

Dear Friends and Colleagues,

We cordially invite you to participate in the next, 14<sup>th</sup> International Scientific Conference and Workshops "Advances in vascular surgery" in Kazimierz Dolny, Poland on April 17-19, 2015. The event is a continuation of many years of meetings with vascular surgeons, radiologists, phlebologists and general surgeons dealing with vascular problems.

The Scientific Committee had invited eminent speakers from Poland and abroad and had scheduled interesting and current topics and practical training workshops for participants.

We would like to draw your attention to the accompanying conference on Saturday, April 18, 2015 "Masterclass in treatment of aneurysms of the thoracic and abdominal aorta", organized by renowned polish and foreign research centers: Department of Vascular Surgery, Medical University of Regensburg (prof. Piotr Kasprzak, Germany), Department of Vascular Surgery, Centre Hospitalier Universitaire Henri Mondor, Créteil (prof. Jean-Pierre Becquemin, France), Department of General Surgery, Transplantation Surgery and Vascular Surgery of Medical University of Warsaw (prof. Sławomir Nazarewski, Poland) and Department of Vascular Surgery and Angiology of Medical University of Lublin (prof. Tomasz Zubilewicz). Prof. Piotr Kasprzak and Prof. Jacek Schmidt will chair the sessions on treatment of aneurysms.

Sessions on Saturday will have simultaneous translation English-Polish because of numerous foreign speakers.

**Main topics of the conference will be:**

- peripheral arterial occlusive disease
- treatment of aneurysms of thoracic and abdominal aorta
- modern techniques of endovascular treatment of arterial occlusive disease and diabetes, including the section below the knee
- progress and new types of stent-grafts for the treatment of aneurysms of thoracic aorta, abdominal aorta and thoraco-abdominal aneurysms
- advances in the treatment of carotid artery stenosis
- modern methods of creating vascular access for hemodialysis

Our Conference and it's topics are constantly evolving and the participation of famous speakers allow us to count on a great interest from polish and foreign doctors.

We invite you to participate in our conference in the beautiful city of Kazimierz Dolny.

Sincerely,  
Organizers
