

Scientific Program- Friday, January 13th, 2017

Time	Presentation
08:30-10:00	The Implantable Defibrillator
08:30-08:50	Refining Patient Selection for the ICD - Beyond Ejection Fraction
08:50-09:10	Smart Programming of the ICD: Evidence for Better Outcomes
09:10-09:30	Defibrillation Threshold Testing: Obsolete?
09:30-09:50	The Subcutaneous ICD: Evolution of Evidence and Technology
09:50-10:00	Case Discussions
10:00-10:30	Coffee Break
10:30 - 11:00	Catheter Mapping and Ablation of Complex Atrial Tachycardia Following
11:00 - 11:30	Catheter and Surgical Ablation of AF
11:30 - 12:00	Case Discussions
12:00 - 12:30	Can we ablate ventricular fibrillation?
12:30 - 13:00	Case Discussions
13:00 - 14:00	Prayer & Lunch Break
14:00 - 15:00	Ablations in Catecholaminergic Polymorphic VT (everything is in the 's')
15:00 - 15:30	Case Discussions
15:30 - 16:00	Evaluation

Scientific Program- Saturday, January 14th, 2017

Time	Presentation
08:30-10:00	Best of HRS
08:30-08:50	MRI and Heart Rhythm Devices: From Physics to Clinical Practice
08:50-09:10	Ablation of Arrhythmias in Congenital Heart Disease
09:10-09:30	Implantable Device Infections: From Prevention to System Extraction (and re-Implantation)
09:30-09:50	Of Catheters and Balloons: Technology and Evidence in AF Ablation
09:50-10:00	Case Discussions
10:00-10:30	Coffee Break
10:30 - 11:00	Parasystolic arrhythmia
11:00 - 11:30	Case Discussions
11:30 - 12:00	Management of LONG QT Syndrome: how has this changed in the molecular era?
12:00 - 12:30	Idiopathic VPDs and VF Triggers: Localization and Ablation
12:30 - 13:00	Case Discussions
13:00 - 14:00	Prayers & Lunch Break
14:00 - 15:00	Resetting or entrainment for target identification in reentrant rhythms ?
15:00 - 15:30	Case Discussions
15:30 - 16:30	Symposium: Panel Discussion
16:30 - 17:00	Closing
