5<sup>th</sup> Post-graduate Updating Course

**CURRENT STRATEGIES  
TO OPTIMALLY TREAT PATIENTS  
WITH DIABETES AND CVD**

Turin, Italy  
March 6 - 8, 2014

Post-graduate Updating Course

This is a highly interactive practical course. Appropriate space will be given to workgroups where participants will share knowledge and technical abilities to treat high risk patients. Diagnostic (lab, echo, echodoppler) and therapeutic options will be addressed. Experts will take part in the plenary discussions and give summary and conclusive presentations on the topics.

Target: Diabetologists, Internists, Neurologists and Cardiologists

Participation includes:

- course attendance and training materials
- certificate of attendance **issued after final examination**
- Continuous Medical Education (ECM) certification for Italian participants
- 2 overnight stays in Double Single Use Room, Hotel \*\*\*\*  
(IN March 6, 2014 - OUT March 8, 2014)
- 2 “course dinners”
- coffee break, lunch
