

Stroke Live Course

SLICE

THE MULTIDISCIPLINARY STROKE TEAM MEETING

September 7-9, 2015 - Nice, France

Hyatt Regency - Palais de la Méditerranée

FIRST ANNOUNCEMENT

www.slice-online.com

europa  organisation

The SLICE is endorsed or supported by ESO, ESMINT, SVIN, SFAR, ANARLF and SFNV.

SLICE: Multidisciplinary Acute Care for Stroke victims

- ▶ Time is brain
- ▶ Time is Workflow
- ▶ Improving workflow by a synergistic multidisciplinary approach of the patient

Dear Colleague,

Take part in the SLICE this September in Nice and share the live experience of worldwide stroke units in a very interactive manner: Together, let's build the main acute stroke management multidisciplinary event!

HERE YOU GO!

Building your interventional stroke unit this year? The SLICE is a unique occasion to meet colleagues who've gone the same route and to exchange very practical tips and tricks. Discuss all aspects of acute stroke management, from patient regulation systems, to in-hospital workflow, imaging selection, anaesthetic protocols, interventional strategy and post-operative management. Large experienced teams will share their own management protocols in detail with ample time for interactive discussion with the audience.

Attend major 35-minute long literature reviews by a multidisciplinary panel and benefit from relevant educational documents. Get up to speed with the latest developments in the field!

YOU ARE AN EXPERT!

Enjoy discussing the future of a combined approach using IV lithics and mechanical treatment during the SLICE with the representatives of main recent trials MR CLEAN, SWIFT PRIME and ESCAPE.

Discover unpublished leading edge topics by advanced research teams: Biology of the Thrombus, New lithics, Pre-hospital screening tools, MR wall imaging, etc.

At least 15 stroke cases recorded in live conditions will be broadcast over 3 days and arranged into thematic sessions:

- Posterior Circulation Stroke
- Tandem Occlusion Stroke Stenting or NOT?
- Intracranial Stenosis diagnosis and management
- Complication and Failure identification and management
- Late Stroke Management - DAWN Trial
- In-Hospital Workflow
- Pre-Hospital Management
- Synergistic Effect of Mechanical Treatment and IV
- Local or General Anesthesia
- Paramedic Roles, Technicians, Nurses in Acute phase management

Use your smartphone to join the discussion, send a survey, vote, and instantly interact with the team performing the case!

ONGOING TRIAL SESSIONS:

-During these sessions, open trials will be presented by main PI in the field of anesthesiology, neurology and mechanical treatment. Center applications will be offered during the sessions and discussions with main PI.

BECOME PART OF THE SHOW:

Take part in the SLICE this year, and apply to have our video team visit you next year. Welcome the SLICE video team for a week in your center and take an active role in the course programme!

FEEL THE SLICE TEAM SPIRIT:

At the end of Day 2, join the Faculty in the walk/run in Nice to highlight the work of the FRANCE-AVC (French stroke) association. Show the public how healthcare professionals are getting involved for this important cause! Every able Course attendee will be strongly encouraged to take part in the effort on the boardwalk.

We hope you'll join us for this first SLICE event and that you'll be able to say: «I was there!»

See you in Nice this September 7th to 9th,

The Organizing Committee

 SLICE is the 100% acute phase meeting.

SLICE means sharing experience and learning the very latest technical strategies, anesthesiological management, and neurological guidelines necessary for efficient and effective decision-making during the acute phase.

SLICE helps us understand the complexity of the regulation system while optimizing real-world workflow of any given structure with practical tips and tricks.

SLICE means coming together to share the practical, "take home" knowledge that can change practice and improve patient care in acute Stroke

SLICE is taking place in Nice on 7th to 9th of September 2015 and we look forward to joining us!

Gui de Chauliac University Hospital*,
Department of Neuroradiology, Montpellier,
France:

- Alain Bonafé - Neuroradiology
- Vincent Costalat - Neuroradiology
- Caroline Arquizan - Neurology
- Julien Fendeleur - Anesthesiology
- Olivier Beauvils - Emergency

Inselspital, University of Bern*,
Department of Diagnostic and Interventional
Neuroradiology, Berne, Switzerland:

- Jan Gralla - Neuroradiology
- Heinrich Mattle - Neurology
- Marcel Arnold - Neurology
- Urs Fischer - Neurology
- Gerhard Schroth - Neuroradiology
- Pasquale Mordasini - Neuroradiology
- Kety Hsieh - Neuroradiology
- Frauke Pult - Neuroradiology

The Mount Sinai Hospital, Klingenstein
Clinical Center*, Department of
Neurosurgery, New York, NY, United States:

- J. Duffy Mocco - Neuroradiology
- Stanley Tuhim - Neurology
- Carolyn Brockington - Neurology
- Johanna Fifi - Neuroradiology
- John Nasrallah - Neurology
- Deborah Horowitz - Neurology
- Mandip Dhamoon - Neurology
- Kara Sheinart - Neurology
- Jesse Weinberger - Neurology
- Ji Chong - Neurology

Medical University of South Carolina*,
Neuroendovascular Surgery, Department
of Radiology and Radiological Sciences,
Charleston, SC, United States:

- Aquilla Turk - Neuroradiology
- Raymond Turner - Neurosurgery
- Imran Chaudry - Neuroradiology
- Alejandro Spiotta - Neurosurgery

Vall d'Hebron University Hospital*,
Stroke Unit and Cerebral Hemodynamics,
Barcelona, Spain:

- Marc Ribó - Neurology
- Alejandro Tomasello - Neuroradiology
- Pilar Coscojuela - Neuroradiology
- Marta Rubiera - Neurology
- Carlos Molina - Neurology
- David Rodríguez-Luna - Neurology
- Jorge Pagola - Neurology
- Marian Muchada - Neurology
- Sandra Boned - Neurology
- Laia Sero - Neurology
- Mario Roca - Neuroradiology

MrClean 'teams'

Maastricht UMC

- Willem van Zwam - Neuroradiology
- Robert van Oostenbrugge - Neurology

Registration fees

Physicians / Allied Health €600
Fellows / Residents or Graduate Students €350

Organizing Committee

(Preliminary list)

Alain Bonafé, M.D. - Interventional Neuroradiologist
Vincent Costalat, M.D. - Interventional Neuroradiologist
Caroline Arquizan, M.D. - Neurologist
Julien Fendeleur, M.D. - Anesthesiologist
Marc Ribó, M.D. - Neurologist (ESO representative)
Patrick Brouwer, M.D. - Interventional Neuroradiologist (ESMINT representative)
Willem van Zwam - Interventional Neuroradiologist
Tudor G. Jovin - Stroke and Interventional Neurology
Nicolas Bruder - Anesthesiologist - Resuscitation
Mayank Goyal - Interventional Neuroradiologist
Gregory W. Albers - Neurologist

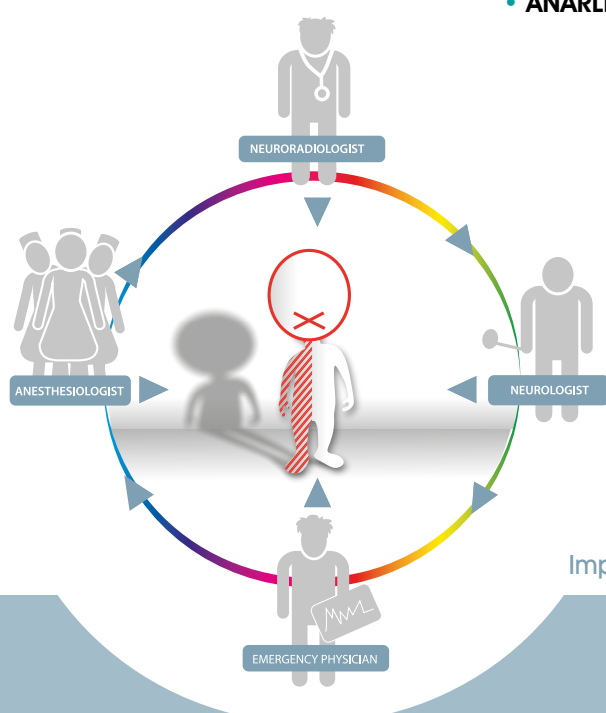

Official language

English

Endorsements & Supports

SLICE has received the support of:

- **ESO** (European Stroke Organisation)
- **ESMINT** (European Society of Minimally Invasive Neurological Therapy)
 - **SVIN** (Society of Vascular and Interventional Neurology)
 - **SFAR** (French Society of Anaesthesiology and Resuscitation)
- **ANARLF** (Association of Neuro-Anaesthesiology and Resuscitation)
 - **SFNV** (French Society of Neuro-Vascular)

Improving together the acute phase management
