Update on Intravenous Fluids

Goals:

This meeting, in part an interactive teaching course and in part a consensus meeting, will cover all aspects of this topic, from monitoring to the various types of intravenous fluids. To allow interactive participation the number of participants is limited to 140.

Main topics

Type of IV fluid

- colloids vs. crystalloids: is the debate reaching to an end?
- indications for albumin: it's becoming clearer
- any place for HES solutions?
- is chloride really so bad?
- my ideal balanced solution

Amount of IV fluid

- clinical assessment vs. monitoring devices
- should we assess cardiac filling?
- still a place for EGDT?
- interest and limits of signs of fluid responsiveness
- fluid challenges for all?

Chairman:

Jean-Louis Vincent (Brussels, Belgium)

Meeting place :

Ambasciatori Palace
Via Vittorio Veneto, 62
00187 Rome, Italy

Attendance will be limited to 140 participants on a first come basis.
