

Friday, Jan 15, 2016

1:00-5:30 pm	Mini Symposium 1 Cardiac CT - the Basics An Introductory Course	Mini Symposium 2 CT for TAVR/TAVI Data, Recommendations, and Case Demonstrations
5:30-6:00 pm	Coffee Break	
6:00-7:30 pm	Inaugural Session	
	<ul style="list-style-type: none"> - Welcome - “Top Ten” papers in Cardiac CT in the past year - Highlight Presentation: CONFIRM Registry: What have we learned? - Coronary CTA, Quality and Precision Medicine 	

Saturday, Jan 16, 2016

8:00-8:45 am	Satellite Opportunity	
9:00-10:45 am	“Basics with a Touch”	
	<ul style="list-style-type: none"> - Coronary calcium: Data acquisition and methods for quantification - Coronary CTA: Image acquisition and reconstruction in patients with and without arrhythmia - Recommendations for radiation dose reduction: how low can – and should – we go? - Epicardial Adipose Tissue: Imaging, Quantification, and relevance 	
10:45-11:15 am	Coffee Break	
11:15-1:00 pm	Coronary CTA	
	<ul style="list-style-type: none"> - The clinical role of coronary CTA - Functional assessment of coronary lesions (TAG, FFR, etc) – what do the data say? - Coronary CTA: Plaque quantification, characterization and prognostic value - Artefacts and other problems: Where coronary CTA went wrong (and why) 	
1:00-2:00 pm	Lunch Break (+Satellite Opportunity)	
2:00-3:15 pm	Valves, Myocardium and Perfusion	
	<ul style="list-style-type: none"> - Beyond Structure: Myocardial function, late enhancement, Dual Energy – Tips and Tricks - CT for valve disease: potential and clinical reality - Data Acquisition and Trial results in CT myocardial perfusion 	
3:15-4:00 pm	Moderated Poster Discussions	
4:00-4:15 pm	Coffee Break	
4:15-6:00 pm	Image-based Presentations: Coronary CTA and Beyond	
	<ul style="list-style-type: none"> - Coronary CTA: usual and unusual, stable and acute - Typical cases and findings in CT myocardial perfusion - What everyone should know about congenital heart disease - Test your knowledge: Are you a Cardiac CT Champion? 	
6:15-7:00 pm	Satellite opportunity.	

Sunday, Jan 17, 2016

8:00-8:45 am	Satellite Opportunity	
9:00-10:00 am	Original Science	
	<ul style="list-style-type: none"> - Abstract 1 - Abstract 2 - Abstract 3 - Best poster abstracts I saw at this meeting 	
10:00-11:15 am	CT and Intervention	
	<ul style="list-style-type: none"> - CTA pre and post PCI: A bit of data and lots of Images - CT for TAVR - CT for EP and Structural Heart Intervention 	
10:45-11:15 am	Coffee Break	
11:45-1:00 pm	CT for the Assessment of the Cardiac Patient	
	<ul style="list-style-type: none"> - Coronary CTA for Acute Chest Pain. Where are and where will we go? - Stable CAD and “Screening” – Role of Cardiac CT in Guidelines and Practice - “Top Ten” Clinical Applications for Cardiac CT - Farewell
