

27th EURAPS Meeting 2016 Brussels

27th ANNUAL MEETING

Venue: Le Plaza, Brussels - BELGIUM

Dear colleagues and friends,

*It is our pleasure to announce the joint meeting of the **5th Research Council & the 27th annual European Association of Plastic Surgeons (EURAPS)** to be held between **25th and 28th of May 2016 in Brussels, BELGIUM.***

Both meetings will take place in the beautiful Assembly Rooms in hotel «Le Plaza». The Plaza, Paris and Hollywood... in Brussels. The hotel Le Plaza Brussels is an Art Deco palace built between 1928 and 1931 and designed by the accomplished Swiss architects Alfred Hoch and Michel Polak also known for the Residence Palace and the Villa Empain. Inspired by the George V hotel in Paris, the Hotel Le Plaza Brussels is a continual source of wonderment. Its exceptional Theatre, originally a movie theatre simply called 'Le Plaza', has a capacity of 1 300 guests. Since 1992, the entrance hall and the lobby have been part of the Belgian heritage list for its architecture and décor.

Our meeting dinner will take place at «Autoworld» (Parc du Cinquantenaire 1000 Brussels), a museum housing treasures of the history of the motor car.

It is an honour and privilege to organise a congress with a scientific program consisting of selected top quality scientific papers from all over the world.

We invite you to take part of this unique event by submitting abstracts for oral presentation. I look forward to welcome you all to Brussels in May 2016.

Moustapha Hamdi

5th EURAPS Research Council 2016 Brussels

5th EURAPS RESEARCH COUNCIL

Venue: Le Plaza, Brussels - BELGIUM

Dear colleagues and friends,

We are proud to announce that the 5th EURAPS Research Council will be held prior to the EURAPS Meeting in Brussels on the 25th and 26th of May. Young researchers in all fields of plastic surgery will present their results, covering topics ranging from molecular science and scaffolds, over stem cells and tissue regeneration to clinical outcomes. The EURAPS Research Council provides an excellent platform for discussion amongst scientists and plastics surgeons, exactly what you need to boost your research program!

Sincerely

Benoît Hendrickx
