

BASIC COURSE

MAY 15-16

2015

This course has 34 participants working on 17 surgical tables supervised by more than 17 European experts in this field, i.e. 1 expert for 1 table. Each table is fully equipped with a camera of 2.4 mm attached to a video system. Each video system is connected to the course director's table who performs live demonstrations before participants start the procedures themselves. This course is intended for all surgeons interested in hand surgery and in particular in wrist surgery. Attending this course should allow participants to practice wrist arthroscopy competently and safely.
