

EDITORIAL

On behalf of the Organising Committee, it is a great pleasure to welcome you to the first Pancreatic Cancer Symposium, held in Marseille, under the auspices of AFRCP (French Association for Pancreatic Cancer Research). This meeting will be a new opportunity for international clinicians and researchers focused on pancreatic cancer research to review advances in the understanding of this pathology, present and discuss their research.

Four main sessions will be organized to highlight the recent discoveries in the fields of pancreatic cancer microenvironment, metabolism, cell signaling and importantly pre-clinical and clinical studies. For this first edition of the symposium we have organized an outstanding program with an opening keynote lecture to welcome participants on October 28th in the late afternoon, followed by additional keynotes and talks given by worldwide recognized experts in their respective fields, during the all-day, two day meeting (October 29-30th).

In addition to high impact abstracts selected for oral presentations, interactive poster sessions will be organized to encourage international translational collaborations. We look forward to welcoming you for an exceptional meeting to be held in the prestigious location of Palais du Pharo in Marseille.

Organising Committee

CALL FOR ABSTRACT

Details and submission on: www.pcs-2015.com
Deadline: July 15th, 2015

You are welcome to submit an abstract to present your experience and share your expertise.

Both AFRCP and non-AFRCP members are allowed to submit abstracts. Abstracts should be prepared as following:

- An English language abstract must be in the terminology familiar to specialists.
- The text should be succinct and substantive. Beside presenter's full names and affiliations, the abstract must include: Purpose, Methods, Results, Conclusion, and Significance.
- Submit a document no longer than 500 words.

After consideration and selection by the scientific board, you will be notified if your abstract is considered for poster session or for both poster session and oral communication

Please select the session in which you consider your abstract would be the most relevant. Nevertheless, scientific board retains the right to decide which session is the most appropriate.

- Session I "Microenvironment" (oral presentation - Oct-29-, 2015)
- Session II "Metabolism" (oral presentation - Oct-29-, 2015)
- Session III "Pre-clinical study" (oral presentation - Oct-30-, 2015)
- Session IV "Cell signaling" (oral presentation - Oct-30-, 2015)
