

	PLENARY HALL	TEATRINO LORENESE	SALA VOLTA	SALA SCHERMA	POLVERIERA
18:00					
18:30	Opening Cerimony				
19:00					
19:30					
20:00					
20:30					
21:00					

	PLENARY HALL	TEATRINO LORENESE	SALA VOLTA	SALA SCHERMA	POLVERIERA
7:30					
8:00		ROSE and multidagnostic evaluation of bronchoscopic sampling by pulmonologists: how I do it	Echoendosonography: how I do it	Medical Thoracoscopy: how I do it	
8:30					
9:00	Learner-centric and competency oriented bronchoscopy education	New developments in thoracoscopy	Optimising patient safety during interventional pulmonology	Multidisciplinary treatment of solitary pulmonary nodules, when surgery is not possible	Extended indications for lung transplantation
9:30					
10:00					
10:30	Training and competence certification in Interventional Pulmonology WABIP/AABIP Joint Meeting	Spontaneous pneumothorax: old values and new insights	Impact of therapeutic bronchoscopy on quality of life	Airway foreign bodies	Management of dysphagia after head and neck surgery
11:00					
11:30				Granulomatous lung diseases and bronchoscopy	
12:00	Bronchoscopic approach in the diagnosis of peripheral pulmonary nodules: old and new technologies	Management of recurrent malignant pleural effusion: what is new in this field and what is the best method for management?	Dare to conventional TBNA		Multidisciplinary management of subglottic stenosis in XXI century WABIP/TBES Joint Session
12:30					
13:00					
13:30	Recent developments to increase the yield of EBUS-TBNA			Transbronchial therapeutic catheters: the future has arrived	
14:00					
14:30	Past, present and future of Bronchoscopy	In memory of Christian Boutin Medical Thoracoscopy in the multidisciplinary care setting for pleural diseases			
15:00					
15:30					
16:00	Endobronchial ultrasound: a comprehensive review	Physiologic approach to airway stent insertion	Strategies in management of anticoagulation for pulmonary procedures		The role of surgery in infectious pulmonary and pleural diseases
16:30					
17:00					
17:30	EBUS-TBNA in daily clinical practice	The future of airway stenting	Strategies in management of hemoptysis		Operative management of pediatric airway stenosis
18:00					
18:30					

	PLENARY HALL	TEATRINO LORENESE	SALA VOLTA	SALA SCHERMA	POLVERIERA
7:30					
8:00			Bronchoscopic lung volume reduction: how I do it	Pediatric Bronchoscopy	
8:30					
9:00	Lung hyperinflation in emphysema WABIP/AIPO Joint Session	Hot topic in the management of mesothelioma (1) Session of the WABIP Section "Rare lung-pleura-airway disease"	The esophagus: a new way for interventional pulmonologists	Role of bronchoscopy in lung transplantation	Tracheobronchial malacia therapeutical options
9:30					
10:00					
10:30	Lung volume reduction. What for whom? WABIP/ERS Joint Session	Hot topic in the management of mesothelioma (2) Session of the WABIP Section "Rare lung-pleura-airway disease"	Endobronchial infections	Surveillance of lung transplantation	Bronchopleural fistula WABIP/ IBES Joint Session
11:00					
11:30	WABIP Academy: Interventional Pulmonology key literature review 2012-2016	Treatment of advanced emphysema: insights into the evidence base of the coil therapy	Infectious diseases of the pleura	Tracheostomy in ICU: multidisciplinary approach	How to proceed in early diagnosis of lung nodules
12:00				Airway tuberculosis and bronchoscopic intervention	
12:30					
13:00					
13:30		State of the art in interventional pulmonology		The future is now: precision treatment of emphysema patients	
14:00					
14:30					
15:00		TBNA: history and development from conventional TBNA to EBUS-TBNA			Tracheal surgery
15:30	Palliation of malignant central airway obstruction WABIP/EABIP Joint Session		Primary spontaneous pneumothorax: is there a need to treat blebs and bullae? PRO/CON		Surgical treatment of esophageal cancer: open vs minimally invasive
16:00		New frontiers in Interventional Pulmonology: are we on the verge of clinical paradigm shifts?		Learning endosonography	
16:30			Complications of thoracoscopy: how to prevent, diagnose and manage them?		
17:00	WABIP Academy: the still image library. What's your diagnosis				Zenker diverticulum and CP dysfunction
17:30			Thoracoscopy: rigid or semiflexible equipment? PRO/CON		
18:00	Complications of BLVR procedures and their management				
18:30					
19:00					

	PLENARY HALL	TEATRINO LORENESE	SALA VOLTA	SALA SCHERMA	POLVERIERA
8:30					
9:00	Management of diffuse parenchymal lung diseases	Multidisciplinary lung cancer tumor board	Complex airways: a multidisciplinary case discussion	Pediatric bronchoscopy Session of the WABIP Section "Pediatric Bronchoscopy"	Pleural mesothelioma
9:30					
10:00					
10:30	Transbronchial lung cryobiopsy in diffuse parenchymal lung diseases	Are we ready to implement lung cancer screening?	Small volume biopsy and cytology specimens for personalized lung cancer care	Interventional Pulmonology meets radiation oncologists	VATS lobectomy
11:00					
11:30			Rapid-on site evaluation by pulmonologist: PRO/CON	Tracheobronchomalacia: diagnosis and multimodality management. All that wheezes is not asthma	VATS lobectomy: experience
12:00	Controversies in invasive mediastinal staging	New frontiers in bronchoscopic imaging techniques			
12:30			Establishing diagnosis of sarcoidosis in 2016		
13:00				Flexible bronchoscopy in the intensive care unit: a growing and significant role	Extended airway surgery
13:30	Bronchial thermoplasty. Lessons learned from five years of follow-up from AIR2 trial	Evaluation of enlarged/PET positive mediastinal lymph nodes			
14:00			Probe-based confocal laser endomicroscopy		
14:30		Restaging in lung cancer		EBUS elastography: technical and clinical aspects	
15:00					
15:30	Closing Ceremony				
16:00
