INVITATION

Paris, March, 26-27 2015

AORTIC VALVE REPAIR: A STEP-BY-STEP APPROACH

Dear Colleagues,

We are pleased to invite you to the **5th edition of Aortic Valve Repair: a step by step approach to be held in Paris, France, on March 26-27, 2015**. This two-day interactive session focuses on decision making for dystrophic aortic roots, from echographic analysis to a standardized and physiological approach to aortic valve repair. Our aim is to integrate state-of-the-art into daily practice as well as to challenge current knowledge through lectures from international faculty, live-on-tape surgery, videos of difficult cases, management of intraoperative failures and reoperations.

We look forward to share our experiences and gain an overall perspective on aortic valve repair.

Emmanuel Lansac

8:00 WELCOME

8:30-13:00

Rationals of aortic annuloplasty for a standardized aortic valve repair
E Lansac, Paris, France

Roadmap echocardiographic analysis for aortic valve repair
A Berrebi, Paris, France

Live on tape: Aortic root aneurysm tricuspid valve:

- Surgical technique step by step
- Live on Tape 1

10:15 Coffee break

Dystrophic ascending aorta and aortic insufficiency: essentials and limits of latest guidelines

A Evangelista, Barcelona, Spain

Effective height and geometric height to standardize cusp repair

HJ Schäfers, Homburg, Germany

Live on tape: Isolated aortic insufficiency :Tricuspid valve

- Surgical technique step by step
- Live on Tape 2

13:00-14:00 LUNCH

14:00-18:00

Mildly dilated ascending aorta and bicuspid valve: where do we draw the line?

Thoralf Sundt, Boston, USA

Surgical landmarks of the conduction system in tricuspid or bicuspid aortic valve

R Anderson, London, United Kingdom

Live on tape: Aortic Root Aneurysm: bicuspid valve

- Surgical technique step by step
- Live on Tape 3

15:45 Coffee break

Long term results of bicuspid aortic valve repair and risk factor for failure

Gebrine El Khoury, Brussels, Belgium

Systematic review and meta analysis of aortic valve repair versus replacement

Hanneke Takkenberg, Rotterdam, Netherlands

Early analysis of the AVIATOR registry.

Jolanda Kluin, Utrecht, Netherlands

Live on tape: Isolated aortic insufficiency bicuspid valve

- Surgical technique step by step
- Live on Tape 4

20:30 GROUP DINNER with faculty

8:00 WELCOME

8:30-13:00

Difficult cases, specific lesions: from echo analysis to surgical repair, Panel

Valve sparing and aortic dissection

Olivier Bouchot, Dijon, France

Unicupid valve repair: all repairable?

HJ Schäfers, Homburg, Germany

10:15 Coffee break

Post-repair evaluation of the aortic valve: When to reclamp? Predictors for AI recurrence

MC Malergue, Paris, France

Clinical cases of Intra operative failures and reoperation

Panel

Aortic valve repair: how to start?

Maciej Matuszewski, Wolverhampton, United Kingdom

13:00-14:00 LUNCH

14:00-18:00 WETLAB ON ANATOMICAL HEARTS

at the Ecole de Chirurgie de l'Assistance Publique Hôpitaux de Paris
Anatomy of the Aortic Root

Aortic Cusp Assessment including Measurement of Cusp Effective Height

Remodeling of the Aortic Root with Subvalvular External Aortic Annuloplasty Technique

Subvalvular Aortic Annuloplasty using an open ring

Department of Cardiac pathology

DEPARTMENT OF CARDIAC PATHOLOGY

SURGEONS

Mathieu Debauchez, Patrice Dervanian, François Laborde, Emmanuel Lansac, Susanna Salvi, Konstantinos Zannis

CARDIOLOGISTS

Catherine Albo, Nicolas Amabile, Clément Bars, Saloua Berrada, Alain Berrebi, Anne Boisvieux-Lucas, Christophe Caussin, Hafida Chikr, Roger Chokron, Daniel Czitrom, Jean-Marc Darondel, Christelle Diakov, Alain Dibie, Luc Drieu, Anastasia Gounaropoulos, Philippe Goy, Pierre Jorrot, Takeshi Kondo, Oksana Kovalska, Marie-Christine Malergue, Zoheir Mami, Leila Mankoubi, Patrick Meimoun, Serban Mihaileanu, Ramine Monachipour, Yamina Mouhoub, Milena Noghin, Véronique Pasquali, François Philippe, Martin Rabot, François Raoux, Pierre Sabouret, Jean-Pierre Saal, Nima Saunier, Joël Sebbah, Soumaya Telili, Aurélie Veugeois.

INTENSIVE CARE

Kamel Bouabdallah, Antoine Ceddaha, Fehmi Kattou, Philippe de Lentdecker

RADIOLOGISTS

Nadia Bouzar, Aude Fregeville, Francoise Gelbert, Agnès Henon, Stéphane Lenoir, Robert Palau, Christine Rodriguez-Regent, Christiane Strauss
