EDITORIAL CHAIR, ORGANIZING COMMITTEE

Dear colleagues,

With great pleasure, we announce the XXI Congress of the European Society of Stereotactic and Functional Neurosurgery, which will be held in Maastricht, The Netherlands, on 17-20 September 2014.

The venue is the Maastricht Exhibition and Conference Centre (MECC), providing excellent facilities and state-of-the-art services. It is strategically located between the old center of the city, which is easily accessible, and the business area. Maastricht is one of the oldest cities in the Netherlands with well-preserved cultural heritage, and Maastricht University, being the most international University of the Netherlands, has a tradition in Clinical and Experimental Functional and Stereotactic Neurosurgery.

With the XXI Congress, we aim to continue the successful series of previous ESSFN meetings. We are motivated to put together a scientifically appealing program and hope to create an active platform to exchange and discuss the latest research results and concepts in the fields of movement disorders, psychiatric disorders, pain, epilepsy, radiosurgery, neuronavigation and intraoperative monitoring. The most recent developments in different surgical technologies varying from closed-loop deep brain stimulation to gene- and cell-based therapies and relevant diagnostic methods will be highlighted. Particular emphasis will be put on the translational nature of the scientific program which will be combined by authoritative lectures from clinician- and basic-scientists.

We look forward hosting you in Maastricht.

Yasin Temel
Chair, organizing committee

GENERAL INFORMATION

Climate and clothing Maastricht boasts a moderate climate, and receives more sunshine than any other place in Holland. The hottest months are the summer period (June to August), although May and September have averages of about 25°C also. Maastricht weather is cool in winter (December to February), but can drop below 0°C at night.

Electricity Electricity used in Holland is 220 Volts; its frequency is 50 Hz and the plugs have two male contact points. Plan to bring a transformer for your electrical or electronic equipment using different voltage.

Currency EUR (€) is the official currency in Holland. Money can be changed at the main train stations, international airports, major banks, exchange bureau, most large hotels and the post office. All major credit cards are accepted in most hotels, restaurants and shops.

Restaurants The sheer number of high-quality restaurants reminds you that you are not far from Brussels and Paris.
