**State of the art and future perspectives in vascular
and endovascular surgery**

Chairmen: Franco Grego and Giovanni Dertu

Department of Cardiac, Thoracic and Vascular Sciences
Section of Vascular and Endovascular Surgery - University of Padua, Italy

Padua, Italy
June 26th - 27th - 28th, 2014

	Thu. 26 June	Fri. 27 June	Sat. 28 June
8.00		Session F	Session O
		ABSTRACTS	ABSTRACTS
8.30	Session A	-nina -esposito (speciale) -mansour (speciale)	
	ABSTRACTS		
9.00	-Fernandez -	9.00 Session G (6 speakers) THORACIC AND TORACOABDOMINA DISSECTIONS I Deriu/Grego: Anatomic-pathological and radiological aspects of thoraco-abdominal aortic dissections Parodi: New concepts in aortic dissections Black: Lessons learned (or not) in Marfan Syndrome and Aortic Disease Trimarchi: Predictors of aortic growth after Type B dissection Kuratani: the new treatment strategy using TEVAR for acute and chronic type B aortic dissections Rodriguez Lopez: -Measure of Success after Endovascular Repair of Type B Thoracic Aortic Dissections	9.00 Session P (8 speakers) UNUSUAL ASPECTS IN VASCULA AND ENDOVASCULAR SURGERY Liapis: Patient and Surgeon Radiation protection during EVAR and TEVAR Treska: Osteoprotegerin in the etiopathogenesis of abdominal aortic aneurysm Veller: Vascular Trauma Felice De Sales: <i>Visceral artery aneurysms: changing the standard to endovascular repair and addressing technical challenges</i> Bonardelli: Aneurysms secondary to obstructive lesions of the Coeliac Trunk: indications and surgical techniques from 30 consecutive cases Koncar: Wall strength of AAA – does it influence on rupture event? Y. Hsiang: Vascular surgery in Canada, a Surgeon perspective. F. Spinelli: endovascular treatment of occlusions of superior vena cava Giannoukas: Hybrid procedures in lower limb revascularization
9.30	Session B (7+4) 9 speaker ABDOMINAL AORTA I Davidovich: Is open repair still the gold standard in the treatment of RAAA? Ippoliti: Current indication to open surgery for AAA Riambau: AAA repair is justified in patients with Chronic Renal Insufficiency: which is better? EVAR or open repair? Buckley: Use of helical EndoStaples in EVAR Carpenter: Nellix EVAR trials: status of the trials and devices F. Farnetti: Single Center Experience with new Treovance Abdominal Stent Graft (Bolton) Andrea Stella: Update on Anaconda registry (Serom) Giovanni Pratesi: dedicated devices “all in one” on iliac branch technology: clinical experience (Gore) Giovanni Nano (Serom)		
10.00		10.20	
		COOK Enrico Cieri :“Endovascular options in complex aortic disease”.	
10.30		10:40	10.30 Session Q (4 speakers) CAROTID BODY TUMORS (round table) Opocher: Update on genetics of paragangliomas Verga: Munoz: Current treatment of carotid body tumor: a frequent vascular condition in high altitudes Karspszak
		COFFEE BREAK	
11.00		11.00 Session H (5 speakers) THORACIC AND TORACOABDOMINA DISSECTIONS II Criado: Disease-specific endografts and strategies will be necessary to optimize TEVAR for treatment of aortic dissections Lombardi: Complicate type B aortic dissection treated with a composite device: long term data on the stable registry C. Shu: Adjunctive technique to facilitate endovascular repair of aortic dissection of the arch and its branches: hybrid repairs and chimney Ferreira: Branched devices to Chronic Type Dissections Melissano (grego chiesto titoli)	11.15
	11.10		COFFEE BREAK
	SEROM M. Gargiulo Jonathan Hargreaves		
11.30	11.30		11.30 Session R (8 speakers) CAROTID DISEASES Verlato: Asymptomatic carotid disease and intracranial stenosis Prego: Carotid disease and atrial fibrillation: a very controversial and exiting issue, especially in asymptomatic patients Verzini: Carotid Artery Stenting with tapered vs cylindrical stents: does it matter? Radak: Simultaneous carotid stenosis and cerebral aneurysm prospective data basis long-term results: carotid endarterectomy and treatment of cerebral aneurysm-what to do C. Pratesi: Carotid Surgery in asymptomatic patients Pereira: Timing of carotid endoarterectomy after acute stroke Speziale: Urgent and emergent carotid endarterectomy for severe stroke and unstable neurologic deficit. Darling: Carotid intervention in the acute stroke: lessons learned first?
	COFFEE BREAK		
11.50	Session C (7+4) 9 speakers ABDOMINAL AORTA II Von Ristow: EVAR without contrast: Duplex and fluoroscopy guided stent-graft implant Moll: Role of MRI in type II endoleaks Matsagkas: Several options in preserving the internal iliac artery during EVAR for aortoiliac AAA Mosquera: New possibilities to treat and prevent Type II endoleak Rabbia: Prevention and treatment of type	12.00 Session I (4-5 speakers) MULTILAYER (Coselli/buckley/Dietrich/chiesa) Nuredin Frid: cardiatis Palombo: Italian experience with multilayer stent in complex aortic disease Aun: Peripheral and thoraco-abdominal management with multilayer Sherif Sultan: Early mid-term results of the first 103 cases of multilayer flow modulator: independent global MFM registry Vaislic: two Years follow-up	
12.00			
12.30			

	<p>If endoleak</p> <p>Frigatti Chimney and sandwich techniques for secondary procedures after infrarenal aortic repair</p> <p>Ducasse: Open Chimney for juxta renal aneurysm</p> <p>Torsello: Chimney endografting for pararenal aortic pathologies using transfemoral access and the lift technique</p> <p>Jawien</p>		
13.00		13.00	
13.30	LUNCH	LUNCH	
14.30	<p>Session D 8 speakers</p> <p>THORACIC AND THORACOABDOMINAL AORTA (deriu mod)</p> <p>Coselli: The History of Thoracoabdominal Aortic Aneurysm Repair: Perils, Possibilities, and Perspectives</p> <p>Dzinich: Surgical treatment of thoracic and thoraco-abdominal aortic coarctations</p> <p>Fraedrich: Left subclavian artery revascularization prior to TEVAR is generally not necessary</p> <p>Nienaber: Endovascular approaches for the ascending aorta: now or never?</p>	<p>14:30 Session L (5 speakers)</p> <p>INFECTIONS (MAQUET)</p> <p>Edward: Management of infected endografts</p> <p>Bonvini: regrafting for abdominal aortic graft infections</p> <p>Roberto Chiesa: Management of aorto-esophageal and aortobronchial fistulae.</p> <p>Ferrari</p> <p>Gossetti</p>	
15.00	<p>Fraedrich: Left subclavian artery revascularization prior to TEVAR is generally not necessary</p> <p>Nienaber: Endovascular approaches for the ascending aorta: now or never?</p>		
15.30	<p>Dalman: Snorkel versus fenestrated endografts; indications, outcomes and advantages of either approach</p> <p>Chiesa: Hybrid aortic arch repair: experience of 180 cases</p> <p>Piergiorgio Cao: Two staged Thoracoabdominal Branched procedures: lights and shadows.</p> <p>Mangialardi: the impact of the radial fit on the treatment of aortic pathologies (GORE)</p> <p>Hinchcliffe (gruppo Thompson) (Medtronic)</p>	<p>15:30 Session M (8 speakers)</p> <p>CRITICAL LIMB ISCHEMIA / STEM CELLS (GORE-HARVEST)</p> <p>Schneider: Techniques for crossing the difficult SFA occlusion.</p> <p>Setacci: "Time is tissue": a new systematic approach to diabetic foot infections: is it really new or just newly recognized?</p> <p>Cairols: Stem cell therapy for critical limb ischemia with no real possibilities for revascularisation</p> <p>Iafrati Mark (therumo) Cellular/Bone marrow therapy for critical limb ischemia.</p> <p>Poletto Giorgio: Novel Hybrid technique in the femoro-popliteal revascularization (GORE)</p>	
16.00	<p>16.00 MEDTRONIC</p> <p>J.Graves : Medtronic's Future Innovations for Expanding Aortic Endovascular Therapy?</p>		
	16.20		
16.30	COFFEE BREAK	16:30	
16.40	<p>Session E (5 speakers)</p> <p>CATASTROPHIC EVENTS</p> <p>Black: Carotid aneurysm in post-partum VEDS patient ???</p> <p>Davidovich: Compelled surgery of thoracic aorta aneurysm through right thoracotomy ???</p> <p>Taurino: Aorto-iliac endograft infection and duodenal fistula in patient with previous urogynaecological surgery</p> <p>Pirrelli: chest-tube insertion into the left pulmonary artery</p>	ETHICON	
17.00		16:50	
		COFFEE BREAK	
17.30		<p>17.10 Session N (8 speakers)</p> <p>CRITICAL LIMB ISCHEMIA</p> <p>Fernandez e F.: Popliteal and peripheral aneurysms-from open to endovascular. Always? When not?</p> <p>Gueffic (COVIDIEN) Anti-Restenosis treatment in the</p> <p>Dorrucci Vittorio The Italian Propaten multicenter long term results in the treatment of critical limb ischaemia (GORE)</p> <p>Edoardo Galeazzi: Critical limb ischemia: is surgical approach in disappearance in the endovascular era</p> <p>F. Benedetto: Popliteal pedal bypass versus</p>	
18.00			

		<p>extreme endovascular therapy for CLI.</p> <p>F. Zaraca: Lower extremity traumatic injury at level II trauma center</p> <p>Lunz (jotec) branch iliaco</p>	
		18.10	
18.30			
19.00		<p>2030</p> <p>GALA DINNER (Villa Trissino-Marzotto)</p>
