

## Launch Event

**Wednesday 10 December 2014**

Thinktank, Birmingham Science Museum

The Launch Event will focus on **Implementation Science, Leadership, Human Factors** and **Behaviour Change** and how we can integrate these to overcome the barriers to successful implementation of infection prevention guidelines.

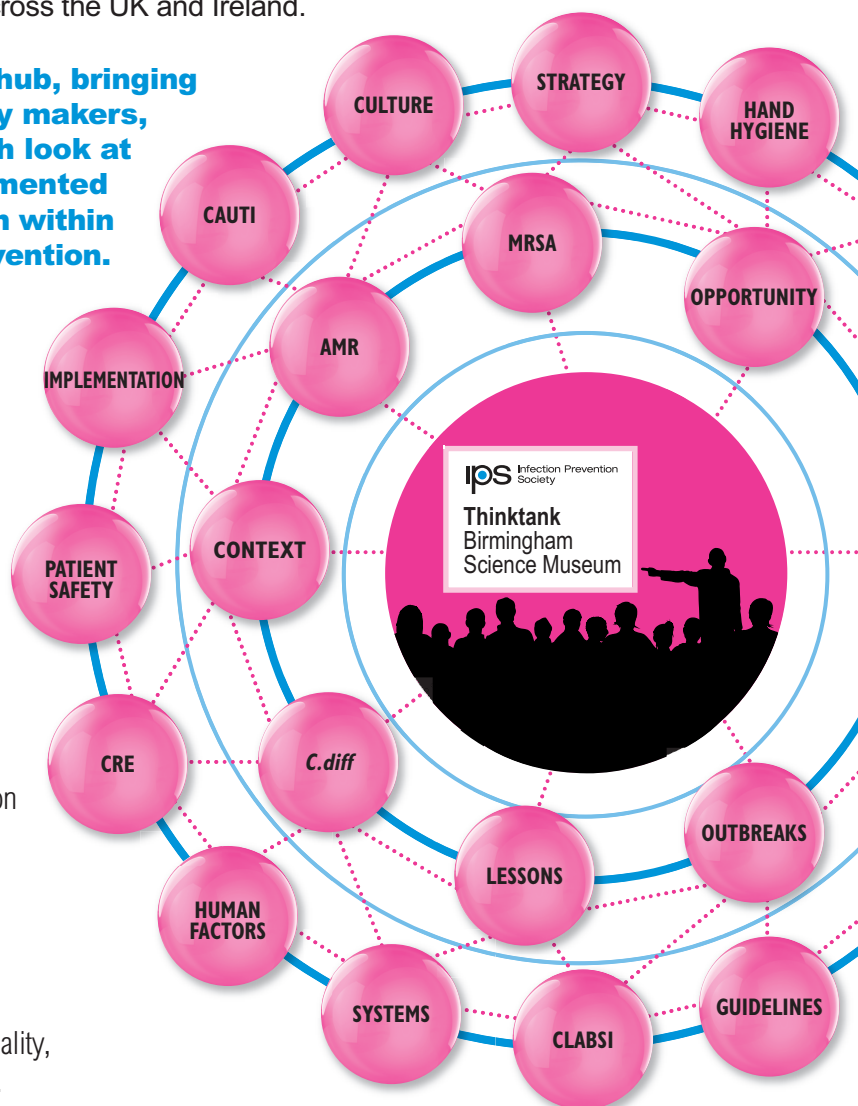

Without effective and reliable implementation of clinical and practice guidelines, patient safety is compromised. In December, the Infection Prevention Society (IPS), in partnership with the Health Foundation, are launching **Infection Prevention and Control Implementation Learning Laboratories** across the UK and Ireland.

**The inaugural launch event will act as a hub, bringing together senior managers, leaders, policy makers, strategists and academics to take a fresh look at how we can ensure guidelines are implemented into practice by drawing on evidence from within and beyond the specialty of infection prevention.**

Infections are not going away and this event will reignite the debate on how we can get better at implementation – a unique learning opportunity that will generate lessons that will help to make health systems safer and more effective.

### Keynote speakers include:

- **Dr Suzette Woodward** Campaign Director, Sign up to Safety, formerly lead Patient Safety First Campaign.
- **Julie Storr** Past President, Infection Prevention Society.
- **Professor Tricia Hart** CEO South Tees NHS Foundation Trust and Patron Infection Prevention Society.
- **Professor Alison Holmes** Director of Infection Prevention and Control, Imperial College Healthcare NHS Trust and co-director, National Centre for Infection Prevention and Management.
- **Fishbowls session analysts** representing national quality, safety and infection prevention across the UK and Ireland.

*In partnership with:*

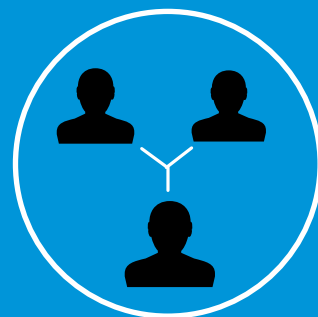

*Supported by:*

## Who should attend?

This flagship 'Hub' event is designed for organisational leaders and managers, decision makers and academics from health and social care:

- Assistant Directors of Infection Prevention and Control
- Chief Executives
- Chief Nurses
- Medical Directors
- Commissioners
- Clinical Governance Managers
- Clinical Directors
- Directors of Infection Prevention and Control
- Heads of Nursing
- Risk / Governance Managers
- Quality and Safety Leads
- Human Factors Teams
- Patient Bodies
- Non Executives

### Virtual delegates

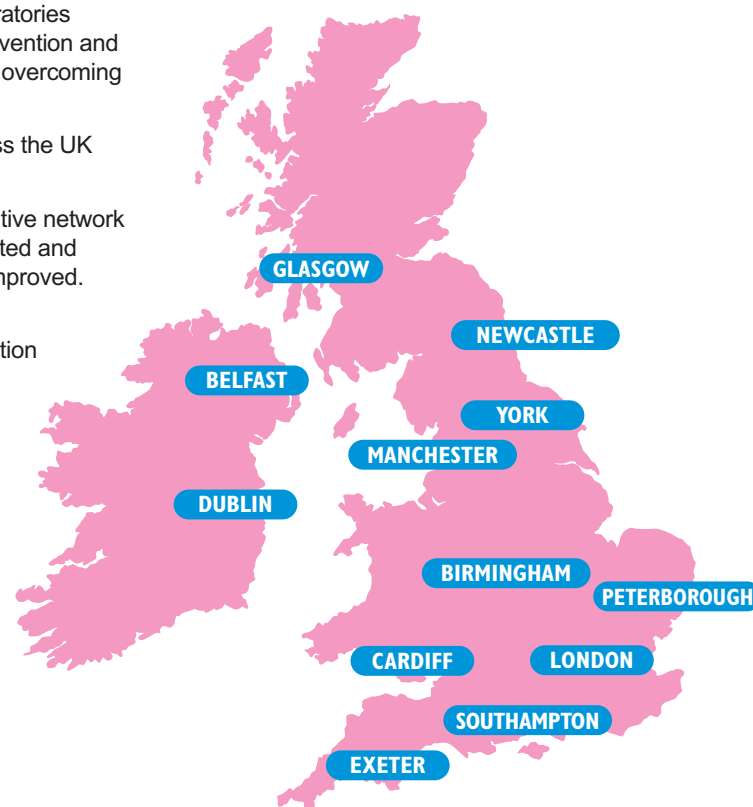

If you are unable to attend in person IPS is offering the complete interactive conference experience for free. By registering as an online delegate you can join the entire conference as it is streamed live online. Online delegates will have the ability to see the speakers, view their presentations live, as well as participate in the Q&A sessions. Sessions will also be recorded for future access.

Register as an online delegate for free:

## What's next for the Implementation Learning Laboratories?

- This inaugural Implementation Learning Laboratories 'Hub' Conference will form the launch of a series of practical, front line-focused guideline implementation 'Spoke' events.
- The 'Spoke' events will become Implementation Learning Laboratories "in action" and focus on the reality of implementing infection prevention and control guidelines into practice, sharing examples of success in overcoming common barriers.
- The 'Spoke' Implementation Learning Labs will take place across the UK and Ireland in the Spring of 2015.
- Informed by the outcome of The 'Hub' we will create a collaborative network of practitioners under the umbrella of the Learning Labs, motivated and inspired to consider how implementation of guidelines can be improved.
- The 'Spoke' Implementation Learning Labs will generate tools and resources to help organisations implement infection prevention guidelines into practice.
- Details of these events will be made available shortly.
- You can register your/your staff's initial interest to attend these free 'Spoke' events by visiting [www.eventsforce.net/IPSLearningLabs](http://www.eventsforce.net/IPSLearningLabs)

## Launch Event

Wednesday 10 December 2014

### Programme (subject to change)

09:00 Registration, refreshments and exhibition viewing

#### Session One

09:45 **Launch of the IPS Implementation Learning Laboratories**

*Julie Storr* Past President, Infection Prevention Society

10:00 **Keynote 1 – The Health Foundation Spotlight Report: critical lessons on implementing infection prevention guidelines**

*Professor Alison Holmes* Director of Infection Prevention and Control, Imperial College Healthcare NHS Trust and co-director, National Centre for Infection Prevention and Management

10:30 **Keynote 2 – Implementation: lessons from the patient Safety movement**

*Dr Suzette Woodward* Campaign Director, Sign up to Safety, former lead Patient Safety First Campaign

11:00 Refreshments and exhibition viewing

#### Session Two

11:30 **Fishbowl session – Improving implementation for better patient outcome – creating the right infrastructures for sustainability**

Representatives from national safety, quality and infection prevention bodies of the UK and Ireland and patient/consumer groups

13:00 Lunch, networking and exhibition viewing

#### Session Three

14:00 **Keynote 3 – Guideline implementation, organisational culture and the executive team**

*Professor Tricia Hart* CEO South Tees NHS Foundation Trust and Patron Infection Prevention Society

14:30 **Keynote 4 – Factors influencing the uptake of guidelines: The Behaviour Change Wheel**

*Dr Lou Atkins* Associate Teaching Fellow, UCL Centre for Behaviour Change

15:00 **Panel debate – developing the next generation of implementation activists**

*Panel:* The 4 keynote speakers

16:00 **Closing remarks**

*Heather Loveday* President, Infection Prevention Society

16:15 Close
