

International Course
Echocardiography for Hemodynamic Monitoring
 Brussels – Erasme Hospital, November 18-20, 2014

Tuesday, November 18, 2014

BASICS	
09.00	Presentation of the course <i>Course directors</i>
09.15	Ultrasound principles and new advances in ultrasound technology M. Slama (Amiens, France) Mod: A. Vieillard-Baron (Boulogne-Billancourt, France), P. Mayo (New York, USA)
10.00	Transthoracic and transesophageal echo: Indications and planes D. De Backer (Brussels, Belgium) Mod: A. Vieillard-Baron (Boulogne-Billancourt, France), P. Mayo (New York, USA)
10.45	Break
11.00	Evaluation of LV systolic function and cardiac output C. Dedobbeleer (Brussels, Belgium) Mod: A. Vieillard-Baron (Boulogne-Billancourt, France), P. Mayo (New York, USA)
11.30	Evaluation of LV diastolic function M. Slama (Amiens, France) Mod: A. Vieillard-Baron (Boulogne-Billancourt, France), P. Mayo (New York, USA)
12.00	Evaluation of RV function and measurement of pulmonary pressure A. McLean (Sydney, Australia) Mod: D. De Backer (Brussels, Belgium), P. Mayo (New York, USA)
12.45	Lunch
13.20	Division into 3 groups
13.30	Workshop 1/ Hands-on M. Slama (Amiens, France), P. Mayo (New York, USA), L. Bodson (Paris, France), C. Dedobbeleer (Brussels, Belgium) 2/ Simulation stations (GE computer) A. Vieillard-Baron (Boulogne-Billancourt, France) 3/ TEE Simulators
16.30	Break
17.00	Cardiac tamponade P. Mayo (New York, USA) Mod: M. Slama (Amiens, France)
17.30	Free access to hands-on M. Slama (Amiens, France), D. De Backer (Brussels, Belgium), A. Vieillard-Baron (Boulogne-Billancourt, France), L. Bodson (Paris, France) P. Mayo (New York, USA), C. Dedobbeleer (Brussels, Belgium)

Wednesday, November 19, 2014

INTRODUCTION TO HEMODYNAMIC MONITORING

08.30	Evaluation of filling pressures A. McLean (Sydney, Australia) Mod: M. Slama (Amiens, France)
09.30	Case presentations (TTE and TEE views) D. De Backer (Brussels, Belgium) & P. Mayo (New York, USA) Mod: M. Slama (Amiens, France)
10.30	Break
10.50	Heart-lung interactions A. Vieillard-Baron (Boulogne-Billancourt, France) Mod: P. Mayo (New York, USA)
11.45	Case presentations L. Bodson (Paris, France) & D. De Backer (Brussels, Belgium) Mod: P. Mayo (New York, USA)
12.15	Echocardiographic patterns of acute cor pulmonale A. Vieillard-Baron (Boulogne-Billancourt, France) Mod: A. McLean (Sydney, Australia)
13.00	Lunch
14.00	Prediction and evaluation of fluid responsiveness P. Mayo (New York, USA) Mod: M. Slama (Amiens, France)
15.00	Case presentations D. De Backer (Brussels, Belgium) & M. Slama (Amiens, France) Mod : P. Mayo (New York, USA) & A. Vieillard-Baron (Boulogne-Billancourt, France)
16.00	Break
16.30	Complications post cardiac surgery J. Poelaert (Brussels, Belgium) Mod: D. De Backer (Brussels, Belgium)
17.00	Obstructive cardiomyopathy/dynamic obstruction LVOT M. Slama (Amiens, France) Mod: D. De Backer (Brussels, Belgium)
17.30	Free access to hands-on M. Slama (Amiens, France), D. De Backer (Brussels, Belgium), A. Vieillard-Baron (Boulogne-Billancourt, France), J. Poelaert (Brussels, Belgium), P. Mayo (New York, USA), L. Bodson (Paris, France), C. Dedobbeleer (Brussels, Belgium)

Thursday, November 20, 2014

INTEGRATED APPROACH: CLINICAL SITUATIONS

08.30	New technologies: - The cardiologist's point of view C. Dedobbeleer (Brussels, Belgium), - The intensivist's point of view A. McLean (Sydney, Australia) Mod: P. Mayo (New York, USA)
9.00	How to assess a patient in shock? How to assess a patient in acute respiratory failure? M. Slama (Amiens, France) Mod: A. McLean (Sydney, Australia)
09.30	Case presentations P. Mayo (New York, USA) & D. De Backer (Brussels, Belgium) Mod: A. Vieillard-Baron (Boulogne-Billancourt, France) & M. Slama (Amiens, France)
10.30	Break
11.00	Case presentations A. Vieillard-Baron (Boulogne-Billancourt, France) & M. Slama (Amiens, France) Mod: P. Mayo (New York, USA) & D. De Backer (Brussels, Belgium)
11.30	Myocardial depression in septic shock D. De Backer (Brussels, Belgium) Mod: A. Vieillard-Baron (Boulogne-Billancourt, France)
12.30	Lunch
13.30	New devices (portable ultrasound and continuous TE) A. Vieillard-Baron (Boulogne-Billancourt, France) Mod: P. Mayo (New York, USA)
13.45	Echocardiography to adapt ventilator settings in ARDS A. Vieillard-Baron (Boulogne-Billancourt, France) Mod: P. Mayo (New York, USA)
14.30	Case presentations M. Slama (Amiens, France) & D. De Backer (Brussels, Belgium) Mod: A. McLean (Sydney, Australia) & P. Mayo (New York, USA)
15.00	Pulmonary embolism A. McLean (Sydney, Australia) Mod: M. Slama (Amiens, France)
15.30	Myocardial infarction L. Bodson (Paris, France) Mod: D. De Backer (Brussels, Belgium)
16.15	Evaluation of the patient under ECMO/LVAD D. De Backer (Brussels, Belgium) Mod: P. Mayo (New York, USA)
16.45	Key messages
