L. Michael Brunt, MD
2:15PM	Is This a Joke? Single Port Surgery	Diego Camacho, MD
2:30PM	Inguinal Hernia Repair Technique by Mini Site	Gustavo Carvalho, MD
2:45PM	Sleeve Gastrectomy; Killed the Band or the Bypass?	Marcos Berry, MD
3:00PM	Laparoscopic Splenectomy – A Case for Single Site Surgery	Juan Pablo Pantoja, MD
3:15PM	Extreme Endoscopy for Chronic Bariatric Complications	Josemberg Campos, MD
3:30PM	Q & A	Alonso Alvarado, MD Eduardo Moreno, MD

SAGES 2014

Scientific Session & Postgraduate Courses

## Friday, April 4, 2014

1:30 PM - 3:15 PM

\*Included in Registration SuperPass (Option A) or Registration Option C

### MIS Jeopardy

**Session Chair:** Frederick L. Greene, MD; **Session Co-Chair:** Richard Larry Whelan, MD

#### SESSION DESCRIPTION

This session will be formatted as a quiz show utilizing contestants/an All-Star Panel who will provide responses to "answers" regarding MIS approaches UGI, biliary tract, colorectal and abdominal wall topics. The session will be aimed at all attendees at the SAGES meeting, but hopefully will attract a resident and fellow audience. Come and learn and match your knowledge with the panelists!

#### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify and employ new strategies relating to MIS surgical issues
- Recognize personal gaps in knowledge which will lead to further independent study
- Recognize safe and effective strategies to correct common GI, HPB and abdominal wall disease processes

#### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
1:30PM	MIS Jeopardy	Moderators: Frederick L. Greene, MD Richard L. Whelan, MD
	Contestants:	All-Star Panel TBA

3:15PM - 3:45PM

### Happy (Half) Hour Break in Exhibit Hall

3:30 PM - 5:30 PM

\*Included in Registration SuperPass (Option A) or Registration Option C

### Emerging Technology Session

**SAGES does not offer CME for this session**

**Session Chair:** Matthew M. Hutter, MD; **Session Co-Chair:** Dmitry Oleynikov, MD

#### SESSION DESCRIPTION

For the 10<sup>th</sup> year, SAGES, as part of the SAGES Technology Initiative, will present the Emerging Technology Session. Surgeons, physicians, scientists from academic centers as well as industry are invited to submit abstracts for consideration. Submissions that reflect "late breaking", "cutting-edge" or novel information are greatly encouraged. Submission of preliminary results for new technologies is encouraged as well.

#### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify and employ new strategies relating to MIS surgical issues
- Recognize personal gaps in knowledge which will lead to further independent study
- Recognize safe and effective strategies to correct common GI, HPB and abdominal wall disease processes

Friday, April 4, 2014

3:45 PM - 5:30 PM

SAGES 2014  
Scientific Session & Postgraduate Courses

## MIS for Acute Care Surgeons

Session Chair: Kosar A. Khwaja, MD; Session Co-Chair: Garth R. Jacobsen, MD

### SESSION DESCRIPTION

This session is intended for all general surgeons and trainees who are involved with the assessment and management of general surgery patients in the emergency setting. It will provide an opportunity to discuss the safe use of the minimally invasive approach, as well as tips and tricks, to common general surgery emergencies.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Recognize the indications for open versus minimally invasive approach in sick patients in the emergency setting
- Understand current management strategies for common general surgery emergencies such as acute cholecystitis, diverticulitis, C. Difficile colitis, bowel obstructions, etc.
- Apply surgical tips and tricks in difficult situations in the Operating Room in common general surgery emergencies

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
3:45PM	 Physiologic Effects of Pneumoperitoneum: Implications of Laparoscopy in Sick Patients	Kosar Khwaja, MD, MSc, MBA
3:55PM	Optimal Timing for Laparoscopic Cholecystectomies	Garth Jacobsen, MD
4:05PM	 Bariatric Emergencies: What Every Acute Care Surgeon Must Know	Samaad Malik, MD, MSc
4:15PM	Minimally invasive Approach to Acute Diverticulitis	Elizabeth McLemore, MD
4:25PM	Minimally invasive Approach to C. Difficile Colitis	Brian Zuckerbraun, MD
4:35PM	Laparoscopic Approach to Bowel Obstructions	Simon Bergman, MD
4:45PM	Incarcerated Hernias: Tips and Tricks to the Minimally Invasive Approach	B. Todd Heniford, MD
4:55PM	Bedside Laparoscopy in the Intensive Care Unit	Ronald Sing, MD
5:05PM	Laparoscopic Exploration for Penetrating Trauma	Jose Diaz Jr, MD
5:15PM	Panel Discussion	

SAGES 2014

Scientific Session & Postgraduate Courses

Friday, April 4, 2014

3:45 PM - 5:30 PM

\*Included in Registration SuperPass (Option A) or Registration Option C

## SAGES/EAES Panel: Benign Foregut – Opinions and Evidence in the Management of Benign Esophageal Disorders

Session Chair: Marco G. Patti, MD; Session Co-Chair: Eduardo Targarona, MD

### SESSION DESCRIPTION

General surgeons who treat benign esophageal disorders should attend. This session will provide valuable information about the diagnosis of these disorders. In addition, different treatment options will be discussed and recommendations will be based on evidence. Particular cases will be presented to enhance the important points.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Perform a careful and thorough evaluation, establishing a definitive diagnosis
- Understand the pathophysiology of these diseases
- Plan treatment based on the pre-operative evaluation and the characteristics and history of individual patients

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
3:45PM	Evaluation for GERD and Achalasia	Piero Marco Fisichella, MD
4:00PM	Barrett's Esophagus and High Grade Dysplasia. RFA, EMR, Resection?	Stuart Spechler, MD
4:10PM	Total Versus Partial Fundoplication	Brant Oelschlager, MD
4:20PM	GERD in the Morbidly Obese Patient	Blair Jobe, MD
4:30PM	Paraesophageal Hernia: Standards and Controversies	Eduardo M Targarona, MD
4:45PM	Achalasia: POEM is the Answer?	Karl Fuchs, MD
4:55PM	Achalasia: Heller Myotomy is the Gold Standard	Mario Morino, MD
5:05PM	Dysphagia After Heller Myotomy: Options	Marco G Patti, MD

SAGES 2014  
Scientific Session & Postgraduate Courses

## Resident/Fellow Scientific Session

Session Chair: Vanessa N. Palter, MD; Session Co-Chair: Linda P. Zhang, MD

### SESSION DESCRIPTION

In this session, residents and fellows will present their clinical and basic science research to a panel of prominent faculty who are respected in the fields of minimally invasive / bariatric surgery, flexible gastrointestinal endoscopy, and surgical education. After each presentation, panelists will rank each speaker with regard to study content and originality, design and methodology, interpretation of results, and overall presentation skills. Awards will be given to the top two presenters at the conclusion of the session.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Identify challenges and pitfalls in research design, methodology, and critical review of results
- Discuss these challenges and pitfalls in order to improve future study design
- Recognize optimum communication skills in terms of a 10 minute presentation
- Acquire an appreciation for the depth and breadth of research conducted by surgical residents and fellows

### ACTIVITY OUTLINE

## Bariatric Complications for the non-Bariatric Surgeon

**Session Chair:** Ninh Tuan Nguyen, MD; **Session Co-Chair:** Matthew I. Goldblatt, MD

### SESSION DESCRIPTION

Because of the rapid increase in frequency of bariatric operations being performed in the US, surgeons who do not perform these operations are increasingly called upon to evaluate bariatric patients in the emergency room. With little knowledge of the procedures that have been performed, many general surgeons are in unfamiliar territory. This session will focus on recognition and management of common bariatric complications that may present to a general surgeon. A brief overview of the currently recognized procedures and their variations will be discussed. Common postoperative complications will be outlined in detail whereas less common complications will be briefly described. Clinical presentation, work-up, and management schemes for these conditions will be described.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Utilize the current approved bariatric procedures and their variations, as appropriate
- Recognize common complications associated with bariatric operations such as bleeding, obstructions, band slippage, leaks, ulcers, pulmonary embolism, strictures and small bowel obstructions
- Improve management of bariatric complications

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
8:00AM	Understanding Current Bariatric Procedures and its Variations	Matthew Goldblatt, MD
8:15AM	Recognition and Treatment of Leaks	Natan Zundel, MD
8:30AM	Management of Early and Late Obstructions	Daniel Herron, MD
8:45AM	Band Complications (Obstruction, Slippage & Erosion)	Jaime Ponce, MD
9:00AM	Management of GI Bleeding & Biliary Complications	Ninh Nguyen, MD
9:15AM	Q & A Session	

8:00 AM - 9:30 AM

\*Included in Registration SuperPass (Option A) or Registration Option C

## Why Haven't Conversion Rates Improved?

**Session Chair:** Ali Tavakkoli, MD; **Session Co-Chair:** Elisabeth C. McLemore, MD

### SESSION DESCRIPTION

Minimally invasive surgery offers clear benefits to the patient, however is not always feasible and necessitates conversion to open surgery. Despite improvements in surgical technology, equipment and training, the conversion rates to open surgery have however remained largely unchanged, highlighting an area where the field could improve. This session aims to review the trends in rates of conversion, and provide a better understanding of why it occurs and how we could do better.

### SESSION OBJECTIVES

At the conclusion of this session, participants will be able to:

- Assess advantages and disadvantages of conversion to open surgery
- Identify patients at high risk of conversion and adjust surgical decisions accordingly
- Recognize opportunities to reduce conversion rates

### ACTIVITY OUTLINE

Time	Presentation Title	Faculty Name
8:00AM	Trends in Surgical Conversion Rates – Are We Getting Better or Staying the Same?	Dimitrios Tsakayannis, MD
8:15AM	Risk Factors and Clinical Utility of Risk Scores for Conversion	Elisabeth McLemore, MD
8:30AM	You Should Convert Early: Cost, Outcomes and Legal Implications	LD Britt, MD
8:45AM	Don't Rush to Convert: Cost, Outcomes and Legal Implications	Oliver Varban, MD
9:00AM	Looking Ahead: How Do We Improve Conversion Rates?	Abe Fingerhut, MD
9:15PM	Q & A	

Saturday, April 5, 2014

## SAGES Mini-Medical School Boot Camp

*SAGES does not offer CME for this session*

Session Chair: James C. Rosser Jr, MD; Session Co-Chair: Raymond R. Price, MD

High School Rep/ Top Gun for Kids: Elliott Powers

Building on success of previous years, high school students from the Salt Lake City area and SAGES membership will have the opportunity to experience the wonderful world of medicine and minimally invasive surgery. With projected physician and surgeon shortages in the future, this program is timely and hopefully will promote early decisions to join our noble profession. The day is power packed with classroom lectures, tours of the Learning Center and Exhibit Hall and the Top Gun Interactive Experience. Both cognitive and skill competitions with awards and prizes will be offered. So do not delay in contacting SAGES for more information because space is limited.

The SAGES Mini Med School is designed to expose high school students to the field of Surgery through lecture and simulation. Students will begin to appreciate that being in the OR is rewarding, important work, and fun.

**The Interactive Experience** is a power packed hour that will allow the students to show that they have the "right stuff" to join the ranks of laparoscopic surgeons one day. From video games that help decrease errors, to robotic helicopters to FLS and Top Gun drills, this will be a grand finale to the SAGES Mini Med School experience.

Program limited to 100 students. Letter of recommendation from a high school teacher is required.

## SAGES Emerging Technology Session

# Call for Abstracts

**SUBMISSION DEADLINE: January 24, 2014**

All abstracts for this session **MUST BE SUBMITTED ONLINE.**

Please visit <http://www.sages.org/abstracts> for instructions.

You are invited to submit papers to the "Emerging Technology" session to be held during the 2014 SAGES Annual Meeting. The meeting will be held April 2 - 5 in Salt Lake City, UT at the Salt Lake Convention Center.

**This category of abstract is open to both physicians and industry engineers / scientists / researchers. It should be used for reporting on cutting edge or emerging technologies for which formal experimental data may not yet be available. Developers and inventors are encouraged to present their own work.**

**IF YOU ARE PLANNING TO SUBMIT OR DISCUSS ANY IDEAS OR INVENTIONS, before you submit or discuss them, please keep in mind that discussing or displaying them at this meeting may be considered a public disclosure of the idea or invention, which can negatively affect your right to protect that idea or invention. You may also have duties to your employer relating to that idea or invention, and should discuss the impact of a disclosure with the proper representatives of your employer before you submit or discuss it.**

Abstracts will be accepted until **January 24, 2014** and will undergo an expedited review process. This session is appropriate for technologies that may still be under development. Since the Emerging Technology session **will not include CME credit**, topics are not limited to formal studies or experiments but may include description based abstracts or very preliminary results. Presentations will be 5 to 10 minutes in length. Accepted abstracts will be published in the 2014 Meeting App and on the SAGES website.

*Submissions should follow the following format:*

1. Objective of the technology or device
2. Description of the technology and method of its use or application
3. Preliminary results if available
4. Conclusions / future directions

**All abstracts for this session MUST BE SUBMITTED ONLINE.**  
**Please visit <http://www.sages.org/abstracts> for instructions.**

If you have any questions, please contact the SAGES office at 310-437-0544, ext. 118  
FAX: 310-437-0585 or email: [abstracts@sages.org](mailto:abstracts@sages.org).

Sincerely,

Matthew Hutter, MD – 2014 Emerging Technology Chair

Dmitry Oleynikov, MD – 2014 Emerging Technology Co-Chair

# 2014 Learning Center

SAGES does not offer CME for these sessions

SAGES 2014  
Scientific Session & Postgraduate Courses

## 1. Top Gun

**Coordinator:** James "Butch" Rosser, MD

The Top Gun Laparoscopic Skill Shootout Station will allow participants of all levels of training to develop and improve their laparoscopic skills. The station will feature the validated "Rosser TOP GUN" skill development stations developed by Dr. Rosser and made famous at Yale. To date, over 6000 surgeons have participated around the world. Instructors will show tactics and techniques that will transfer readily into the clinical environment. In addition, participants will be completing for slots in the Top Gun Shoot Out that will crown one SAGES 2014 TOP GUN.

### Objectives:

At the conclusion of this activity, the participant will be able to:

- Review the Rosser suturing algorithm
- Perform dexterity skills and suturing exercises using the "Rosser TOP GUN" training stations
- Compete with other surgeons in the Top Gun Shoot Out

## 2. Fundamentals of Laparoscopic Surgery™ (FLS), 2.0/VR Simulation

**Coordinators:** David McClusky, MD and Suvrano De, Sc.D.

Fundamentals of Laparoscopic Surgery™ is a joint program of SAGES and ACS which is now required for board certification of general surgery residents. It was designed to teach physiology, fundamental knowledge, and technical skills that are required for competency in laparoscopic surgery. This station will introduce participants to the FLS technical tasks, as well as innovative Virtual Reality simulator (VBLAST) which has been designed to replicate these tasks in a virtual environment. The web-based content of FLS 2.0 (updated recently with fresh material) will be available to participants as well.

### Objectives:

At the conclusion of this activity participants will be able to:

- Describe the components of the FLS 2.0 program
- Explain the preoperative, intraoperative, and postoperative considerations fundamental to laparoscopic surgery
- Have exposure to the technical tasks involved
- Have exposure to the tasks in an innovative Virtual Reality environment

## 3. Fundamentals of Endoscopic Surgery™ (FES)

**Coordinator:** Jonathan Pearl, MD

Flexible Endoscopy continues to be an important component to a General Surgeons practice. Endoscopy requirements in residency training have increased over the past few years and simulation training will soon be a requirement. This station will showcase the newly developed Flexible Endoscopy training models. These models allow training in scope navigation, tissue

targeting, retroflexion and loop reduction. The models are simple to make and can easily be adopted in a residency training curriculum. This station will also allow the user to utilize a virtual reality simulator for both upper and lower endoscopy.

### Objectives:

At the conclusion of this activity, the participant will be able to:

- Practice valuable endoscopic skills in a reproducible model
- Perform various endoscopic tasks in a virtual reality simulator
- Evaluate the SAGES endoscopic curriculum

## 4. Fundamental Use of Surgical Energy™ (FUSE)

**Coordinator:** Pascal Fuchshuber, MD

SAGES has developed a curriculum to help with the understanding and safe use of energy devices in the operating room. This learning station will allow the user to review the science and safety behind monopolar, bipolar and ultrasonic energy devices.

### Objectives:

At the conclusion of this activity, the participant should be able to:

- Describe the physics behind common energy devices in the operating room
- Demonstrate the safe use of these energy devices
- Evaluate the SAGES FUSE curriculum

## 5. Single Port Laparoscopic Surgery

**Coordinator:** David Renton, MD

Single Port Laparoscopic Surgery is an alternative to multiple port laparoscopic surgery. There are multiple methods to gain entry into the abdominal cavity and multiple techniques to perform the operations. At this station, the user will be able to use the multiple access ports commercially available. The user will also be able to use both straight and articulating instruments to perform various tasks, including suturing on an inanimate trainer.

### Objectives:

At the conclusion of this activity, the participant will be able to:

- Perform various laparoscopic tasks such as suturing and running bowel
- Compare Single Port surgery to traditional laparoscopic surgery
- Insert various types of Single Port Access devices

## 6. Hernia

### \* SPOTLIGHT ON HERNIA \* Activity

**Coordinator:** Igor Belyansky, MD

Complex ventral hernias require an understanding of abdominal wall anatomy. The innervation of the muscles and the blood supply to the abdominal wall skin determine how a complex repair should be approached. This station will demonstrate using videos and an inanimate model how to approach complex abdominal wall hernias.

**Chair:** S. Scott Davis, Jr., MD  
**Co-Chair:** Matthew Goldblatt, MD

### Hours of Operation:

Thurs., April 3, 2014: 9:30 am - 4:00pm

Friday, April 4, 2014: 9:30am - 4:00pm

Sat. April 5, 2014: 10:00am - 1:00pm

### Objectives:

At the conclusion of this activity, the participant should be able to:

- Describe the anatomy of the abdominal wall
- Describe and learn the steps involved with performing a minimally invasive external oblique component separation
- Practice mesh placement and securing techniques

## 7. Laparoscopic Common Bile Duct Exploration

**Coordinator:** Eric Hungness, MD

Laparoscopic common bile duct exploration is a surgical technique that allows the common bile duct to be cleared of biliary stones without the need for open or endoscopic procedures. At this station participants will learn the available techniques used for laparoscopic bile duct exploration.

### Objectives:

At the conclusion of this activity, the participant should be able to:

- Practice the techniques available for cannulating the common bile duct
- Practice various techniques for clearing the common bile duct of stones

## 8. Video Learning Station

**Coordinator:** Ankit Patel, MD

Video Learning is playing an increasing role in the education for surgeons. With increasing variety of procedures being done using minimally invasive techniques, there is increasing opportunity to use video for educational purposes. This station will be designed to provide topic specific education using videos in the SAGES archives. Top videos from the archives addressing the topics of Bariatric surgery, Foregut surgery, and Hernia surgery will be chosen and available to participants to learn operative techniques.

### Objectives:

At the conclusion of this activity participants will be able to:

- Describe operative strategies pertinent to hernia surgery- inguinal hernia and ventral hernia will be addressed with examples given for difficult cases and operative approaches that may be chosen
- Describe operative strategies for bariatric surgery – including primary operations and revisions
- Describe operative strategies for foregut surgery – including primary operations and revisions

- Fundamentals of Endoscopic Surgery (<http://www.fesprogram.org/>)

# Join SAGES Today

*"SAGES has been the most meaningful part of my surgical life. I can't imagine what I'd do without it."*

*"SAGES is the place that I come in my professional life to get excited, to get energized, and to work on projects that have real meaning and are going to come to fruition and have impact. And, it's a place where I meet my friends and make meaningful professional connections."*

*"SAGES brought together a group of energetic, bold, visionaries who had the guts to do things that hadn't been done before and with that, they changed the history of the world and they changed surgery."*

## SEE YOUR MEMBERSHIP PAY FOR ITSELF AND BEYOND!

# Registration & Hotel Reservation Instructions

## Hotel Reservations

### Please book your hotel rooms within the SAGES Hotel Block!

Orchid Event Solutions is providing one stop shopping for SAGES attendees' hotel reservation needs. We have contracted 4 hotels for you to choose what suits your preference. **The quickest and easiest way to reserve a hotel room for SAGES is on-line, [www.sages.org/housing/](http://www.sages.org/housing/).** If you require additional assistance, please call toll free 855-285-4791 or 1-801-433-0664.

#### Reservations Prior to the Deadline:

Book your room through our official housing page  
<http://www.sages.org/housing/>  
Rooms are available on a first-come, first-serve basis!

#### Reservations After the Early Deadline:

Rooms and rates are not guaranteed and are subject to availability. See our online housing page for latest info  
<http://www.sages.org/housing/>

#### Shuttles:

Limited shuttle service will be provided for the Grand America Hotel only. Free fare zone TRAX train is also available. All hotels are within walking distance to the convention center. Additional shuttles will be provided from hotels to social events not within walking distance.

#### Hotel Changes and Cancellations:

Any changes or cancellations are available through the online reservation page. Look for the "Already Have a Reservation" link. Cancellation of hotel reservations made less than 14 days prior to your scheduled arrival is subject to \$50 cancellation fee and beyond that may result in a one-night room and tax charge to your credit card. Check your hotel confirmation letter for individual hotel policy.

#### Suites:

Please contact Orchid Event Solutions to inquire about rates and availability.  
toll free 855-285-4791 or 1-801-433-0664.

## Registration & Housing Early Deadline: February 21, 2014

### Registration

- The quickest, easiest way to register for the SAGES Meeting is on-line, [www.sages.org/registration/](http://www.sages.org/registration/)
- To register for the SAGES meeting by paper, please complete the registration form on pages 61 - 62.
- Don't forget to register for your spouse/guest and social events!

#### Ways to Book Your Hotel Room:

All attendees are responsible for their own hotel reservation. Book online at:  
<http://www.sages.org/housing/>  
Phone toll free 855-285-4791 or 1-801-433-0664

## Hotel Features

All hotels are within walking distance to many of the Salt Lake City's leading tourist attractions and destinations including: the Discovery Gateway, The Temple Square, State Capitol Building, Clark Planetarium and the Leonardo.

Hotel	Single/Double Rate
-------	--------------------

### ① Grand America Hotel & Towers (SAGES Headquarters Hotel) \$245 - \$265/night

555 South Main Street, Salt Lake City, Utah 84111

4 blocks from Salt Palace Convention Center

Salt Lake City's only 5 Diamond Hotel, The Grand America Hotel has the allure of Old World craftsmanship, charm and hospitality. All rooms and suites have been uniquely decorated with European flair with views of the mountains and elegantly landscaped gardens from patios and balconies that add to the feeling of spaciousness. Each room offers the finest in luxury accommodations: elegant linens, plush robes, luxurious imported marble bathrooms, dual-line phones and high speed Internet connections in every room, personal safes and ironing amenities. Suites feature welcoming foyers and graceful French doors leading to the bedroom. Dining options include The Garden Café: casual all-day dining as well as fine dining featuring New American Fusion cuisine; Lobby Lounge: enjoy afternoon tea in this comfortably sophisticated setting as well as fresh appetizers and cocktails in the evening; Gibson Girl Lounge: Reflecting the early 1900s Gibson Girl in the elegantly appointed

lounge where you can enjoy an appetizer and beverage; and 24-hour room Service. The Grand America Spa welcomes you to distinctive European ambience that is dedicated to overall health, fitness and well-being. Relax in the indoor pool or enjoy poolside service at the outdoor pool. The full-service salon and state-of-the-art fitness center, also add tranquility and balance to a renewed self.

### ② Hilton Salt Lake City Center

\$198/night

255 South West Temple, Salt Lake City, Utah 84101

Half block from Salt Palace Convention Center

The Hilton Salt Lake City Center hotel is ideally located in the entertainment district of Salt Lake City and adjacent to the Salt Palace Convention Center. Choose from an array of Guest Rooms, all offering high-speed internet access and panoramic views across the picturesque Salt Lake Valley and dramatic mountain peaks. Work out on modern Precor® equipment in the fitness center, or refresh yourself with a swim in the indoor heated lap pool and whirlpool. During your stay, choose from three great dining options, in-room dining, breakfast restaurant Trofi and Spencer's for Steaks and Chops. Starbucks Coffee is located in the main lobby. Outside of the hotel grounds you will find many attractions to keep you busy, including the Clark Planetarium, the Energy Solutions Arena, Utah Museum of Natural History and Utah's Hogle Zoo. This Salt Lake City hotel is the ideal base for sightseeing as it is conveniently located on the Salt Lake light rail system.

### ③ Salt Lake Marriott Downtown @ City Creek

\$184/night

75 South West Temple, Salt Lake City, Utah 84101

Across the street from the main entrance of Salt Palace Convention Center

Enjoy downtown Salt Lake City hotel in the heart of Salt Lake's premier shopping, dining, and entertainment district, City Creek Center, with easy access to a myriad of attractions; ½ block from the world-famous Temple Square, and world headquarters of the Church of Jesus Christ of Latter-day Saints and the Tabernacle Choir. Work and relax in spacious guest rooms offering a modern mix of high-tech and high style, with movable desks, premium bedding and wireless HSIA. Dining choices include Elevations Restaurant offering a dining experience that blends urban American cuisine with a ski lodge-like ambience; newly renovated Destinations Lounge features a bistro style menu and innovative cocktails, along with craft beers and wines by the glass; and full service Starbucks. The hotel also offers fully equipped health and fitness center with indoor/outdoor swimming pool, sauna and whirlpool. Be inspired by spectacular views of the city and mountains from this downtown

Salt Lake City hotel.

### ④ Hotel Monaco

\$179/night

15 W 200 South, Salt Lake City, Utah 84101

One block from the convention center

Salt Lake City's Guilty Pleasure, the Hotel Monaco, offers convenience for both business and leisure travelers. It is the Salt Lake's first boutique-style hotel beautifully decorated in an eclectic 1940's art deco theme. It features oversized furniture and bright colors, accented by exemplary service. Nationally recognized Bambara Restaurant and Club is located in the hotel. Amenities include hosted evening wine reception and complimentary massages; complimentary newspaper and coffee; in-room fax machines and coffee makers; and complimentary shoeshine. With the Salt Palace Convention Center, Historic Temple Square, Gateway Shopping Center, and the Energy Solutions Arena being just a few steps away; and 10 ski resorts within 30 miles, hotel visitors have the best of all worlds.

SAGES 2014

Scientific Session & Postgraduate Courses

## SAGES Social Programs

### The 17<sup>th</sup> Annual International "SING-OFF" Entry Instructions

#### How to Enter the Competition:

- 1) Due to limited time, you ABSOLUTELY MUST sign up in advance to participate. Acts will not be added on-site.
- 2) Only musical are welcome this year (no video).
- 3) All acts are limited to one song or presentation, not to exceed 5 minutes. The MC has been given "pull the plug" privilege, and will adhere strictly to this time restriction.
- 4) Keep in mind that the Sing-Off is in the name of fun. Serious musicians need not apply!
- 5) Please rehearse your act in advance. You will be performing for about 1,000 of your colleagues!
- 6) When you register, you must include the name of your group, names of participants (aliases are acceptable), name of your act or song, and city or institution. These will be published in the program. Please contact Sallie Matthews at the SAGES office (sallie@sages.org) no later than February 1, 2014 to participate.
- 7) All acts must provide a back-up MP3 at least 2 weeks prior to the event, or notification if live instruments will be used.
- 8) This event is open to all SAGES registrants and exhibitors

### Welcome Reception – A Slew of Equipment Debuts in the Exhibit Hall!

Date: Wednesday, April 2  
Time: 5:30 - 7:30 PM  
Place: Exhibit Hall  
Fee: No Fee for Registrants & registered guests  
Dress: Business casual

### Special promotions, presentations and entertainment. Great food!

**Note: Children under the age of 14 will not be permitted in the Exhibit Hall due to safety considerations.**

### SAGES Meet the Leadership Reception for New SAGES Members Residents and Fellows

Date: Friday, April 4  
Time: 6:00 - 7:00 PM  
Place: The Depot  
Dress: Casual

SAGES is a family that values its new members AND new surgeons. Residents, fellows and new members: join us to chat, drink & snack with SAGES leaders many of whom are world acclaimed innovators in MIS surgery. The consummate networking opportunity.

### Joint SAGES Gala Evening At the Depot Dinner and Sing-Off

Date: Friday, April 4  
Place: 400 West South Temple, Salt Lake City, UT 84101  
Time: 7:00 - 11:00 PM  
Dress: Fun-Casual, wear dancing shoes  
Fee: Included in Registration for SAGES Super Pass (Option A), & registered guests.  
Tickets: \$125.00 (for additional guests and SAGES Registration Options B & C)

Join us at Salt Lake City's premiere entertainment destination for a one-of-a-kind evening that you won't soon forget. Premium open bar, fabulous buffet and the best band in Salt Lake City will make for an unforgettable evening.

**The evening will conclude with the 17<sup>th</sup> International Sing-Off!**

### Tours

This year SAGES will not host our own spouse tours. Once you have made hotel reservations, please contact either your hotel concierge or guest information staff person to get information about local tours. There will be local sites and information fliers and booklets available at the SAGES registration desk on site.

### Skiing and Winter Sports Activities

Before or after the meeting,  
enjoy four world class ski resorts,  
just minutes from the downtown

Visit <http://www.visitsaltlake.com/ski/>  
the official site for Salt Lake Ski Resorts
