

26th September

08.00	Registration of Delegates
09.00-12.00	work in groups with the instruments and implants, production DePuy, Smith&nephew, Zimmer, Biomet, vehicles, Aesculap, Lima and work-shop on the equipment Ceramtec to reinforce the skills of using implants with ceramic friction pairs
12.00-12.30	Coffee breaks
12.30-14.00	Instructional lectures "Selected Questions of Primary Hip Arthroplasty" Lectures on the "Favorite questions primary treatment MRF" Moderator Куропаткин Mr..in
15 mins	On meniscuses access. Walking without crutches from the very first day? Or for which all need this? Markus Michel (Мунсинген, Switzerland)
15 mins	Transverse femoral shortening in THA by congenital dysplasia Christian Goetze (Bad Oeynhausen, Germany) Christian Готце (Bad Оинхаузен, Germany)
15 mins	High public opinion thigh - reading, planning, and technology operations Paavilainen <i>Rashid Tikhilov (Saint-Petersburg, Russia)</i>
15 mins	Modern diagrams тромбопрофилактики when primary Periareoral approach MRF Ljudmila BOZHKOVA WITH.as well. (Saint Petersburg, Russia)
30 mins	Collate clinical cases
14.00-15.30	Instructional course lectures Selected Questions of Revision Hip Arthroplasty Favorite issues audit treatment MRF Moderator Тихилов R.m.
15mins	X-ray analysis and prerevision diagnosis <i>Christian Goetze (Bad Oeynhausen, Germany)</i>
15 mins	Reconstruction defects femur bone when audit Periareoral approach
15 mins	Principles of Acetabulum Reconstruction <i>Todd Secundiak (Omaha, USA)</i>
15 mins	Trabecular metal or reinforcement rings <i>Rashid Tikhilov (Saint-Petersburg, Russia)</i>
30 mins	Collate clinical cases
15.30-16.00	Coffee Break
16.00-18.30	Symposium: Wear Bearings in Joint Arthroplasty Moderator Vladimir Danilyak
16.00-16.10	General Questions of Tribology <i>Igor Shubnyakov (Saint-Petersburg, Russia)</i>
16.10-16.25	Bearings in Hip Arthroplasty: Is there a perfect fit? <i>Farez Haddad (London, Great Britain)</i>
16.25-16.40	Bearings in Knee Arthroplasty: Is there a perfect fit? <i>Daniël Saris (Amsterdam, Netherlands)</i>
16.40-16.55	Wear and corrosion of metal and ceramic bearings <i>R. Streicher (Plochingen, Germany)</i>
16.55-17.10	The truth about the metal-on-metal bearings <i>Claude Rieker (Winterthur, Switzerland)</i>
17.10-17.20	MRI diagnostic options of the complications after MOM hip arthroplasty <i>Vladimir Danilyak (Yaroslavl, Russia)</i>
17.20-17.30	Ceramic on Ceramic –
17.30-17.40	My choice - Ceramic on XLPE <i>Javad Parvizi (Philadelphia, USA)</i>
17.40-17.50	Why I choose Metal on XLPE? <i>Gennady Kuropatkin (Samara, Russia)</i>

26th September

17.50-18.05	What is more important: material or correct positioning of the components? <i>Hartmuth Kiefer (Germany)</i>
17.05-18.30	<i>Discussion</i>

27th September

7.30-8.00	Registration of participants
8.00-8.05	The opening of the conference
	Endometrial hyperplasia approaches in treatment гонартроза - that has brought a new twenty-first century?
8.05-8.20	Conservative treatment with the evidence-based medicine
8.20.-8.35	Whether or not to continue to be relevant indications in patients остеоартрозом?
8.35-8.50	Correction appliances околосуставные leg osteotomy planning when гонартрозе: select level - thigh?
08.50-9.10	Clinical studies: a patient with a young age гонартрозом and damage FOS
	Одномышечковое knee surgery
09.10-09.25	The readings and contraindications to unilateral or bilateral hypoplasia одномышечковому Ants Kass (Tallinn, residential property)
09.25-09.40	Functional outcomes in patients after partial артропластики knee compared with an all-pervasive substitution: are there any differences?
09.40-09.55	Complications after partial артропластики knee
09.55-10.15	Clinical studies: одномышечковое surgery when асептическом tuber necrosis мышелка femur bone
10.15-10.45	Coffee Break
	Total knee surgery
10.45.11.15	Basic principles for total treatment knee joint (Lecture 30 min) <i>Siegfried Hofmann (Schtolzalpe, Austria), Ivan Sollogoub (Nevers, France), Nikolay Kornilov (Saint-Petersburg, Russia)</i>
11.15-11.30	The patella: replace or not, and how to achieve the perfect gliding
	Remote exodus treatment knee joint: experience registers vs. analysis the results of the series of
11.30-11.45	Typical errors associated with primary артропластике knee
11.45-12.05	Clinical review: complex cases primary артропластики knee
	Supreme Audit orthopedics knee
12.05-12.35	Basic principles for audit treatment knee joint (Lecture 30 min) <i>Siegfried Hofmann (Schtolzalpe, Austria), Alexander Kazemirsky (Saint-Petersburg, Russia), Taras Kulyaba (Saint-Petersburg, Russia)</i>
12.35-12.50	The causes for the need to audit interventions - whether they have changed in the twenty-first century?
12.50-13.05	Recovery Options bony defects when audit артропластике
13.05-13.20	Rational choice an implant for audit
13.20-13.35	The results audit артропластики: implant survival and function knee
13.35-13.55	Clinical review: complex cases audit treatment
14.00-16.00	Break. Lunch. Lunch-session satellite activities orthopaedic companies
16.00-18.30	Symposium артропластики Infectious complications after hip and knee joint Moderator: Javad Parvizi
	Парапротезная infection - statistics and problems Шубняков AND.And. (St. Petersburg)
	Diagnosis surgical infections - a practical algorithm diagnosis of infection periprosthetic Javad Parvizi (Philadelphia, USA)
	Factors that lead to early and late surgical infections - as they affect? Vitold Jurceвич (Riga, Latvia)
	Select tactics patient treatment: effectiveness = fast + Kalmykia continued its? Gobelin Halle you Schnettler (Giessen, Germany)

27th September

	Principles estimate audit Morgan Jones(One-step audit knee) J&J
	The two-stage audit Jörg Jerosch (Neuss, Germany)
	Неартикулирующие spacers Jonathan Managers (Great Britain)
	Spacers Артикулирующие Reznik L.b. (Omsk, Russia)
	This is a modern and nurses have improved when парапротезной infections Ljudmila BOZHKOVA WITH.a., (St. Petersburg)
	Clinical studies: later surgical infection - differential diagnosis with aseptic instability components
18.00-18.30	Discussion

28th September

	Status quo in hip joint Periareoral approach important issues treatment MRF
09.00-10.30	The treatment in the Russian Federation Phcs H.in. (Moscow)
	Register treatment ПНИИТО them. r.r.Вредена. The first synthesis.
	The main trends in MRF Periareoral approach according to Увропейских registers
	Major elective joint replacement surgery: socioeconomic variations in surgical risk, postoperative morbidity and length of stay <i>Farez Haddad (London, Great Britain)</i>
	Issues early rehabilitation
	Pain management and approach to the patient <i>Jörg Jerosch (Neuss, Germany)</i>
	Discussion
	Treatment of diseases hip joint in young patients
10.30-11.30	Conservative treatment артроза. The use of хондропротекторов. The real benefits or advertising?
	АНГБК. When it is time to do the operation. How to postpone the operation.
	Faye. That efficiently coxarthrosis or surgical public opinion?
	Correction appliances a thigh and pelvis. Javad Parvizi (Philadelphia, USA)
	Discussion
11.30-12.00	Coffee Break
	The results treatment
12.00-13.30	The results of the application of the prosthesis with large cap screws
	Cement or бесцементные femoral components. That longer lives?
	The use of feet proximal detent. The first real results.
	The results of the application of domestic prosthesis. 10 year-old survival?
	Hip-Spine acquired immunodeficiency syndrome and its impact on the treatment.
	The results of the application of the remotest биоккомпозитных materials
	Discussion
13.30-15.30	Break. Lunch. Lunch-session
	Complex cases treatment
15.30-17.00	Surgery when russia-france acetabulum gives a great. Todd Secundijak (Canada)
	Lengthening limb Periareoral approach. Prevention and treatment. <i>Graham Gie (Exeter, Great Britain)</i>
	The use of серкляжеи when russia-france thigh. Positive and negative side.
	After surgery a large вертела inflection. Special notes.
	Planning and selection components when a prosthesis / диспластическом коксартрозе Мурылев Valery, Deputy General Director Alexander bugs, Холодаев, Deputy Director General, ETI has utilized Starforce Jaroslav Alekseevich (Moscow, Russia)
	Especially treatment when укорачивающих остеотомиях. Positive and negative side. Alternatives.
	Especially treatment when анкилозах
12.55-13.15	Discussion
13.15-15.15	Break. Lunch. Lunch-session satellite activities orthopaedic companies
	Complications after treatment
	Poisoning after treatment. Prevention. Treatment рецидивизирующих catch.

28th September

	Poisoning after use large heads. In Даниляк.in. (Yaroslavl)
	Double mobility - the best prevention twisting? Себряков as well.b. (Moscow, Russia)
	Тракционные damage to nerve stimulation. The treatment.
	Гетеротопическая оссификация. Problems and ways to address them.
	Allergic to имплант. The decision and the prevention.
	Псевдоопухоли: myth or real problems?
	The tactics treatment перипротезных fractures femur bone Мурылев Valery, Deputy General Director Eti has utilized Starforce Jaroslav, Deputy General Director Холодаев, Deputy Director General, about us Pavel Mikhailovich (Moscow, Russia)
	Discussion
	Audit Operations
17.00-18.30	Comptroller's surgery. When delete is well fixed components. Especially technology.
	Остеолиз when different pairs friction.
	The struggle with surgery defects.
	Ceramic fractures. Especially реэндопротезирования.
	A standard hip/shoulder strap) component or audit leg? The Каграманов.in. (Moscow, Russia)
	Elongated немодульные femoral components when audit Periareoral approach hip joint Мурылев Valery Director, ETI has utilized Starforce Jaroslav, Deputy General Director Холодаев, Deputy Director General (Moscow, Russia)
	Reconstruction of bone defects in acetabular revision arthroplasty. Christian Goetze (Bad Oeynhausen, Germany) Кристиан Готце (Бад Ойнхаузен, Германия)
	Plastic Импакионная bone defects acetabulum and thigh Jonathan Managers (Great Britain)
10.00-10.20	Discussion
18.20	Debrief. Closing of the conference
