

Course program

AOCMF Course—Principles in TMJ Surgery "The Bonn Concept"

March 18 – March 20, 2015, Bonn & Aachen, Germany

Mission

Our mission is to continuously set standards in postgraduate medical education and to foster the sharing of medically guided expertise in a worldwide network of healthcare professionals to improve patient care in trauma or disorders of the musculoskeletal system.

The AO Principles of fracture management

Welcome

On behalf of AOCMF and your local and international faculty, I would like to welcome you to this AOCMF course.

AOCMF is a worldwide multi-specialty community that serves as the voice and professional resource for craniomaxillofacial trauma and reconstruction.

Our organization creates a forum for specialists who have common interests and enthusiasm in this field. It is our goal to encourage and inspire younger surgeons, such as residents, fellows, and early practitioners to pursue fulfilling careers in our field.

Education has always been a major pillar in AOCMF. Currently, more than 2,500 surgeons participate in over 80 AOCMF courses held worldwide per year. AOCMF Education is committed to remaining in the forefront of education and new developments as we strive to improve your educational experience with us.

We hope that your experience with us over the next few days will result in the acquisition of new knowledge, skills and understanding, which will translate into an improvement in the care that you are able to give your patients.

We also hope that, after attending this course, you will wish to develop a longer term relationship with AOCMF and become a member of our community. Make this organization yours by bringing in your opinions and ideas. Enjoy the camaraderie of our network and help us maintain and expand the preeminent position that AOCMF enjoys worldwide.

Yours sincerely,

A handwritten signature in black ink that reads "Warren Schubert". The signature is fluid and cursive, with a long horizontal stroke at the end.

Warren Schubert
Chairman AOCMF International

Goal of the course

This course aims to enable the participants to involve in specific clinical and radiological TMJ diagnostics and in basic surgical treatment of the TMJ.

Target participants

All surgeons dealing with TMJ patients who are interested in surgical options of treatment.

Course objectives

After the course, participants should be able to:

- examine TMJ patients effectively
- indicate appropriate diagnostics
- select patients for surgery
- select specific surgical procedures
- use surgical skills in daily practice

Course description

The topics of the course will be discussed during 2.5 days and taught in three formats:

Comprehensive lectures on the evening of the first day and in the afternoon of the third day will concentrate on the understanding of the core material.

On the second day, hands-on cadaver training on Thiel fixated human specimens will cover specific surgery techniques. At the beginning of each surgical section, a short lecture and a demonstration by an instructor will be given. The participants will have the opportunity to discuss with the instructors and the audience after each hands-on exercise section.

In the morning of the third day, live arthroscopic and open surgery procedure will be done (live surgery).

Chairs

Prof. Dr. Dr. Rudolf H. Reich
Dept. of Oral and Maxillofacial
Plastic Surgery
University Hospital Bonn
Bonn, Germany

Dr. Dr. Marcus Teschke
Dept. of Oral and Maxillofacial
Plastic Surgery
University Hospital Bonn
Bonn, Germany

Local Faculty

Prof. Dr. Dr. Johannes Hidding

Course information

Accreditation info

An application has been made to the UEMS - EACCME for CME accreditation of this event

Evaluation guidelines

All AOCMF courses apply the same evaluation process, either ARS (audience response system) or paper and pencil questionnaires. This will help AOCMF to ensure that we continue to meet your training needs. In some regions, CME accreditation is dependent on the participant's evaluation results.

Intellectual property

Course materials, presentations, and case studies are the intellectual property of the course faculty. All rights are reserved.

Recording, photographing, or copying of lectures, practical exercises, case discussions, or any course materials is absolutely forbidden.

Security

Security check at the entrance of the building. Wearing of a name tag is compulsory during lectures, workshops, and group discussions.

No insurance

The course organization does not take out insurance to cover any individual against accidents, thefts or other risks.

Mobile phone use

Mobile phone use is not allowed in the lecture halls and in other rooms during educational activities. Please be considerate of others by turning off your mobile phone.

Transportation

Not provided for participants

Dress code

Casual

Course language

English

Course venue

Wednesday & Friday

University of Bonn, Department of Oral and Maxillofacial surgery (same building as "Hautklinik" (Dermatology), Sigmund-Freud-Str. 25, 53105 Bonn, Germany (Wednesday and Friday)

Thursday

University Hospital of Aachen, Department. of Anatomy I, Wendlingweg 2, 52074 Aachen, Germany

Accommodation

Participants are asked to book their accommodation on their own. The following hotel is recommended:

Venusberghotel: <http://www.venusberghotel.de/>
