

8th IGASS Forum

Lyon, France, Tue, September 30, 2014

Venue: Hilton Hotel Lyon

“What happened to Motion Preservation”

10.30-11.00

Registration

11.00-12.00

Session 1: TDR – Total Disc Replacement

11.00-11.30

1. *Cervical Degeneration*

Moderation: B MEYER

Case 1: Example of Disc Herniation – TDR (M ALFAWAREH)

Case 2: Example of Disc Herniation – ACDF (C LUCANTONI)

Case 3: Case of long-term TDR – wear debris what to do? (J HURLBERT)

Case 4: ACDF – Degenerative: Above and Below (Z BRODZINSKI)

11.30-12.00

2. *Lumbar Degeneration*

Moderation: S CHAROSKY

Case 1: Critical Consideration on Lumbar Disc Prosthesis with 10 years minimum Follow-up (M BRAYDA-BRUNO)

Case 2: Growth Instrumentation with plus 10 years follow up (C BÜNGER)

Case 3: A somehow serious Complication and Problem (R SCHMIDT)

Case 4: Example of serious Complication (R DUNN)

Case 5: Severe Facet Pain following 2 level Prodisc treated with semi-rigid Interspinous Spacer (K S LAM)

12.00-13.00

Session 2: Pedicle Screw based Systems

12.00-12.30

1. *End Zone of Constructs*

Moderation: M GEHRCHEN

Case 1: Failure of the hybrid Fixation System (A EL SHAWARBY)

Case 2: Fracture and Dynamic Fixation end of the construct

12.30-13.00

2. *Others*

Moderation: S HEGDE

Case 1: Long term for Stenosis of the Canal (R DUNN)

Case 2: A long term Follow-up 'Graf Ligament' considering functional Result (N PASSUTI)

Case 3: Fracture Stabilization with Removal of Implants at 6 month in the younger Patient (M ENERCAN)

Case 4: Long rigid Fixation after severally loosened Pedicle Screws in semi-rigid fixation by using Segmental Spinal Correction System (SSCS) (A YAMAZAKI)

13.00-14.00	<i>Lunch Break</i>
14.00-16.00 14.00-15.00	Session 3: "Conservative" Treatment of Deformity <i>How to minimize Surgery in Deformity? Moderation: R HEDLUND</i> Case 1: Indication of Brace for Idiopathic Scoliosis (<i>N PASSUTI</i>) Case 2: Infantile Scoliosis Growth Instrumentation (<i>S SAFAEE</i>) Case 3: Short Fusion in Scoliosis Surgery (<i>A KAE LIN</i>) Case 3: Can anterior release an instrumented Fusion followed by Posterior Fusion decreases the number of Fusion levels in Adult Deformity (<i>S MOLLOY</i>)
15.00-16.00	Session 4: Interspinous Devices and More <i>Moderation: R DUNN</i> Case 1: Stenosis, ISD without direct Compression and 8 years Results (<i>S SAFAEE</i>) Case 2: Stenosis of Canal – Laminoplasty Case 3: Example of Decompression and Fusion percutaneously with Screw and Rod one side and TLIF the other side (<i>J FRANKE</i>) Case 4: Example of Facet Joint Replacement (<i>M ENERCAN</i>) Case 5: Example of Nucleus Replacement (<i>Z BRODZINSKI</i>)
16.00	Adjourn
16.30 – 18.30	IGASS Board Meeting / Hilton Lyon Hotel
20.30	<i>- IGASS Faculty Dinner -</i>
