

ESGE 2012 CONGRESS in PARIS								
PRE-CONGRESS COURSES								
Tuesday, 11 September 2012								
	AUDITORIUM	Room 1 (Apolinaire 2, up to 90 pax)	Room 4 (Apolinaire 6, up to 64 pax)	Room 3 (Apolinaire 4, up to 63 pax)	Room 2 (Apolinaire 3, up to 32 pax)	Room 5 (Apolinaire 7, up to 64 pax)	Room 6 (capacity 40 + dry lab, therefore two rooms=Apolinaire 8 AND 9)	Room 7 (Apolinair 8, up to 109 pax)
TBA (from 10:00 to 17:00)		PC1: Endometriosis technical skills in endometriosis. Urinary tract. How to do it step by step. NEW	PC2: Improve your technique – step by step. Bowel endometriosis: how to do it! How to handle with complications! (2011 attendance was 40)	PC3: Deep endometriosis: surgical approach, technique, results. (2011 attendance was 44)	PC4: Ambulatory gynaecological surgery (2011 attendance was 19)	PC5: Instrumentation in Hysteroscopy NEW	PC6: ESGE Certification for technical Laparoscopic Skills (2011 attendance was 31)	PC7: How to write an article? NEW
18:00-19:30	Opening Ceremony							
19:30-20:20	Opening Cocktail (Exhibit Area)							
MAIN PROGRAM								
Wednesday, 12 September 2012								
	AUDITORIUM	ROOM A	ROOM B	ROOM C	ROOM D	ROOM E	NATIONAL SOCIETY MEETINGS ROOM	
08:45-10:00	32. Medico legal issues in gynecological endoscopy	1.Myoma enucleation: Comparison of techniques Chairpersons: I. Mazzon (Italy)/R. Sinha (India)	6.Pelvic floor: diagnosis and surgery 1	9.Continuing education in gynecological endoscopy	20.Infertility Surgery	FREE COMMUNICATIONS	NATIONAL SOCIETY MEETINGS	
08:45-09:00	Ethics and medico legal issues concerning endoscopic surgery - J. Bernardes	Laparoscopic myoma enucleation: technique and limits - J. Ferro	SUI new techniques - P. Trivedi	Acquiring surgical skills in MIS - E. Hiemstra	Endometrial polyps and ART: which approach during stimulation - L. Vicente	7 MINUTES (5 for talk + 2 for questions) EACH = 10 COMMUNICATIONS		
09:00-09:15	What is the role of counselling on recovery and RTW after various gynaecological surgical procedures: outcome of an RCT in 200 patients - T. Vonk Noordegraaf	Myomectomy: when and how to perform - F. Faustino	Neuropelveology - M. Possover	Laparoscopic certification: the European model - R. Campo	Need classification adenomyosis - S. Gordts			
09:15-09:30	Potential benefits for the patients should be weighed against the required efforts of the surgeon - ??	The approach to large intra cavitary fibroids - M. Goldenberg	Surgical interventions after transvaginal Prolift mesh repair - L. Landsheere	E-Knot: the Home laparoscopic trainer - E. Faller	Trophy study results - T. El Thouky			
09:30-09:45	Laparoscopy in the obese: how to overcome technical difficulties - J.A. Shepherd	Dynamic changes and predictive value of myometrial free margin during resectoscopic myomectomy - P. Casadio	Uterus preserving prolapse operations - A. Cutner	Simulation in ultrasound education - ?	Laparoscopic tubal surgery in the era of ART - A. Castelli/A. Sozzano			
09:45-10:00	Patient safety as a condition sine qua non in MIS - S. Rodrigues	Laparoscopic myoma enucleation: technique and limits - G. Tchartchian (tbd - E ZUPI)	Anatomy of the pelvic floor - I. Alkatout	Training and certification in ultrasound in the infertile patient a model - G. Nargund	First results of the Self Operated Endovaginal Telemonitoring project in ART patients - J. Gerris			
10:00-10:30	BREAK							
10:30-12:00	LIVE SURGERY IRCAD Strasbourg	no parallel sessions / or 12 Free Communications	no parallel sessions / or 12 Free Communications	no parallel sessions / or 12 Free Communications	no parallel sessions / or 12 Free Communications	no parallel sessions / or 12 Free Communications		
12:00-13:00	BREAK/SPONSORED SYMPOSIUM	BREAK/SPONSORED SYMPOSIUM	BREAK/SPONSORED SYMPOSIUM	BREAK/SPONSORED SYMPOSIUM	BREAK	BREAK	BREAK	
13:00-14:00	LIVE SURGERY IRCAD Strasbourg	no parallel sessions for the first hour of live surgery/ or 8 free Communications	no parallel sessions for the first hour of live surgery/ or 8 free Communications	no parallel sessions for the first hour of live surgery/ or 8 free Communications	no parallel sessions for the first hour of live surgery/ or 8 free Communications	no parallel sessions for the first hour of live surgery/ or 8 free Communications	NATIONAL SOCIETY MEETINGS	
14:00-15:00		8.Pelvic floor: diagnosis and surgery 3	37.3D and 4D ultrasound 1	28.Instruments and new techniques 1	40.Positive and negative effects in deep endometriosis	10.Training and teaching methods		
14:00-14:15		Sacrocolpopexy in the elderly patient - J. Deprest	Correlation between clinical evaluation by POPQ and 3D US for genital prolapse - G. Legendre/H. Fernandez	Basic principles of electric energy in endoscopic surgery: new energy sources - P. Puttemans	no titles yet	Endotrainers and models for laparoscopic training - A. Da Silva Fradique		
14:15-14:30		Laparoscopic treatment of pelvic prolapse : What I do - A. Wattiez	3D US for the follow up surgical treatment by mesh for genital prolapse - J. M. Levaillant	Supracervical hysterectomy experience after 8000 cases - B. Bojahr	no titles yet	Training in robot surgery - H. Schreuder		
14:30-14:45		Laparoscopic alternatives to sacrocolpopexy: Which ,why, when? - J.B. Dubuisson	3D volume off-line analysis compared with real-time ultrasound for assessing adnexal masses - S. Guerreiro	Closing the vaginal vault: V-lock, quick and dirty? - F. Ten Cate	no titles yet	Laparoscopic suturing - R. Sankpal		
14:45-15:00		To use a Robot or not? - A. Setubal	Contribution of 3D US prior to operative hysteroscopy - ??	The consequences of ovarian cyst rupture at laparoscopic surgery - S. Vyas	no titles yet	MIGS fellowships in USA: application process - S. Cohen		
15:00-15:30	BREAK							
15:30-16:00	KEY-NOTE LECTURE 1							
16:00-17:30	SPONSORED SYMPOSIUM	SPONSORED SYMPOSIUM	SPONSORED SYMPOSIUM	SPONSORED SYMPOSIUM	FREE COMMUNICATIONS 7 MINUTES (5 for talk + 2 for questions) EACH = 12 COMMUNICATIONS	FREE COMMUNICATIONS 7 MINUTES (5 for talk + 2 for questions) EACH = 12 COMMUNICATIONS		

Thursday, 13 September 2012							
	AUDITORIUM	ROOM A	ROOM B	ROOM C	ROOM D	ROOM E	NATIONAL SOCIETY MEETINGS ROOM
08:30-10:00	Live Surgery Bicetre Paris	no parallel sessions for the first hour of live surgery	no parallel sessions for the first hour of live surgery	no parallel sessions for the first hour of live surgery	no parallel sessions for the first hour of live surgery	no parallel sessions for the first hour of live surgery	
10:00-10:30	BREAK						
10:30-12:00	Live Surgery Bicetre Paris	22.Hysteroscopy diagnosis and treatment 1	27. Treatment of abnormal uterine bleeding	35.Imaging and data collection	30.Uterine and lower tract congenital malformations 1	2.Hysterectomy	NATIONAL SOCIETY MEETINGS
10:30-10:45		Hysteroscopy in perimenopausal women- A. Ganatra	Novasure vs thermablate: what's the best choice in ambulant setting ? - J. Penninx	Reproducibility of hysteroscopic images and validity of hysteroscopy - M. Martinho	Does another classification system of uterine congenital anomalies is necessary? - G. Grimbizis	Supracervical hysterectomy: pro and contra - Wallwiener	
10:45-11:00		It is really necessary to perform hysteroscopy to all infertile patients? The impact of the subtle lesions - R. Molinas	Mirena vs ablation: whats the preference - M. Herman	The additional value of 3D to 2D sonohysterography in the assessment of intrauterine disorders - L. Nieuwenhuizen	Tecniques for creation of neovagina - L. Adamyan	What to learn of ureter injuries during laparoscopic hysterectomy - P. Janssen	
11:00-11:15		Impact of myoma in infertile patients and treatement - J.L. Mergui	Optimal diagnostic testing in heavy menstrual bleeding - J. Clark	Is there a role for elastography in assessment of uterine fibroids - B. Stoelinga	New parameters on the outcome of hysteroscopy metroplasty - C. De Angelis	Uterine artery ligation in TLH - R. Sinha	
11:15-11:30		The value of hystroscopy in the management of infertility - H. Hassa	Second generation endometrial ablation techniques for heavy menstrual bleeding: a network meta-analysis - J.P. Daniels	Narrow band imaging in hysteroscopy - E. Cicinelli	Care pathways in the management of vaginal agenesis - S. Creighton	How to interpretate the learning curve in TLH - D. Twijnstra	
11:30-11:45		Management of ashermann syndrome: the Beijing experience - E. Xia	Prediction of pain during outpatient endometrial ablation - M. Connor	Clinical significance of vascularisation indices - ??	available space	Laparoscopic management of ureteral lesions in gynaecological surgery - C. De Cicco	
11:45-12:00		available space	available space	available space	available space	Should we always do the salpingectomy in patients that underwent an hysterectomy? - F. Zulli	
12:00-12:30	BREAK						
12:30-13:30	ESGE General Assembly	BREAK					
13:30 - 15:00	4.Open interactive consensus session with experts videos and cases	24.Adenomiosis	21.Adhesion prevention and formation	18.Single port laparoscopy: A new way for surgery	FREE COMMUNICATIONS	13.Nodal staging tailored to the disease risk profile	ISFT-RS Meeting: Endoscopic techniques in tubal surgery
13:30-13:45	Uterine and Myometrial pathologies terminology consensus - M. Canis	Adenomyosis and endometriosis in infertile patients - A. Audebert	Adhesion formation following laparoscopic myomectomy - G. Pistofidis	Advantages and limitations of single port: a series of more than 150 procedures - B. Holthaus	7 MINUTES (5 for talk + 2 for questions) EACH = 12 COMMUNICATIONS	Sentinel node in early cervical cancer: state of the art - ?	Key note lecture: V Gomel "Tubal surgery is still an option"
13:45-14:00	What terminology do we use for myoma location? - A. Watrelot	Adenomyosis:operative cyto-reduction - G. Grimbizis	Adhesion prevention - B. Pal	Orifice assisted small incision surgery: limitations and advantages - J. Einarsson		Sentinel node in low and intermediate risk endometrial cancer: the SentiEndo experience - M. Ballester	Laparoscopic salpingoneostomy - V. Gomel
14:00-14:15	What terminology we should use for adenomyosis e.g. diffuse, focal and adenomyoma - M. Gergolet	Surgical treatment of adenomyosis in infertile patients - J. Hamou	Adhesion prevention: insight information and applicability - P. Koninckx	Lomboaortic extraperitoneal lymphadenectomy: single port approach - L. Mereu		Rationale for limphnode staging in high risk endometrial cancer - F. Kridelka	Laparoscopic fimbrioplasty - A. Watrelot
14:15-14:30	Imaging terminology for Mullerian anomalies - A. Di Spiezio Sardo	Hysteroscopy in diagnostic and treatment of adenomyosis - S. Gordts	Update in adhesions prevention - H. Verhoeven	SPAL in benign pathology - S. Angioni		The role of laparoscopy in ovarian cancer - A. Fagotti	tubal anastomosis - S. Gordts
14:30-14:45	available space	Ultrasound and MRI in diagnostic of adenomyosis - G. Kunz	Retained product of conception: can we decrease the intrauterine adhesion rate? - N. Smorgick	How to learn tissue handling in MIS - T. Horeman		available space	Laparoscopic adhesiolysis - H. Verhoeven
14:45-15:00	available space	available space	available space	available space		available space	3D Hycosy first line of assessment for fallopian tube? - K. Ojha (Londres)
15:00-15:30	BREAK	BREAK	BREAK	BREAK	BREAK	BREAK	BREAK
15:30- 17:00	5.Laparoscopic hysterectomy the European experience	25. Hysteroscopy innovation	7.Pelvic floor: diagnosis and surgery 2	17.New advances in gynecologic oncology	29.Instruments and new techniques 2 Chairperson: V. Gomel (Canada)	33.Complications in laparoscopy and endoscopy	ISFT-RS Meeting: Reproductive Surgery in the Era of Art
15:30-15:45	Laparoscopic hysterectomy: technique and outcomes - F. Osorio	Bipolar resectoscope versus integrated bigatti shaver - G. Bigatti	Laparoscopic pectopexy - G. Noè	Transvaginal Laparodcopy for early diagnosis of ovarian cancer - V. Tanos	T-Lift. New way of laparoscopic exposure - S. Maia	Complications: learning from the mistakes - R. Modi	Surgical aspects of recurrent implantation failurE - TC Li
15:45-16:00	How to make the colpotomy at TLH easier - J. Rhemrev	Adiana sterile or not ? - A.L. Coolen	Update in laparoscopic sacrocolpopexy - R. Borchorischvili	Long-term follow-up after laparoscopic management of endometrial cancer - B. Rabishchong	Monopolar and bipolar currents in hysteroscopy surgery - E. Tiso	Laparoscopy and hysteroscopy in emergency situations - Y. Kaufman	Tubal factor in unexplained infertility: a reappraisal - A. Watrelot
16:00-16:15	Can all hysterectomies be done laparoscopically: outcome of five years experience in an unselected populations - D. Byrne	Ambulatory hysteroscopic surgery " The Genk experience" - G. Mestdagh	The simple sacrocolpopexy - A. Vasquez	Laparoscopic Wertheim or sentinel node - J. Jimenez	New developpement in hysteroscopic sterilization - M. Gannon	Characterising acute gynaecological pathology with ultrasound - L. Valentin	Operative TVE - S. Gordts
16:15-16:30	Prevention of vaginal vault descent after TLH, a multimodal concept - T. Schollmeyer	Possibilities of hysteroscopic surgery without anaesthesia - M. Segura	Laparoscopic vs vaginal meshes in vault prolapses: select the right approach for different clinical situations - A. Lourenco	Fast track intraoperative sentinel node detection - L. Gilbert	OR safety world innovative - P. Wetter	Laparoscopy in the obese: how to overcame technical difficulties - J.A. Shepherd	3D Hycosy first line of assessment for fallopian tube? - K. Ojha
16:30-16:45	Potential benefits for the patients should be weighed against the required efforts of the surgeon - B. Nieboer	Focal endometrial ablation for intermenstrual spottingfor cesarean scar defect - S. Cohen	Laparoscopic fascial repair without mesh: always up-to-date? - CY Liu	Laparoscopy in oncology - I. Meinhold-Heerlein	available space	available space	
20:00 - 23:00	Presidential Dinner						

Friday, 14 September 2012							
	AUDITORIUM	ROOM A	ROOM B	ROOM C	ROOM D	ROOM E	NATIONAL SOCIETY MEETINGS ROOM
08:30-10:00	Live Surgery Clermont	no parallel sessions	no parallel sessions	no parallel sessions	no parallel sessions	no parallel sessions	NATIONAL SOCIETY MEETINGS
08:30-09:00					no parallel sessions	no parallel sessions	
09:00-09:15					Nurses Course 1	Nurses Course 2	
09:15-09:30							
09:30-09:45							
09:45-10:00							
10:00-10:30	BREAK						
10:30-12:00	Live Surgery Clermont	11.Deep endometriosis:surgery and complications	38.3D and 4D ultrasound 2	14.Organ function preservation:how far should we go	31. Uterine and lower tract congenital malformations 2	Nurses Course (joint)	NATIONAL SOCIETY MEETINGS
10:30-10:45		Endometriosis and lymphatic spread - S. Rimbach	no titles yet	Nerve sparing radical hysterectomy: rationale and standardization of the technique - A. Maggioni	Diagnostic and treatment of septums - A. Perino		
10:45-11:00		Endometriosis and cancer is it a real treat ? - M. Pansky	no titles yet	New insights in ovarian carcinogenesis: which impact on our surgical practice - E. Leblanc	Arcuate uterus : impact and treatment in infertile patients - D. De Angelis		
11:00-11:15		Bowel dysfunction before and after surgery - H.Roman	no titles yet	Fertility preservation and endometrial cancer - L. Chiva	Hysteroscopic metroplasty under trans rectal 3D US guidance - K. Mustapha		
11:15-11:30		Ovarian dysfunction and endometriosis - A. Audebert	no titles yet	Early cervical cancer: modern approach to preserve fertility - P. Morice	available space		
11:30-11:45		Team approach to treatment of endometriosis - Smith	no titles yet	Fertility sparing treatment of atypical endometrial lesions - G. Bifulco	available space		
11:45-12:00		available space	no titles yet	available space	available space		
12:00-13:00		BREAK					
13:00-13:30	KEYNOTE LECTURE						
13:30 - 14:30	3.Endoscopy in the world of Gynecology	12.Endometriosis miscellaneous	15.Laparoscopic lymphadenectomy: new indications	36.Future perspectives in US guided interventions	39.Day surgery in endoscopy	FREE COMMUNICATIONS	NATIONAL SOCIETY MEETINGS
13:30-13:45	Overview of endoscopic surgery in Portugal - J.L. Silva Carvalho	Urinary tract dysfunction following extensive endometriosis surgy - A. Vashisht	Laparoscopic sentinel lymphadenectomy in endometrium and cervical cancer - S. Brucker	Ultrasound guided myolysis (Endocavity probe with therapeutic potential) - M. Bongers	no titles yet	7 MINUTES (5 for talk + 2 for questions) EACH = 12 COMMUNICATIONS	
13:45-14:00	Fast track surgery and laparoscopy in Iceland - J. Gudmundsson	Endometriosis associated infertility: a combined medico surgical approach - E. Saridogan	Respective advantages and inconvenients of trans and retroperitoneal way for lymphadenectomy - C.Y. Akladios	HIFU for Myomas - E. Stuart	no titles yet		
14:00-14:15	Conversion rate as indicator for best practice in MIS - M. Blikkendaal	Fertility in endometriosis before and after surgery - M. Ribic-Puceli	Indications and limits of aortic dissection in endometrial cancer patients - K. Jardon	Ultrasound guided Treatment of Uterine disorders (UTU) - H.A.M. Brolmann	no titles yet		
14:15-14:30	Laparoscopy during pregnancy - Y. Hamani	Identifying and appropriately treating adolescent endometriosis - A. Moors	New tools for identification of sentinel nodes - A. Van der Zee	Standardisation of 3D Power Doppler - J.L. Alcazar	no titles yet		
14:30-14:45	Indications for laparoscopy in children and adolescents - S. Creighton	Ablative surgery for ovarian endometriosis - Sy. Gordts	Paraaortic lymphadenectomy - T. Perez Medina	Stic for High Definition Doppler and vascular indices - M. Kudla	no titles yet		
14:45- 15:00	BREAK						
15:00-16:00	The last Auditorium session is usually not used	19. Endometriosis and Robotics	23.Hysteroscopy diagnosis and treatment 2	16.Endometrial or ovarian cancer: endoscopic applications	26.Ambulatory surgery and hysteroscopy	34.Niches: imaging aspects; related symptoms and therapies	NATIONAL SOCIETY MEETINGS
15:00-15:15		Robotic surgery in complex endometriosis - M. Nisolle	Impact of intramural myomas on reproduction - S. Gordts	Endometrial thickness measurement for detecting endometrial cancer in women with postmenopausal bleeding - E. Epstein	Hysteroscopic surgery: do we get what we want H. Van Dongen	Relation niches and gynaecological symptoms: Systematic review - A. Bij de vaate	
15:15-15:30		Robotic surgical treatment of Deep Infiltrating Endometriosis – a collaborative international retrospective view - P. Barton	Trans cervical vaporisation. Myoma and endometrial resection - M. Abou Dakn	Early detection of endometrial cancer high risk patients - J. E. Dotto	Office operative hysteroscopy: potentiality and limitations in clinical practice - L. Nappi	Results of the SCAR study: prospective cohort study evaluation of niches in relation to gynaecological symptoms - Van der Voet	
15:30-15:45		Robot assisted Wetheim versus open Wertheim for cervical cancer - R. Bekker	Hysteroscopic myomectomy: an overview - A. Magos	Hysteroscopic treatment of endometrial cancer and precursors - L. Mencaglia	Minimal anesthesia in transcervical surgery: how far can we go? - D. Toth	How to measure a niche and inter and intra-observer variation - J. Huirne	
15:45-16:00		Contribution of Robotic Surgery to Gynecologic Oncology - F. Goffin	Rules of modern hysteroscopy - O. Garbin	Laparoscopic management of borderline ovarian tumors - G. Pados	ECLIPSE Trial: Mirena IUS vs other medical treatment options for heavy menstrual bleeding: a RCT - J. Gupta	Measurement of niches in pregnancy - O. Naji	
16:00-16:15		The impact of robotics on a minimally invasive approach to hysterectomy in the United States: is the tipping point? - C. Miller	New techniques for the treatment of uterine fibroids - H. Fernandez	Ovarian cancer screening in the UK - N. Amso	Office setting for diagnostic hysteroscopy - S. Taylor	Laparoscopic niche reconstruction - Witmer	
16:15 - 16:45	Closing Ceremony
