

Wednesday 12th December, 2012

Room 2

18:00-19:00

Symposium TBC

Thursday 13th December, 2012

Main Arena

08:20-08:30

Welcome

Chairpersons: I. Al Rashdan, H. Amin, A. Baumbach, J. Fajadet, W. Wijns

5 mn - PCR Family - *W. Wijns*

5 mn - Welcome to GulfPCR-GIM - *I. Al Rashdan*

08:30-10:30

Learning Pathway: left main and multivessel disease

Pathway Coordinator: H. Amin

Facilitators: I. Al Rashdan, A.M. Al Zubaidi, I. Alhaddad, S. Alkandari, T.

Cuisset, J. Fajadet, M. Haude, M.C. Morice

Front row panellists: A. Baumbach, W. Wijns

Objective:

To appreciate the up-to-date knowledge and skills required to treat a patient presenting with left main and/or multivessel disease

08:30-09:00

How should I treat? - left main and multivessel disease

Objectives:

(INTERNAL USE ONLY)

To appreciate regional differences in the management of a patient presenting with left main and/or multivessel disease

To highlight local experience and local constraints

2 mn - Introduction and objectives - *H. Amin*

5 mn - Case presentation: title TBC - *S. Alkandari*

5 mn - How would I treat? - *I. Alhaddad*

5 mn - How would I treat? - *T. Cuisset*

5 mn - How did I treat? - *S. Alkandari*

5 mn - Discussion

3 mn - Consensus - *H. Amin*

09:00-09:05

The Learning Pathway

5 mn - Explanation of the concept - *H. Amin*

09:05-10:00

LTT - How to succeed with complex PCI: a patient presenting with left main and multivessel disease

Facilitators: I. Al Rashdan, A.M. Al Zubaidi, M. Haude

Objectives:

(INTERNAL USE ONLY)

To review the decision-making process in the treatment of an individual patient presenting with left main and/or multivessel disease

10:00-10:15

Tips and tricks for left main and multivessel disease

Objectives:

(INTERNAL USE ONLY)

To review procedural skills and approaches to complex interventions (without overlapping the previous LTT section)

15 mn - *J. Fajadet*

10:15-10:28

Update 2012 and looking to the future

Objectives:

(INTERNAL USE ONLY)

To highlight recent evidence and developments in left main and multivessel disease interventions

To differentiate facts and fiction in the interpretation of left main and multivessel disease evidence

To reflect on where left main PCI will stand in ten years' time

13 mn - *M.C. Morice*

10:28-10:30

2 mn - Take-home message for the Learning Pathway - *H. Amin*

10:30-11:00

Break

11:00-13:00

Learning Pathway: complex bifurcation lesion

Pathway Coordinator: G. Stankovic

Facilitators: W. Ahmed, S. Alam, I. Alhaddad, M. Almutairi, H. Gamra, T. Lefèvre, H.A. Noor

Front row panellists: T.Majwal

Objective:

To appreciate the up-to-date knowledge and skills required to treat a patient presenting with complex bifurcation lesion

2 mn - Introduction to the Learning Pathway – *G. Stankovic*

11:02-11:10

State-of-the-art knowledge in bifurcation management

Objectives:

(INTERNAL USE ONLY)

To review state-of-the-art knowledge in bifurcation management (provisional vs. two stent approach)

8 mn - *T. Lefèvre*

11:10-12:10

LTT - How to succeed with complex PCI: a patient with complex bifurcation lesion

Facilitators: G. Stankovic, W.H. Ahmed, H.A. Noor

Objectives:

(INTERNAL USE ONLY)

To review the decision-making process in the treatment of an individual patient presenting with complex bifurcation lesion

12:10-12:20

Tips and tricks for complex bifurcation lesion

Objectives:

(INTERNAL USE ONLY)

To review procedural skills and approaches to complex interventions (without overlapping those covered in the previous LTT)

10 mn - *T. Lefèvre*

12:20-12:50

How should I treat? - complex bifurcation lesion

Chairperson: I. Alhaddad

Objectives:

(INTERNAL USE ONLY)

To appreciate regional differences in the management of a patient presenting with complex bifurcation lesion

To highlight local experience and local constraints

2 mn - Introduction and objectives - *I. Alhaddad*

5 mn - Case presentation: title TBC - *M. Almutairi*

5 mn - How would I treat? - *S. Alam*

5 mn - How would I treat? - *H. Gamra*

5 mn - How did I treat? - *M. Almutairi*

5 mn - Discussion

3 mn - Consensus - *I. Alhaddad*

12:50-12:58

Watch out for... dedicated bifurcation stents

8 mn - *G. Stankovic*

12:58-13:00

2 mn - Take-home message for the Learning Pathway - *G. Stankovic*

13:10-14:10

Symposium TBC

14:30-15:45

Plenary session

Structural heart disease – non-coronary interventions

Chairperson: I. Al Rashdan

Panellists: M. Al Abdullah, K. Almerri, M. Thomas, M. Youssef

Objectives:

To review the main points of interest and controversies highlighted during the PCR London Valves course

To understand patient selection, current technology and results achieved with percutaneous methods to treat valvular and structural heart disease

To acknowledge novel technology designed to improve results of valve interventions

15 mn - Headlines from PCR London Valves 2012 - *M. Thomas*

10 mn - Centre n°1 - update on TAVI - TBC

10 mn - Centre n°2 - update on TAVI - *K. Almerri*

15 mn - Emerging enabling technologies for TAVI - TBC

11 mn - Left atrial appendage closure device - *M. Youssef*

11 mn - MitraClip - TBC

3 mn - Take-home message – *I. Al Rashdan*

15:45-16:15

Break

16:15-16:30

The OCT Atlas : preview of the application – *P.W. Serruys*

16:30-18:00

Forum

Session based on submissions to the Call for Clinical cases

Chairperson: A. Pichard

Panellists: S. Alam, S. Mishra

18:00-19:00

Symposium TBC

Room 2

13:10-14:10

Symposium TBC

18:00-19:00

Symposium TBC

Friday 14th December, 2012

Main Arena

08:30-10:30

Learning Pathway: NSTE-ACS

Pathway Coordinator: T. Cuisset

Facilitators: W. Al Mahmeed, A. El Etriby, O. Goktekin, M. Haude, T. Majwal

Front row panellists: S. Alam, A. Shehab

Objective:

To appreciate the up-to-date knowledge and skills required to treat a patient presenting with NSTE-ACS

2 mn - Introduction to the Learning Pathway – *T. Cuisset*

08:32-08:40

Case presentation: title TBC

Objective: TBC

8 mn - Case presentation: - *TBC*

08:40-08:55

Topic review on NSTE-ACS

Objectives:

(INTERNAL USE ONLY)

To define the rules for invasive management vs. conservative treatment for a patient presenting with NSTE-ACS

To understand and implement risk scores in daily practice

15 mn - *W. Al Mahmeed*

08:55-09:55

Management dilemmas for NSTE-ACS: a case-based evidence review

Facilitator: T. Cuisset

Objectives:

(INTERNAL USE ONLY)

To review the decision-making process in the treatment of an individual patient undergoing an intervention for NSTE-ACS

09:55-10:05

Adjunctive pharmacotherapy

Objective: To understand the latest evidence in adjunctive pharmacotherapy in NSTE-ACS

10 mn - *A. El Etriby*

10:05-10:28

How should I treat? - NSTE-ACS

Chairperson: O. Goktekin

Objectives:

(INTERNAL USE ONLY)

To appreciate regional differences in the management of a patient presenting with NSTEMI-ACS

To highlight local experience and local constraints

2 mn - Introduction and objectives - *O. Goktekin*

3 mn - Case presentation: title TBC - *T. Majwal*

4 mn - How would I treat? - TBC

4 mn - How would I treat? - *M. Haude*

4 mn - How did I treat? - *T. Majwal*

4 mn - Discussion

2 mn - Consensus - *O. Goktekin*

10:28-10:30

2 mn - Take-home message for the Learning Pathway – *T. Cuisset*

10:30-11:00

Break

11:00-13:00**Learning Pathway: STEMI**

Pathway Coordinator: A. Baumbach

Facilitators: A.B. Al-Riyami, K.F. AlHabib, H. Amin, J. Fajadet, A. Pichard

Front row panellists: M. Almutairi

Objective:

To appreciate the up-to-date knowledge and skills required to treat a patient presenting with STEMI

2 mn - Introduction to the Learning Pathway – *A. Baumbach*

11:02-11:10**Case presentation: title TBC****Objective:** TBC

(INTERNAL USE ONLY)

8 mn - Case presentation: TBC

11:10-11:25**Gulf RACE-3: towards primary PCI implementation in the Gulf region**

Objectives: To explore methods and plans to implement wider spread primary PCI practice in the region

15 mn - *K.F. AlHabib*

11:25-12:25**LTT - How to succeed with complex PCI: a patient presenting with STEMI**

Facilitators: A. Baumbach, A.B. Al-Riyami, H. Amin

Objectives:

(INTERNAL USE ONLY)

To review the decision-making process in the treatment of an individual patient presenting with STEMI

12:25-12:35

Tips and tricks for thrombus aspiration

Objective: To explain the correct use of thrombus aspiration devices

10 mn – TBC

12:35-12:48

What's new in STEMI**Objectives:**

(INTERNAL USE ONLY)

To better understand the new evidence for STEMI management

13 mn – *A. Pichard*

12:48-12:58

How to implement Stent for Life

8 mn - *J. Fajadet*

12:58-13:00

2 mn - Take-home message for the Learning Pathway – *A. Baumbach*

13:10-14:10

Symposium TBC

14:30-15:40

Plenary session**Trials and trialists**

Chairperson: I. Al Rashdan

Panellists: K.F. Al-Shaibi, A. Baumbach, A. Lansky, M.C. Morice, P.W. Serruys

Objectives:

To acknowledge the potential impact on our clinical practice of selected major trials presented in 2012

To understand the organisation and planning of high quality multicentre randomised clinical trials

To get acquainted with the prerequisites to participate in a clinical trial as an investigator and a trial site

To discuss the potential of the Gulf region to develop research networks

5 mn - Introduction - *I. Al Rashdan*

10 mn – Trials Part I - *A. Baumbach*

5 mn - Will these trials change my practice? - *K.F. Al-Shaibi*

10 mn - Trial design: to non-inferiority and beyond - *A. Lansky*

10 mn – Trials Part II - *P.W. Serruys*

5 mn - Will these trials change my practice? - TBC

10 mn - What does my centre need in order to participate in major trials? -
M.C. Morice
15 mn - Roundtable discussion: building a research portfolio in the region

15:40-16:10

Break

16:10-17:40

Forum

Session based on submissions to the Call for Clinical cases

Chairperson: J. Fajadet
Panellists: K. Almerri, TBC

17:40-18:00

Best Clinical case award & Closing ceremony

Chairpersons: I. Al Rashdan, H. Amin, A. Baumbach, J. Fajadet

Room 2

11:00-12:20

The OCT Atlas : seeing is understanding – P.W. Serruys

13:10-14:10

Symposium TBC
