

FRENCH SOCIETY FOR IMMUNOLOGY

Association, 1901 Law (non profit organization)
Founded in 1966 by Pierre Grabar
Public utility recognized in 1978

Comité National Français d'Immunologie
at the French Academy of Sciences (**COFUSI**)

Represents France at

EFIS (European Federation of Immunological Societies)
IUIS (International Union of Immunological Societies)

Member of

FOCIS (Federation of Clinical Immunology Societies)
ODPCI (Organisme de Développement Professionnel Continu
en Immunologie)
CNPAI (Conseil National Professionnel d'Allergologie et
d'Immunologie)

Partners

Institut Pasteur

ASSIM (Association of the boards of Immunology Professors
from French-speaking Universities)

Head Office: Institut Pasteur, 28 rue du Docteur Roux - 75015 Paris
Office: 191 rue de Vaugirard - 75015 Paris
Tel : 33 1 45 66 85 97
Email : sfi-communication@orange.fr

SOCIETE FRANCAISE

D'IMMUNOLOGIE

FRENCH SOCIETY FOR IMMUNOLOGY

**is delighted to announce
the arrival of ...**

**on April 10, 2015
at FIAP, Paris**

Neutrophil Club

This Club was established by a group of scientists with an interest and experience in neutrophil biology. Indeed, in recent years there has been a growing interest in neutrophils as studies have demonstrated that these cells can act as effectors in both innate and adaptive immunoregulatory networks.

The Neutrophil Club will promote meetings and facilitate exchanges between scientists not only in France but within the wider research community with links to European networks through the European Immunology Societies and also with the global neutrophil community.

As the neutrophil community values diverse research knowledge and ideas, we will welcome all new members. We hope you will join us at our inaugural colloquium, to be held on April 10th 2015 in Paris.

1ST MEETING OF THE NEUTROPHIL CLUB
Affiliated to the French Society for Immunology

NEUTROPHILS ONSTAGE AND OFFSTAGE

FRIDAY APRIL 10TH, 2015 @ FIAP, PARIS

ORGANIZING COMMITTEE

Pierre Bruhns, Sylvie Chollet-Martin, My-Chan Dang, Jamel El-Benna, Véronique Witko-Sarsat

THE COMPLEX EPIGENETIC REGULATION OF NEUTROPHILS

Marco Cassatella (University of Verona, IT)

OXYGEN: A MAJOR ACTOR IN NEUTROPHIL'S LIFE

Sarah Walmsley (University of Edinburgh, UK)

Benoît Marteyn (Pasteur Institute, Paris, FR)

NEUTROPHILS IN DISEASE: THE CYSTIC FIBROSIS EXAMPLE

Gerry MacElvaney (Royal College of Surgeons in Ireland, Dublin, IR)

LYSOSOMAL CELL DEATH IN QUESTION

Charaf Benarafa (University of Bern, CH)

THE AFTER-LIFE OF NEUTROPHILS

Andres Hidalgo (CNIC Madrid, SP)

Deadline abstracts: March 7th (www.sfi-immunologie.fr)

FIAP → 30 rue Cabanis, 75014 Paris

Highlights on new aspects of neutrophil biology

Open to SFI members and non-members

Oral presentations and posters selected from submitted abstracts

A forum to stimulate new collaborations

Communication price offered by Journal of Innate Immunity

Journal of **Innate Immunity**
