SCIENTIFIC PROGRAMME

Female Pelvic Floor Dysfunctions
in the Mediterranean:
A Region-based Approach

Welcome Message

Biagio Adile
MIPS President

Diaa Rizk
Chairman of the
Executive Board

Dear Colleagues,

The Mediterranean Incontinence and Pelvic Floor Society (MIPS) was founded during the ICS Educational course held in Palermo, Sicily, Italy on 15-17 November, 2012. We believed that there was a need for a professional organization to include Urologists and Gynaecologists interested in incontinence care and pelvic floor health from the Mediterranean region. This will facilitate an exchange of experience and knowledge related to incontinence and pelvic floor dysfunctions between Mediterranean countries within a close geographical location and with similar socio-cultural backgrounds.

We, in the Executive Board, are very optimistic about the future of our society. The Executive Board put a great effort and time to draft the

bylaws, governance, terms of reference, membership package, affiliation agreements with FIGO, ICS and IUGA and the other administrative and financial framework of the organization. Our education and trainees committees, chaired by Prof. Stefano Salvatore and Professor Adolf Lukanovic, prepared an excellent scientific programme that is specific to both physician educational needs and patient care priorities in our countries. The Meeting Chair, Dr. Salvatore Morgia and our Executive Director, Ms. Natalia Trotta, with the assistance of the local organizing committee, have organized a very interesting social programme and the meeting venue is the beautiful and historical Vittorio Emanuele Theatre of Noto, famous for hosting national and international Opera works.

As a distinguished leader in incontinence and pelvic floor care in your own Mediterranean country, we would like to cordially invite you to join our new Society and attend our first inaugural meeting to contribute to our mission. We are very excited about this opportunity to further the collaboration and friendship between incontinence physicians working in the Mediterranean region with a consequent positive impact on incontinence care and service delivery to our patients.

We, in the Executive Board, are very keen that you will be able to attend and provide your input. Your participation in the General Assembly is very important to us because we want to listen to your views and experience on how to improve and build on our current work. This is an opportunity for all new members to play an active role in our society.

We look forward to meeting all of you in Noto in November.

Biagio Adile and Diaa Rizk

Salvatore Morgia
Meeting Chair

Dear All,

It will be an honour and a pleasure to host you in Noto next November, on the occasion of the MIPS Inaugural Meeting.

I wish you all appreciate and take advantage of such an important and appealing scientific meeting to enjoy the wonderful natural and artistic attractions of Noto, nowadays considered as one of the most famous worldwide center for Baroque and UNESCO World Heritage site.

Many thanks for your participation and I hope to see you all on November, 29th.

Salvatore Morgia
