SoGAT
Standardisation in Infectious Diseases

6 - 8 June 2016
The Royal College Of Physicians

This event is an opportunity to participate in the 2016 Annual Standardisation of

SoGAT 2016

London, United Kin...

Why should I attend this event?

Established for 20 years, this meeting has an excellent reputation for an informative and educational meeting. The meeting will run over three days and comprise of four sessions focusing on current standardisation projects, calibration of secondary reference materials, impact of new technologies on standardisation and the need for greater standardisation in serology.

Who is the event aimed at?

- Assay manufacturers
- Diagnostic laboratories
- Clinical reference laboratories

- Control Authorities
- Academic laboratories

Main agenda topics:

NAT: Unstandardised assays in the clinical virology laboratory Point of Impact Testing, using external quality control material for ISO15189 compliance; developing secondary standards and progress reports for WHO International standards.

Serology: Role of serology testing in clinical decision making - focusing on anti-HBs and anti-Rubella testing.

This event is free to attend. A buffet lunch and tea/coffee refreshments will be provided. Tea and coffee will be available during registration. Spaces are limited so book early to avoid disappointment.

Registration for the workshop is split into three categories:

1. **Days 1 and 2** - NAT
2. **Day 3** - Serology
3. **Days 1, 2 and 3** - NAT and Serology
