INVITATION

Paris, February, 4-5th 2016

AORTIC VALVE REPAIR: A STEP-BY-STEP APPROACH

Dear Colleagues,

We are pleased to invite you
to the **6th edition of Aortic
Valve Repair: a step by step
approach to be held in Paris,
France, on February 4-5, 2016.**

This two-day interactive session
focuses on decision making
for dystrophic aortic roots,
from echographic analysis to a
standardized and physiological
approach to aortic valve repair.
Our aim is to integrate state-
of-the-art into daily practice
as well as to challenge current
knowledge through lectures
from international faculty, live-
on-tape surgery, videos of
difficult cases, management
of intraoperative failures and
reoperations.

We look forward to share our
experiences and gain an overall
perspective on aortic valve
repair.

Emmanuel Lansac

8:00 WELCOME

8:30-13:00

Surgical anatomy of the aortic valve

Ruggiero de Paulis, Roma, Italy

Rationals of aortic annuloplasty for a standardized aortic valve repair

Emmanuel Lansac, Paris, France

Roadmap echocardiographic analysis for aortic valve repair

Alain Berrebi, Paris, France

Live on tape: Aortic root aneurysm tricuspid valve:

- Surgical technique step by step
- Live on Tape 1

10:15 Coffee break

Aortic insufficiency and dystrophic aneurysm: limits of guidelines and future criteria

Jean Louis Vanoverschelde, Brussels, Belgium

Effective height and geometric height to standardize cusp repair

Hans-Joachim Schäfers, Homburg, Germany

Live on tape: Aortic Root Aneurysm: bicuspid valve

- Surgical technique step by step
- Live on Tape 3

13:00-14:00 LUNCH

14:00-18:00

Remodeling + ring : advantages over Reimplantation ?

Olivier Bouchot, Dijon, France

Isolated aortic valve repair : technical options?

Joe Bavaria, Philadelphia, USA

Bicuspid aortic valve repair: Long term results and risk factor for failure

Gebrine El Khoury, Brussels, Belgium

Live on tape: Isolated aortic insufficiency : Tricuspid valve

- Surgical technique step by step
- Live on Tape 2

15:45 Coffee break

AVIATOR registry : why do we need it?

Hanneke Takkenberg, Rotterdam, and Frederiek de Heer, Utrecht, Netherlands

When the valve is not repairable in young adults: what should we do?

Ismail El Hamamsy, Montreal, Canada

Live on tape: Isolated aortic insufficiency bicuspid valve

- Surgical technique step by step
- Live on Tape 4

20:30 GROUP DINNER with faculty

8:00 WELCOME

8:30-13:00

Difficult cases, specific lesions: from echo analysis to surgical repair, Panel

Unicupid valve repair: all repairable?

Hans-Joachim Schäfers, Homburg, Germany

10:15 Coffee break

Post-repair evaluation of the aortic valve: When to reclamp?

Predictors for AI recurrence

Marie Christine Malergue, Paris, France

Clinical cases of Intra operative failures and reoperation

Panel

Aortic valve repair: how to start?

Igor Rudez, Zagreb, Croatia

13:00-14:00 LUNCH

14:00-18:00 WETLAB ON ANATOMICAL HEARTS

at the Ecole de Chirurgie de l'Assistance Publique Hôpitaux de Paris

Anatomy of the Aortic Root

Aortic Cusp Assessment including Measurement of Cusp Effective Height

Remodeling of the Aortic Root with Subvalvular External Aortic

Annuloplasty Technique

Subvalvular Aortic Annuloplasty using an open ring

DEPARTMENT OF CARDIAC PATHOLOGY

SURGEONS

Mathieu Debauchez, Patrice Dervanian, Emmanuel Lansac, Susanna Salvi, Konstantinos Zannis

CARDIOLOGISTS

Catherine Albo, Nicolas Amabile, Clément Bars, Saloua Berrada, Alain Berrebi, Anne Boisvieux-Lucas, Christophe Caussin, Hafida Chikr, Roger Chokron, Daniel Czitrom, Jean-Marc Darondel, Christelle Diakov, Alain Dibie, Luc Drieu, Anastasia Gounaropoulos, Philippe Goy, Pierre Jorrot, Takeshi Kondo, Oksana Kovalska, Marie-Christine Malergue, Zoheir Mami, Leila Mankoubi, Patrick Meimoun, Serban Mihaileanu, Ramine Monachipour, Yamina Mouhoub, Milena Noghin, Véronique Pasquali, François Philippe, Martin Rabot, François Raoux, Pierre Sabouret, Jean-Pierre Saal, Nima Saunier, Joël Sebbah, Soumaya Telili, Aurélie Veugeois.

INTENSIVE CARE

Kamel Bouabdallah, Antoine Ceddaha, Fehmi Kattou, Philippe de Lentdecker

RADIOLOGISTS

Nadia Bouzar, Aude Fregeville, Francoise Gelbert, Agnès Henon, Stéphane Lenoir, Robert Palau, Christine Rodriguez-Regent, Christiane Strauss
