

ESO – Karolinska Stroke Update 2014-05-16
November 17-18, Stockholm
Scientific Programme

Monday, November 17th

- 08:30 Welcome address and introduction
Nils Wahlgren, Stockholm and Michael Brainin, Krems
- 08:40 Asymptomatic Carotid Stenosis - do we need surgery, stenting, medical therapy?
- 08:45 Current status of asymptomatic carotid stenosis - evidence and ongoing trials
- 09:00 Which is the best medical treatment for carotid stenosis?
- 09:20 The case for a trial of asymptomatic carotid surgery vs aggressive medical therapy
- 09:40 Draft consensus statement / Updated guidelines
- 09:50 Discussion and Consensus Statement
- 10:05 Coffee Break
- 10:40 Special Lecture
- 11:05 Haemorrhagic stroke - when to restart anticoagulant treatment?
- 11:10 Intracranial haemorrhage under anticoagulation, a review
- 11:20 Intracranial haemorrhage in patients under oral anticoagulants, when and how to restart
- 11:25 Draft Consensus Statement / Updated guidelines
- 11:35 Discussion and Consensus Statement
- 11:50
to Lunch
- 12:50
- 12:50 Atrial fibrillation and Oral anticoagulants
- 12:55 New oral anticoagulants vs. warfarin in patients with AF - meta analyses
- 13:15 Critical comment
- 13:30 New oral anticoagulants - the stroke perspective
- 13:45 Screening for Atrial Fibrillation in acute stroke
- 14:00 Draft Consensus statement / Updated guidelines
- 14:15 Discussion and Consensus Statement
- 14:30
to Coffee Break
- 15:00
- 15:00 Stroke management in the elderly
- 15:05 Decompressive surgery over age 60
- 15:20 Thrombolysis in the elderly - any upper age limit?

15:40 Thrombectomy in the elderly - any upper age limit?
16:00 Secondary prevention in the elderly stroke patient
16:20 Draft Consensus statement / Updated guideline
16:30 Discussion and Consensus Statement
16:45 SITS session

Tuesday, November 18th

08:30 Intravenous Thrombolysis
08:35 Intravenous Thrombolysis in acute ischaemic stroke - updated meta analysis
08:50 Symptomatic intracerebral haemorrhage - is there an optimal definition?
09:05 Thrombolysis treatment under anticoagulation

09:20 Improving Door-to-needle time - The SITS WATCH study
09:35 Draft Consensus statement / Updated guidelines
09:45 Discussion and Consensus Statement
10:00 Coffee break
to
10:30
10:30 Mechanical thrombectomy in acute stroke
10:35 Status of the evidence
10:50 Ongoing trials
11:10 Thrombectomy devices - the technical development
11:25 Draft Consensus statement / Updated guidelines
11:35 Discussion and Consensus Statement
11:50
to Lunch
12:50
12:50 Special lecture
13:20 Prehospital management
13:25 What is standard care in the prehospital care of stroke patients?
13:40 Prehospital care of stroke - a visionary approach
13:55 Draft Consensus Statement / Updated guidelines
14:05 Discussion and Consensus Statement
14:20 Coffee Break

to

14:50

14:50 Special lecture

15:20 Update on management in acute stroke

15:25 Management of Hypertension, Hyperglycemia and Hyperthermia

15:35 Management of early complications

15:40 Stroke units in Europe - Definitions and availability

15:50 Management on concomitant diseases

16:20 Draft Consensus statement / Updates guidelines

16:30 Discussion and Consensus Statement

16:45 Closing of the meeting

to

16:55
