Subject: Ethical Med Tech - Conference Vetting System - Assessment outcome decision
Date: Tue, Dec 2, 2014 17:50

To whom it may concern,

With regards to the last email, I am pleased to inform you that following our assessment we have determined that the conference is: **PARTIALLY COMPLIANT**.

This partial assessment decision will remain valid until 35 days prior to the conference starting date. The submitting party should provide to the Compliance Officer via the online submission form complementary information on the missing criteria.

Please note that:

- a. In rendering this decision, we have relied on the documents and information which have been provided to us. We have not independently verified the accuracy of that information or of those documents nor have we determined whether they are up-to-date.
- b. The overall conference scientific programme has been reviewed, but not its scientific content.
- c. This decision does not take into account national and local laws, regulations or professional and company codes that may impose more stringent requirements upon Eucomed members, members of local associations, Healthcare professionals and/or conference organisers.
- d. The Eucomed Code of Ethical Business Practice requires Eucomed members to notify in writing each sponsored Healthcare Professional's hospital administration, superior or locally designated competent authority with a full description of the purpose and scope of all sponsorship provided. It is up to each Eucomed member to comply with this transparency requirement.

This partial assessment decision will remain valid until 35 days prior to the conference starting date. By then, the Eucomed member who introduced the submission should provide to the Compliance Officer information on the missing criteria. If not, by the 35 deadline day, the conference will not be assessed and a non-assessment notice will be posted on www.ethicalmedtech.eu.

Sincerely,
Christine SAINVIL
