

Rizzoli Orthopedic Institute has a modern conference centre, with large conference rooms and exhibition areas. The conference centre is in the Codivilla-Putti research centre, in via di Barbiano 1/10, not far from Bologna city centre.

Besides hosting many of the conferences promoted by the institute, the conference centre can also be rented by third parties. For information and estimates contact Mrs Nadia Ghidotti of the Professional Education Office. The conference centre has a main hall (450 seats), an "amphitheatre" hall (310 seats), two meeting halls (hall 1 and hall 2), and a reception. When required, corridors can be added for commercial exhibitions, and there is room for facilities (secretariat, wardrobe, etc.), and a large buffet area.

All conference halls have a screen, a panel table on a stage with microphones, a podium with independent microphones and lights, radio-microphones, amplifying system, audio-video system, audio recording, double slide projection, with carousel system and slide centre, VHS multistandard and U-MATIC videocassettes and films, cabins for three-channel simultaneous translation, radiofrequency Sony system with radio headphones provided, and technical assistance.
