

# CTO FUNDAMENTALS LIVE 2015

## Day One – Thursday 25<sup>th</sup> June

08:30 Registration and Coffee

### ANTEGRADE WIRING SESSION

**Chair: John Irving**

**Panel:**

*Focus: Antegrade wiring fundamentals / team building / safety  
“How to vote”:*

Deal with a resistant proximal cap Deal with resistant ISR  
Where & when to use a dual---lumen catheter

09:00	Introduction	Hany Eteiba
09:05	Course Introduction	James Spratt
09:10	What should a complex service look like?	Colm Hanratty
09:30	Team building challenges	Paul Kelly
09:50	<b>Lives Cases 1 and 2</b> Panel:	
11:20	Coffee	
11:35	Patient Selection: symptoms, ischaemia or viability?	Alan Bagnall
12:00	Has technology changed the threshold for AWE?	Masahisa Yamane
12:30	Lunch	

### RETROGRADE SESSION

**Chair: Colm Hanratty**

**Panel:**

*Focus: Case selection, collateral crossing, data  
“How to vote”:*

Manage a retrograde bifurcation  
Treat SVG disease / use an occluded SVG as a retrograde conduit  
Complete a challenging RCART

13:15	CTO Pathology	Michael Joner
13:35	Where do retrograde techniques sit in my practice?	Omer Gotketin
13:50	Collateral crossing techniques	Masahisa Yamane

14:10 **Live Cases 3 and 4**  
Panel:

15:40 Tea

16:00 Retrograde troubleshooting

Dimitri Karmapaliotis

16:20 **Live Cases 5 and 6**  
Panel:

17:50 Close

## Day Two – Friday 26<sup>th</sup> June

### ADR SESSION

**Chair: Margaret McEntegart**

**Panel:**

*Focus: Evidence, technical learning points, complications, ISR*  
*“How to” vote:*

Perform a “blind stick”

Use IVUS to define an ambiguous proximal CTO cap

Use the “Carlino” technique

08:50 Registry Updates: UK/Recharge

Will Wilson

09:10 The learning curve and how to master it

Tony de Martini

09:30 My five favourite mistakes

Jo Dens

09:50 CTO and Bifurcations – are there special considerations?

Yves Louvard

10:100 Coffee

10:30 **Live Cases 7 and 8**

Panel:

12:00 Lunch

### HYBRID CTO PCI SESSION

**Chair: Keith Oldroyd**

**Panel:**

*Focus: data, imaging, strategy*  
*“How to” vote:*

Deal with a collateral perforation

Avoid “donor” vessel ischaemia

Perform a “mini---star”

12:45 **Live Cases 9 and 10**

Panel:

14:15 CTO and the healing response: OCT insights

Jonathan Hill

14:35 What drives changes in strategy?

Bill Lombardi

14:55 My worst complications (how to deal with/avoid them)

Peter Ludman

15:15 Tea

15:30 **Live Cases 11 and 12**

Panel:

17:00 Close
