12th June 2014

7th Instructional Workshop of European Academy of Otolgy & Neuro Otolgy
From 13 September 2014 to 16 September 2014 - Siena, Italy

Reviewing request for compliance (Geographic Location)

Dear Mrs Sainvil,

It is with great pride we write to confirm that the EAONO 7th Instructional Workshop will take place in Siena this year 2014.

Siena has been chosen to host this prestigious scientific event due to it being home to a very specialised, independant, stand alone department that is totally dedicated to Otolgy and Neuro Otolgy, the only one of its kind in Europe.

A department whose Chief holds a dual specialisation in ENT and Neuro Surgery and which carries out the largest number of surgeries for the middle ear, surgical deafness, cochlear implants and skull base tumours in Italy.

I, Professor Franco Trabalzini, President of the EAONO, has held the position of Chief of Department since 2010 and has actively promoted and encouraged the growth of this unique and forward thinking department.

For this reason, the European Academy of Otolgy and Neuro-Otolgy is pleased to announce its chosen location as Siena, Italy.

Thank you for the attention you may give to our request of reviewing,

Franco Trabalzini
EAONO President
Chairman of Otolgy and Skull Base Dept
Siena University Hospital
Italy
