

Preliminary Program

AOCMF Symposium—Advances in Orthognathic Surgery

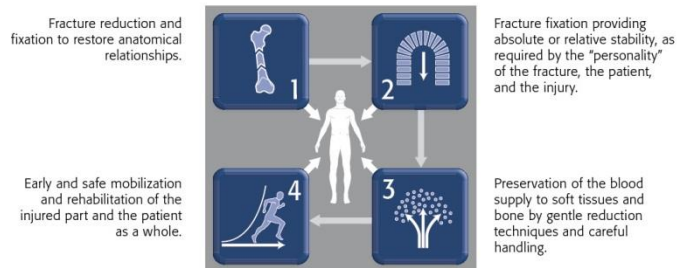

May 5-7, 2016, Vienna, Austria

Mission

Our mission is to continuously set standards in postgraduate medical education and to foster the sharing of medically guided expertise in a worldwide network of healthcare professionals to improve patient care in trauma or disorders of the musculoskeletal system.

The AO Principles of fracture management

Welcome

On behalf of AOCMF (the craniomaxillofacial clinical division of the AO Foundation), it is my pleasure to personally welcome you to this course. Each year, AOCMF provides over 110 educational opportunities to more than 4,500 passionate surgeons worldwide.

The mission of AOCMF is excellence in facial surgery across the specialties. We encourage the involvement of all interested professions, including oral and maxillofacial surgery, plastic surgery, ENT, oculoplastic surgery, and neurosurgery. To achieve our mission, we are committed to remaining at the forefront of education and new developments, by offering remarkable learning and networking experiences focusing on craniomaxillofacial trauma and reconstruction.

Through our courses, membership program, and our website, our goal is to encourage and inspire surgeons—including residents, fellows, and practitioners—to pursue fulfilling careers in our field. In addition, we endeavor to provide lifelong learning opportunities and career development options for more experienced specialists in the most appropriate and useful ways as their needs evolve.

Your role is vital to improving patient care. We hope that your experience with our faculty, chairs, and your peers over the next few days will bring new knowledge, skills, and understanding that you can directly apply to your own practice. We look forward to your participation and encourage you to share your ideas, unique perspectives, and opinions, to help build and enhance our dynamic community, and contribute to the further development of craniomaxillofacial surgery.

I wish you an outstanding learning experience.

Yours sincerely,

Dear Colleagues,

It is our pleasure to announce our 4th International Symposium on Orthognathic Surgery under AO patronage, held in Vienna, May 5 - 7, 2016.

As our last symposium, held in May 2012, was a big success with a lot of positive echo around the globe, we were encouraged to organize another similar scientific meeting.

In the age of the world wide web, the global community of oral and maxillofacial surgeons has grown together, patients are informed about international trends and exchange of expertise has become more important than ever. We are very proud that again we can offer a list of well-known speakers in the field of oral and maxillofacial surgery globally. One day of our program will concentrate on the Asian trend of surgery first and one day on defining the jaw line. Multiple hot topics that oral and maxillofacial surgeons have to deal with in their daily practice will also be covered. We hope that the audience is ready to join in the discussion.

We have again chosen the pleasant environment of the Billroth House, where discussions between famous doctors of the Viennese School of Medicine were a tradition, centuries ago.

Besides the intense scientific exchange of thoughts you will be able to enjoy the Viennese way of life. This time our friendly networking come together, will be at a unique location, the Piaristen Cellar, or if you rather want to experience cultural life of Vienna, there is a full range of concerts, theatres or the opera. Just combine work with fun on this prolonged weekend, and Vienna is the place!

We are waiting for you!

Gabriele Millesi

Gabriele Millesi

MD, DMD

Vice President Elect of the International Association of Oral and Maxillofacial Surgery

Goal of the course

The goal of this symposium is to gain advanced knowledge within the field of orthognathic surgery and to share experiences and exchange opinions with experts within the field.

Target participants

- Maxillofacial surgeons
- Orthognathic surgeons
- Orthodontists
- Surgeons of related disciplines

Course objectives

Upon completion of the course, participants should be able to:

- Identify advances and techniques in practice that contribute to functional and aesthetic improvement in orthognathic patients
- Describe prevailing approaches to both routine and complex orthognathic clinical care problems
- Recognize the factors involved in a calculated treatment plan for orthognathic patients to achieve a predictable outcome including a thorough evaluation, proper diagnosis and setting realistic expectations
- Utilize an interdisciplinary approach in the evaluation and treatment of patients with dentofacial deformities

Course description

Knowledge of state-of-the-art orthognathic surgery is shared by lectures, discussions and case presentations. The topics are discussed amongst the specialists and the audience including: "Surgery First versus Orthodontics First", esthetic and technical aspects in orthognathic surgery and general topics such as OSA treatment, cleft lip and nose surgery. Scientific as well as practical aspects in the treatment of patients is reviewed.

Chairpersons

Course Director

Gabriele Millesi, MD, DMD
Assistant Professor, Department for Oral
and Maxillofacial Surgery
Medical University of Vienna

Course Chair

Emeka Nkenke, MD, DMD, PhD
Professor, Head of Department for Oral and
Maxillofacial Surgery
Medical University of Vienna

Faculty International

Yu-Ray Chen, M.D., Chang Gung Craniofacial Center, Chang Gung Memorial Hospital, Taoyuan, Taiwan

Je Uk Park, DM, DMD, Head of OMFS, Seoul St.Mary`s Hospital, the Catholic University of Korea, Seoul, South Korea

Johan Reyneke, BChD, MChD, FCMFOS (SA), PhD, Professor, Department of Oral and Maxillofacial Surgery, Faculty of Health Sciences, University of the West Cape, Cape Town, South Africa

Faculty Regional

Maurice Mommaerts, MD DMD PhD FEBOMFS FICS FAACS, Professor and Head European Face Centre, Universitair Ziekenhuis Brussel/VUB, Brussels, Belgium

Alexander Schramm, Professor and Chairman, Oral and Plastic Maxillofacial Surgery, University Hospital and Military Hospital, Ulm, Germany

Faculty National

Maija Eltz, MD, DMD, Zahnregulierung ELTZ, Institute for Orthodontics, Vienna, Austria

Oliver Ploder, MD, DMD, PhD, Chief of Department of Oral and Maxillofacial Surgery, Universitäres Lehrkrankenhaus Feldkirch, Austria

Rudolf Seemann, MD, DMD, PD, MSc, MBA, Associate Professor, Department of Oral and Maxillofacial

Surgery, General Hospital AKH, Medical University Vienna, Vienna, Austria

Ingeborg Watzke, MD, DMD, PhD, Department of Oral and Maxillofacial Surgery, Donauspital der Stadt Wien, Vienna, Austria

Guest Faculty

Luigi C. Clauser, MD, DMD, FEBOMFS, Professor, Director and Chief of Unit of Cranio Maxillo Facial Surgery, Center for Orbital Pathology and Surgery, Ferrara, Italy

Giovanni Elia, MD, Craniofacial Fellow, Unit of Cranio Maxillo Facial Surgery, Center for Orbital Pathology and Surgery, Ferrara, Italy

Joseph Helman, DMD, C.J. Lyons Endowed Professor, Department of Oral & Maxillofacial Surgery, University Michigan, Ann Arbor, Michigan, USA

Albino Triaca, MD, DMD, Zentrum für Kiefer – und Gesichtschirurgie, Klinik Pyramide am See, Zurich, Switzerland

Bram Tuinzing, DMD, PhD, VU University Medical Center, Department of Oral and Maxillofacial Surgery, Amsterdam, Netherlands

10:45-11:15	COFFEE BREAK	
11:15-12:00	Secondary corrections in cleft lips and noses	A Triaca
12:00-12:05	Discussion	All
12:05-12:50	Soft tissue reconstruction in Parry Romberg Syndrome and hemifacial microsomia	Y-R Chen
12:50-12:55	Discussion	All
12:55-13:05	Closing remarks, evaluation and certificates	All

Course information

Evaluation guidelines

All AOCMF courses apply the same evaluation process, either the audience response system (ARS) or paper and pencil questionnaires. This will help AOCMF to ensure that we continue to meet your training needs. In some regions, CME accreditation is dependent on the participant's evaluation results.

Intellectual property

Course materials, presentations, and case studies are the intellectual property of the course faculty. All rights are reserved. Check hazards and legal restrictions on www.aofoundation.org/legal.

→ **Recording, photographing, or copying of lectures, practical exercises, case discussions, or any course materials is strictly forbidden. Participants violating intellectual property will be dismissed.**

The AO Foundation reserves the right to film, photograph, and audio record during their events. Participants must understand that in this context they may appear in these recorded materials. The AO Foundation assumes participants agree that these recorded materials may be used for AO marketing and other purposes, and made available to the public.

Security

Security checks will be conducted at the entrance of the building. Wearing of a name tag is compulsory during lectures, workshops, and group discussions.

No insurance

The course organization does not take out insurance to cover any individual against accidents, thefts or other risks.

Use of mobile phones

Use of mobile phones is not allowed in the lecture halls and in other rooms during educational activities. Please be considerate of others by turning off your mobile phone.

Transportation

Not provided for participants
