

TECHNOLOGY & TRAINING IN ENDOUROLOGY 2015

Wednesday 11th November 2015 – Friday 13th November 2015
Cottolengo Hospital, Torino

Wednesday 11th November 2015

8:15: Registration

**8.45: Opening address of the board of the Cottolengo Hospital,
Don Lino Piano, Suor Maurizia Cardone, Dott.ssa Mariella Enoc, Prof. Roberto Russo**

09.00 **Introductory clue:** The BPH clinical path - C. M. Scoffone

09.10 Technological evolution of BPH treatment - V. Pansadoro

09.30 LIVE SURGERY: ThuLEP - T. Knoll

OR provoker: R. Naspro

Provokers: G. Muto, L.Nava

The anatomical vaporization: definition, scheme, results P. Destefanis

Bipolar enucleation: technique and devices - A. Meneghini

Holmium laser enucleation: techniques and laser settings - I. Vavassori

Bleeding control during BPH surgery, the various coagulation approaches - T. Aho

11.00 LIVE SURGERY: GreenLight prostate anatomical vaporization - L. Ruggera

OR provoker: L. Cindolo

Provokers: T. Aho, G. Ferrari

The evolution of the Thulium laser for BPH treatment - T. Knoll

The laparoscopic Millin adenomectomy: a miniinvasive alternative? - F. Porpiglia

13.00 LIVE SURGERY: En-bloc no-touch HoLEP - F. Blefari

OR provoker: L. Cindolo

Provokers: G. Bianchi T. Aho

13.30: Lunch, visit to the exhibition area

14.30 LIVE SURGERY: Urolift application – B. Rocco

BPH MIS treatment and sexual complications.

Moderators: R.M. Scarpa, V. Pansadoro

15.00 Impact of medical therapies for BPH and other comorbidities on sexual activity - F. Ragni

15.15 Erectile dysfunction and anejaculation after BPH: diagnosis and treatments - L. Rolle

15:30 LIVE SURGERY: Bipolar enucleation of prostate - A. Meneghini

OR Provoker: R. Naspro

Provokers: T. Aho, L.Nava

Sistema Qualità **ISO 9001**

Progettazione e Erogazione ECM

16.15 ROUND TABLE: Pathophysiology of the obstructed detrusor muscle of the bladder

Moderators: S. Rocca Rossetti, R. Carone, D. Fontana

The “right” moment for BPH surgery: anatomic and physiological considerations - C. M. Cracco

The diagnostic role of a well-conducted cystourethrogram - C. De Feo

Preoperative urodynamic evaluation and surgical outcomes - L. Squintone

17.15 LIVE SURGERY: ThuLEP LISA - G. H. Boucsein

OR provoker: G. Zarrelli

Provokers: B. Rocco, C. Terrone

Revisiting TUIP - R. Naspro

Multimodal therapies (pharmacology, radiotherapy, surgery) for prostate cancer with LUTS - D. Prezioso

18:30: Conclusions

Thursday 12th November 2015

8:00: The urolithiasis clinical path - C. M. Scoffone

08.15 LIVE SURGERY: ECIRS - L. Cindolo, P. Acquati

OR provoker: S. Ferretti

Provokers: P. Osther, A. Saita

09.30 The fascinating journey in endourology - R. M. Scarpa

09.45 ROUND TABLE: RIRS/PNL dealing with the physiological aspects of the collecting system

Moderators: E. Montanari, J. Rassweiler

Pathophysiology of ureterorenoscopy - P. S. Osther

Hydrodynamic improvements in miniaturized PNL - U. Nagele

Are you a micro, mini, midi, or maxi PNL surgeon? E. Liatsikos

Miniaturized PNL and the issue of intrarenal pelvic pressures - A. Hoznek

10.30 RIRS and PNL, pros and cons of the various anaesthesiological approaches - D. Dongu

10.45 LIVE SURGERY: RIRS - O. Traxer

OR provoker: A. Saita

Provokers: E. Montanari, A. Breda

RIRS mortality cases - L. Cindolo

The Avicenna robot in ureteroscopy - J. Rassweiler

Laparoscopic pyelolithotomy: a miniinvasive alternative in selected cases - A. Celia

Sistema Qualità **ISO 9001**
Progettazione e Erogazione ECM

12.30 LIVE SURGERY: LIVE SURGERY: RIRS C.M. Scoffone

OR provoker: R. Miano

Provokers: L. Cormio, G. Giusti

13:30: Lunch, visit to the exhibition area

14.45 Show me your stone: planning the strategy and the intraoperative choices - O. Traxer

15.00 LIVE SURGERY: Mini PNL - A. Hoznek, A. Saita

OR provoker: P. Osther,

Provokers: E. Montanari, U. Nagele

16.00 Myths, facts and future concepts of pre- and post-operative CT in stone surgery - U. Nagele

Introductory clue: The TCC clinical path (bladder and UUT) - C. M. Scoffone

16.15 ROUND TABLE: What's new in the conservative management of UTUC

Moderators: P.Osther, C.M. Scoffone

Safe and effective diagnostic ureteroscopy: tips and tricks - G. Giusti

Conservative management of UTUC: selecting the right patient - A. Breda

Adjuvant instillations in UTUC: when and how - O. Traxer

Surgical conservative approach in confined ureteral UTUC - M. Brehmer

17.15 LIVE SURGERY: En bloc TURB - C. Terrone

OR provoker:

Provokers: M. Brausi, M. Brehmer

17.45 Diagnosis and conservative treatments for bladder cancer in 2015: an update - M. Brausi

18:30: Conclusions

Friday 13th November 2015

08.30 LIVE SURGERY: ECIRS - G. Giusti, L. Villa

OR provokers: A. Saita

Provokers: U. Nagele, A. Hoznek

09.30 ROUND TABLE: Nightmares in endourology: how to avoid the worst complications

Provoker: E. Liatzikos, A. Breda

Panelists: L. Cindolo, R. Naspro, S. Ferretti, R. Miano, L. Ruggera, S. Proietti

11.00 LIVE SURGERY: RIRS - A. Frattini

OR provoker: L. Cormio

Sistema Qualità **ISO 9001**
Progettazione e Erogazione ECM

Provokers: O. Traxer, P. Osther

12.00 ROUND TABLE: Training modalities in endourology: from basic science to technology

Moderators: E. Huri, D. Veneziano

Mentorship in endourology training

Standard curriculum for PNL and URS/RIRS

Animal and cadaveric models - R. Miano

Simulators in the market

Technology transfer models for the best tools in endourology

13.00 Concluding remarks and take home messages - C. M. Scoffone

ACRONIMI

BPH - Benign prostatic hyperplasia

ThuLEP - Enucleazione della Prostata con Laser Thulium

HoLEP - Enucleazione della Prostata con il Laser ad Olmio

TURB - Resezione transuretrale di neoformazione vescicale

TUIP - Incisione transuretrale della prostata

LUTS - Lower Urinary Tract Symptoms, ossia sintomi a carico delle basse vie urinarie

ECIRS - Endoscopic Combined Intrarenal Surgery

RIRS - Retrograde Intrarenal Surgery, (Chirurgia Intra Renale Retrograda)

URS - Litotripsia ureterale endoscopica

PNL - Litotripsia percutanea renale

CT - computed tomography

UUT - upper urinary Tract

TCC - carcinoma a cellule transazionali

UTUC - tumori uroteliali dell'alto apparato urinario

Razionale Scientifico

Il corso si articolerà su tre giorni di intenso confronto e dibattito sui vari steps delle principali metodiche della chirurgia endourologica, durante le quali si alterneranno faccia a faccia e discussioni focalizzate sulle tecnologie e sulla problematiche del training nella chirurgia endoscopica miniinvasiva.

Anche quest'anno sarà dato ampio spazio alla Live Surgery che vedrà coinvolti oltre ad un panel di esperti nazionali ed internazionali, anche giovani urologi, che potranno avvalersi di un tutor con il quale pianificare e discutere l'intervento passo dopo passo.

La nostra speranza è che questa esperienza rappresenti un'occasione di crescita comune, nel segno dell'innovazione tecnologica e del dibattito costruttivo.
