Following on from the success of the Heart Live Course in recent years, we are proud to announce the dates and venue for Heart Live 2015.

This Live Case Course will include an array of cases to include acute and elective coronary interventions as well as non-coronary structural interventions. The focus will be on managing challenging cases and technical innovations in the field.

Invited faculty will include national and international experts and there will be audience interaction with the operators and experts, as well as a series of lectures from experts in the field.

Supported by Unrestricted
Educational Grants from:
