organize:

### 4th ZAGREB International Course in 'BREAST RECONSTRUCTION'

Date: **20th – 21st March 2015**

Place: **Hotel DUBROVNIK, Zagreb**

Dear colleagues and friends,

It is my pleasure and joy to invite you to participate in the **4th International Course in Breast Surgery 2015** that will be held again in Zagreb, capital of Croatia. The course is organized by Department of Plastic, Reconstructive and Aesthetic Surgery, Clinical Hospital 'Dubrava', which is accredited by the European Board of Plastic, Reconstructive and Aesthetic Surgery (EBOPRAS) for educational exchange programs.

The goal of this course is to provide a current, pragmatic overview of techniques and decision making in aesthetic and reconstructive breast surgery. This course will be directed to surgeons with all levels of experience in the breast aesthetic and reconstructive surgery. A distinguished faculty, with more than 30 years' experience in the breast surgery will cover the full scope of breast surgery. Specifically we have designed the program to be of interest to surgeons considering the use all kind of breast implants, expanders and Becker type implants. The program will include video procedures and review of operative techniques and detailed descriptions of the aesthetic and reconstructive surgical procedures. Panels will focus on the managements of critical issues and controversies facing surgeons who perform primary and secondary breast reconstructions, including avoidance and management of complications. So we are looking forward to welcome you to Zagreb. The Croatian colleagues and I will spare no effort to make this event successful and memorable for all.

Prof. Zdenko Stanec PH.D
