

EuroPrevent 2014

THE EACPR ANNUAL MEETING

2nd ANNOUNCEMENT

GLOBAL CARDIOVASCULAR HEALTH

www.escardio.org/EuroPrevent

EuroPrevent 2014: Global Cardiovascular Health

The annual congress of the **European Association for Cardiovascular Prevention and Rehabilitation (EACPR)**, is the **premiere international forum** where **leading experts** from diverse scientific fields in cardiology get together to **discuss implementation strategies** aimed at improving cardiovascular health.

EuroPrevent 2014 provides key information on latest news, technology, scientific output and guidelines in the field of cardiovascular prevention. It is the place where cardiologists, scientists, general practitioners, nurses & allied professionals, ... can meet and discuss multi-disciplinary approaches to tackle CVD.

"Cardiovascular disease has long ceased to be a problem uniquely linked to affluence and Western societies [...] The lessons learned need to be blended with the specific cultural, social and etiologic factors that determine the steady rise of metabolic and cardiovascular disease around the globe [...] We join forces to enter a new era of fight against the burden of cardiovascular disease on an unprecedented scale. Treatment can never provide a complete answer and prevention is the only solution. As prevention is the passion of those gathering at the congress, EuroPrevent 2014 is an event you should not miss."

Stephan Gielen

EuroPrevent 2014

Key scientific programme content

for cardiologists, scientists, general practitioners, nurses & allied professionals, policy makers...

- NEW**
- Special tracks for general practitioners, nurses and cardiologists in training, focusing on diabetes, telemonitoring, hypertension and renal denervation (Friday 9 May)
 - Masterclass on scientific methods for conducting studies in preventive cardiology (Thursday 8 May)
 - State-of-the-art presentations, "How-to" sessions, Special tracks and Debates with a focus on Sports Cardiology, Cardiac Rehabilitation and Prevention (Friday 9 and Saturday 10 May)
 - Joint sessions with local, European and International Associations (Thursday 8, Friday 9 and Saturday 10 May)
 - Third global Forum on CVD Prevention in Clinical Practice

Key opportunities for you to contribute and network

The message of prevention starts with all our combined efforts.

Submit your abstract and get recognition with various ways and initiatives such as:

- Grand Rounds (Clinical case-based discussions)
- Young Investigator Award (YIA) sessions - Basic and Translational Science and Clinical Science
- Flash presentations
- Poster sessions with dedicated "key note" scientists reviewing all presentations

Submit your abstract online
www.escardio.org/EuroPrevent
before 15 November 2013

Incentive for young researchers

"Exchange of knowledge and interaction play a key role in the promotion of scientific talent in addition to excellent facilities."

I amsterdam.

- Two YIA winners of the prestigious 'Amsterdam Young Scientist Award' will be provided a grant of €2 500 and the chance to write an article for the European Journal of Preventive Cardiology **NEW**
- Free registration offered to selected YIA presenters and winners of the two award sessions
- More networking opportunities in the poster area between young cardiologists and renowned international health experts

EUROPEAN ASSOCIATION FOR CARDIOVASCULAR PREVENTION AND REHABILITATION

About EACPR

The European Association for Cardiovascular Prevention and Rehabilitation (EACPR) is a registered branch of the European Society of Cardiology, representing over 3 500 health professionals. EACPR aims at promoting excellence in research, practice, education and policy in cardiovascular prevention and rehabilitation in Europe, through the European Journal of Preventive Cardiology (EJPC), and the EuroPrevent congress.
