MILAN BREAST CANCER CONFERENCE

Webcast and residential

23/26 June 2015

Chair:

Umberto Veronesi
Aron Goldhirsch
Mario Rietjens

Scientific Committee:

Saverio Cinieri
Marco Colleoni
Giuseppe Curigliano
Francesca De Lorenzi
Viviana Galimberti
Mattia Intra

2nd announcement

**Innovation
in care and
research**

www.breastmilan.com

Offering health care professionals who care for breast cancer patients access to the most advanced developments in patient care and clinical research in the field is the primary goal of the 2015 Milan Breast Cancer Conference. The meeting encompasses the full range of breast cancer care and integrates innovation and research from basic and translational science to evidence-based medicine. This engaging conference include a wide range of clinical experts in translational, medical, surgical, and radiation oncology thus emphasizing a multidisciplinary approach and translating scientific knowledge into clinical practice. Interactive learning formats such as group case discussions, Q&A and panel presentations will assist clinicians in solving challenging clinical cases, address controversial topics, and offer practical treatment strategies. Innovation and research are the main features allowing progress to be spread optimizing **care** and improving **prevention**.

The faculty of the MBCC has always provided and will continue to provide information and data regarding the most recent developments in the field in the future. The goal is to clarify the most innovative approaches that may be already translated into daily practice to the audience. Interactive discussion on controversial areas in breast cancer care is a further important feature of the conference and the faculty members are genuinely interested in an open discussion on controversial topics. This latter characteristic of the Milan Breast Cancer Conference will continue to be its leading feature. Experts in imaging diagnostics, pathology & molecular biology, prevention, genetics, surgery & reconstruction, radiation therapy, medical oncology, psycho-oncology, gynecology, rehabilitation & nursing represent the multidisciplinary faculty of the conference.

A major innovation in this year's meeting is the availability of the full conference on the web, giving the opportunity for interested professionals to participate in the Conference and enjoy lectures and discussions through a **webcast** attendance. On the other hand, residential on site participation will provide the audience with the opportunity to discuss directly with members of the faculty.

The Conference is divided into 2 initial days mainly related to plastic and reconstructive surgery. This part of the program is mainly of interest for surgeons. The remaining 2 days of the Conference are dedicated to breast cancer multidisciplinary topics, including diagnostics, pathology, prevention, genetics, surgery, radiation therapy and systemic treatments. As usual, areas of controversy are dealt with in specific spotlight lectures. The faculty is composed of experts and opinion leaders committed to provide a first class educational performance.

This year it will also be possible to be connected via a WEB access and organize "satellite meetings" in different countries in order to stimulate exchange of experience and knowledge.

The program is addressed to radiologists, pathologists, medical, surgical, and radiation oncologists interested in care of patients with breast cancer. Fellows, physician assistants, researchers, and other health care professionals interested in care and research of breast cancer may as well find several topics of interest.

Umberto Veronesi, Aron Goldhirsch, Mario Rietjens

PROGRAMME

Tuesday 23rd June

07.30 Registration

07.45 Opening session: W. Audretsch, K. B. Clough and J.Y Petit.

08.00 Operating theatre n. 4:

- Nipple sparing mastectomy and immediate reconstruction with implants or tissue expander.
- Conservative breast cancer surgery and bilateral oncoplastic reshaping (1 or 2 cases).
- Tissue expander replacement and nipple and areola reconstruction.

08.00 Operating theatre n. 5:

- Breast reconstruction with pedicled TRAM flap.
- Immediate breast reconstruction with implants and ADM (1 or 2 cases)
- Fat grafting with the Coleman technique and Lipokit for refinements or total breast reconstruction.

Coffee and lunch station in the exhibition area

18.00 Final discussion

The final program might change, depending on the patients' recruitment.

The "dead time" between surgeries will be used for discussion with chairmen, focusing on surgical tips and tricks and using edited videos.

Wednesday, 24th June

08.00 Operating theatre n. 4:

- Breast reconstruction with latissimus dorsi flap.
- Sentinel node biopsy and axillary dissection.
- Delayed breast reconstruction with implants.
- Breast implant revisions

PROGRAMME

- 08.00 Operating theatre n. 5:
- Bilateral reduction mammoplasty with inferior or superior pedicle.
 - Correction of breast asymmetry (Poland's Syndrome).
 - Breast implant revisions.
 - Nipple and areola reconstructions and fat grafting.

Coffee and lunch station in the exhibition area

- 18.00 Final considerations

The final program might change, depending on the patients' recruitment.

The "dead time" between surgeries will be used for discussion with chairmen, focusing on surgical tips and tricks and using edited videos.

Thursday 25th June

- 08.30 Opening
Aron Goldhirsch - Umberto Veronesi

Imaging of breast cancer

Chair Christiane Kuhl

Co-chair Enrico Cassano

- 08.45 Breast cancer screening: balancing benefits and harms - Peter Juni
09.00 Checking response to treatments using MRI - Christiane K. Kuhl
09.15 Checking response to treatments using PET scan - Andreas Makris
09.30 Using x-ray imaging in BRCA1 & 2 carriers - Andrea De Censi
09.45 Q&A

- 10.00 Coffee break

Pathology and molecular testing

Chair: Sibylle Loibl

Co-chair Giuseppe Viale

- 10.30 Why is it so difficult to standardize immunohistochemistry for breast cancer? - Giuseppe Viale

PROGRAMME

- 10.45 How to deal with the heterogeneity of breast cancer? - Nicholas Turner
- 11.00 Are we ready for additional markers with therapeutic relevance?
Sibylle Loibl
- 11.15 When to prescribe gene signature testing (as opposed to relying upon immunohistochemistry)? - Aleix Prat
- 11.30 All you wanted to know about in situ neoplasia and you were afraid to ask - Fraser Symmans
- 11.45 Q&A

12.00 **Spotlight**

What can we learn from proper pathology banking? Is it worth the cost? (examples) - Barry Gusterson

12.20 Lunch

Surgery presentations

Chair Viviana Galimberti

Co-chair Krishna Clough

- 13.30 Breast surgery in very special clinical scenarios - Oreste Gentilini
- 13.45 Is it time to declare close the era of the sentinel node biopsy? - Roberto Agresti
- 14.00 Are surgical margins still important? - Monica Morrow
- 14.15 Conservative surgery in multifocal cancer - Paolo Veronesi
- 14.30 Does risk-reducing surgery improve overall survival in BRCA1-2 mutation carriers? - Mehra Golshan
- 14.45 Q&A
- 15.00 EIO Award - Krishna Clough

Post-operative adjuvant systemic therapies

Chair M. Colleoni

Co-chair A. Di Leo

- 15.30 Treating patients with luminal A and B breast cancer - William Gradishar
- 15.45 Treating patients with HER2 positive breast cancer - Harold Burstein
- 16.00 Treating patients with various types of triple negative breast cancer
Angelo Di Leo
- 16.15 Q&A

PROGRAMME

16.30 Coffee break

Adjuvant therapies for special populations with breast cancer

Chair Giuseppe Curigliano

Co-chair Michelino De Laurentiis

17.00 Pregnancy and strong wish for child bearing and very young women
Fedro Peccatori

17.15 Survivors of other malignancies - Michelino De Laurentiis

17.30 Autoimmune diseases with systemic relevance in cancer medicine
Giuseppe Curigliano

17.45 Adjuvant therapies and co-morbidities: how to optimise the risk/benefit
ratio - Pierfrancesco Conte

18.00 Q&A

18.15 Spotlight

Neoadjuvant treatments: how useful can it be?

Marco Colleoni

18.40 Adjourn

Friday 26th June

08.30 Interactive multidisciplinary corner

Chair William Gradishar

Co-chairs Aron Goldhirsch, Jay Harris

Three clinical cases presentations:

BRCA1 and 2 mutated - Mattia Intra

Elderly patient - Viviana Galimberti

Very young patient - Oreste Gentilini

10.30 Coffee break

PROGRAMME

Metastatic breast cancer

Chair Pierfrancesco Conte

Co-chair Giuseppe Curigliano

- 11.00 Accelerating research for new drugs in advanced breast cancer (with examples) - Giuseppe Curigliano
- 11.15 How to stage women with advanced breast cancer avoiding abuse of imaging? - Carlo Tondini
- 11.30 Supportive care for women with advanced breast cancer: use and abuse - Paolo Pronzato
- 11.45 Beyond second and third line therapies: a lawless jungle! - Harold Burstein
- 12.00 Q&A
- 12.15 **Spotlight**
Surgery and other local treatments for the breast cancer and its metastases: how far can you go? - Mattia Intra
- 12.40 Lunch

Plastic surgery presentations

Chair Mario Rietjens

Co Chair Francesca De Lorenzi

- 13.30 News on oncoplastic surgery - Krishna Clough
- 13.45 Biological meshes in Breast reconstruction - Jian Farhadi
- 14.00 Update on breast fat grafting - Jean Yves Petit
- 14.15 Lymphedema treatment combined with repair of the axillary and breast region by Microsurgery - Corinne Becker
- 14.30 Q&A
- 14.45 **The best poster session**
Chair Fabio Bassi
- 15.05 **Spotlight**
News from St. Gallen
Marco Colleoni

PROGRAMME

Radiotherapy session

Chair Alphonse Taghian

Co-chair Roberto Orecchia

- 15.30 Risk factors for local recurrences after breast conserving therapy - Jay Harris
- 15.45 Is radiation therapy needed after all? - Roberto Orecchia
- 16.00 Target volume delineation and outcome after breast oncoplastic surgery - Alan Fourquet
- 16.15 Personalized radiotherapy in breast cancer - Birgitte Offersen
- 16.30 Side-effects of breast irradiation - Alphonse Taghian
- 16.45 Q&A
- 17.00 Conclusions

Abstract Submission

INSTRUCTIONS FOR ABSTRACT SUBMISSION

Participants with new data relevant to the subjects of the conference may submit one abstract to be considered for e-poster presentation.

Only papers whose abstracts have been reviewed and approved by the Scientific Committee will be presented as e-posters.

Abstracts must be written in English and the text should not exceed 2000 characters (title included). The title should appear in capital letters. For each author, type surname first followed by given name and initials (presenting author in capital letters). List affiliations after the authors' list. The full address with telephone number, fax number, and e-mail of the corresponding author must be provided. The latter will receive all the subsequent communications concerning the abstract.

Once accepted, the full paper can be presented and should be limited to 6 slides, containing the following sections: background, material methods, results, conclusions. The slides must be sent to the Organising Secretariat (mbcc@ieo.it) within May 15th, 2015, in order to be uploaded in the e-poster player. Please indicate your approval for publication in case the abstracts will be published in a journal.

Please note:

Only abstracts submitted by registered participants will be accepted. It is the responsibility of the presenting author to ascertain whether all authors are aware of the content of the abstract before submission.
