## ESVS SYMPOSIA

**The titles of the symposia are correct, changes may occur in speakers and of individual lectures:**

### Middle East Symposium: Vascular Complications in Diabetic Disease

Wednesday 19 September 12.30-14.00

*Speakers to be confirmed*

### Descending Thoracic Aorta

Wednesday 19 September 14:00-15:30

*Chair: V Rimbaut, S Setacci*

M Jacobs, The Netherlands: Thoraco-abdominal aneurysm

S Trimarchi, Italy: Uncomplicated Acute Type B Dissection

D Boeckler, Germany: Penetrating Aortic Ulcer and Intramural Hematoma

M Thompson, United Kingdom: Complicated Chronic type B Dissection

C Setacci, Italy: Complex Collagen Vascular Disorders

### (Italian Society for Vascular Surgery) SICVE - ESVS Symposium

Wednesday 19 September 17:00 - 18:30

*Chair: P Cao, G Hamilton*

R Naylor, United Kingdom: Carotid Endarterectomy: Urgent vs. Delayed Treatment Recently Symptomatic Patients

R Chiesa, Italy: Penetrating Trauma in the Endovascular Era

To be confirmed: Establishing a Protocol for Ruptured Abdominal Aortic Aneurysm

Endovascular vs. Surgery

C Setacci, Italy: Acute limb ischemia: Surgery, Endovascular or Hybrid Solution

### Best Practice in Vascular Access

Thursday 20 September 09:30-11:00

*Chair: J Tordoir, J Schmidli*

M Widmer, Switzerland: Basic Principles of Vascular Access

G Mestres, Spain: How to Prevent Access Complications

To be confirmed: Endovascular Treatment of Malfunctioning Fistulae

J Tordoir, The Netherlands: Bail-out Options

### CAS vs CEA - where are we after years of debate?

Thursday 20 September 11:30-13:00

*Chair: C Liapis, To be confirmed*

G de Borst, The Netherlands: Patient Selection Based on Clinical and Imaging

**Features**

JB Ricco, France: Is Intervention Dead in Asymptomatic Disease?

To be confirmed: Is current CAS technology adequate to obtain neurological outcomes similar to CEA?

To be confirmed: A Neurologists perception on modern management of carotid disease

R Naylor, United Kingdom: When Should We Update the ESVS Guidelines on Carotid Disease?

**CLI Controversies**

Thursday 20 September 14:00-15:30

*Chair: A Stella, to be confirmed*

J Reekers, The Netherlands: Endo or Surgery, for Which Indication?

To be confirmed: Where Should Endovascular Stop to Avoid Precluding Future Surgical Intervention?

To be confirmed: Limb Salvage and Reconstructive Surgery in Diabetics

C Setacci, Italy: Waiting for TASC III Consensus

M Gargiulo, Italy: Devices - the Evidence

**AAA Controversies**

Friday 21 September 11:30-13:00

*Chair: V Rimbaut, D Palombo*

J Powell, United Kingdom: EVAR for Ruptured Aortic Aneurysm: How Long Should We Wait for Level I Evidence?

G Torsello, Germany: Infrarenal Aortic Aneurysm With Challenging Anatomy: Elective and Bail-out Endovascular Solutions

I Loftus, United Kingdom: Are Concerns about EVAR Durability Relevant with Modern Devices?

JP Becquemin, France: What is Changed after the ACE Trial?

A Stella, Italy: Open Surgery; the Best Option for Leriche Syndrome?

**Modern Treatment of Venous Disease**

Friday 21 September 14:00-15:30

*Chair: A Davies, M Enzler*

T Willenberg, Switzerland: Catheter Interventions for DVT

M Enzler, Switzerland: Thermal Ablation for Recurrent Venous Reflux and Superficial Thrombophlebitis

V Gasbarro, Italy: Sclerotherapy Update

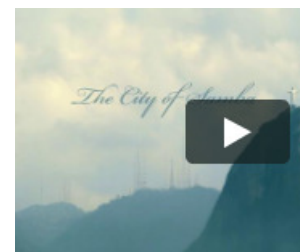

J Lawson, The Netherlands: What's Best for Thermal Ablation

A Davies, United Kingdom: Can TLA be Avoided by Flagellation, Glue or Something else?

C Wittens, The Netherlands: When and How to Perform Venous Reconstruction

**Society for Vascular Surgery (SVS) - ESVS Symposium:  
New Devices or Complications or Visceral Aneurysms**

Programme to be announced.
