

Resistant Hypertension Course

Novel approaches for the management of a patient presenting with Resistant Hypertension

Programme at-a-glance

08:00	DAY 1 - Reflecting on knowledge	DAY 2 - Sharing experience
08:30		
09:00	Arrival / Course Registration	What are the different available technologies for targeting the sympathetic nervous system?
09:30		
10:00		
10:30	<div>10:30-10:40</div> <div>Welcome - Course programme, objectives and guidelines</div>	European Country National Registry - Sharing experience together and building a great common future
11:00	Opening Lecture: What? Why? How? When? For whom? Setting the stage and key messages	Break
11:30	My patient presents with "uncontrolled hypertension": Ruling out all spurious resistant hypertension causes 1 - A step-by-step, tailored pathway 2 - Most frequent causes of spurious RH: identification and elimination 3 - Ruling out other causes: a holistic team approach is key 4 - Reaching a consensus together	Tips and hints for different RDN techniques - Part I <i>Live-in-a-Box® based practical discussions</i>
12:00		
12:30		
13:00	Industry-supported Lunch Symposium	Industry-supported Lunch Symposium
13:30		
14:00	Break	Break
14:30	Is my resistant hypertensive patient a candidate for renal denervation? - Part I 1 - Signs of hyperactivity of the sympathetic nervous system 2 - The "Ideal candidate" for RDN 3 - Lessons learned from "non-responding" patients after RDN	Tips and hints for different RDN techniques - Part II <i>Live-in-a-Box® based practical discussions</i>
15:00		Post-procedure treatments and follow-up modalities: A consensus linked to European Registries
15:30		
16:00	Break	Keynote lecture: Perspectives, next steps and closing remarks
16:30	Is my resistant hypertensive patient a candidate for renal denervation? - Part II 4 - Patients seen in cardiology centers: are they good candidates for RDN? 5 - Is it time to push the envelope of RDN? 6 - Reaching a consensus together	
17:00		
17:30		
18:00	"What do we need from a health economics perspective?" Key take away messages	
18:30		
19:00	Industry-supported Evening Symposium	
19:30		
20:00		

Resistant Hypertension Course

A Unique Course - created by and for the whole community involved in the management of hypertensive patients

A distinctive format

- › A continuum, from a dedicated website **www.resistanthypertensioncourse.com** to a very interactive meeting, aiming to answer the key question: "What is the best management and technical strategy for each individual patient presenting with resistant hypertension?"
- › Open-minded and interactive discussions with participants around individual patient cases, presented in a unique practical format, with underlying logical reasoning path, from the GP's clinical practice to the expert team's consensus
- › Clear data-based synthesis
- › Credibility and integrity in reaching consensus
- › Sharing participants experience, practical tips and hints along with key messages, around PCR Live in-a-Box®, recorded in one European Excellence Centre

Built from expertise in post graduate learning,
based on PCR experience.

Sharing is the heart of education
