

		ROOM A Plenary	ROOM B (3rd Floor) Sympo	ROOM C (3rd Floor) Sympo	ROOM D (1st Floor) Sympo	ROOM E "Amici" Core Curriculum					
		Wednesday, October 2	Wednesday, October 2	Wednesday, October 2	Wednesday, October 2	Wednesday, October 2					
16.00	16.15	REGISTRATION									
16.15	16.30	Opening of the Exhibition									
16.30	16.45										
16.45	17.00										
17.00	17.15										
17.15	17.30										
17.30	17.45										
17.45	18.00										
18.00	18.15						OPENING CEREMONY S. Maggi (IT), JP. Michel (CH) - official welcome				
18.15	18.30	An outstanding technical outcome for geriatric patients:Trans-Catheter Aortic Valve Implantation (TAVI) A. Cribier (FR)									
18.30	18.45										
18.45	19.00										
19.00	19.15										
19.15	19.30										
19.30	19.45										
19.45	20.00										
20.00	20.15						Welcome Reception Cocktail				
20.15	20.30										
20.30	20.45										
20.45	21.00										
21.00	21.15										
21.15	21.30										
21.30											
							Thursday, October 3	Thursday, October 3	Thursday, October 3	Thursday, October 3	Thursday, October 3
9.00	9.15	IOF- ESCEO - Outcomes of fragility fractures Chairpersons: H. Blain (FR), S. Maggi (IT) The concept of orthogeriatric unit A. Kurth (DE) Long term consequences of fragility fractures G. Isaia (IT) Nutritional approach for improving long term outcomes of fragility fractures R. Rizzoli (CH) The osteoporotic pathway: pharmacological treatments JY. Reginster (BE)	Outcomes of the “SHARE” European Community study Chairpersons: K. Andersen-Ranberg (DK) , E. Topinkova (CZ) SHARE – a longitudinal and cross-disciplinary European survey on ageing: Introduction K. Andersen-Ranberg (DK) Predicting the consequences of developing hearing impairment over time. A longitudinal analysis on SHARE data S. Vestergaard, K. Andersen-Ranberg (DK) Patterns of general health, diseases and use of medicine among older Europeans. Cross-sectional analyses of more than 50,000 older Europeans M. Lindholm Eriksen, J. Ryg, K. Andersen-Ranberg (DK) Physical biomarkers predict falls. A longitudinal analysis on SHARE data M. Tahir, S. Vestergaard, J. Ryg Early life conditions, retirement and cognitive decline. A longitudinal analysis on SHARE data G. Weber, C. dal Bianco, M. Celidoni	Dementia screening and the elderly migrant: obstacles and solutions in an European perspective Chairpersons: P. Mecocci (IT) Memory Clinics in Europe and diagnosing dementia in elderly migrants at the memory clinic: obstacles and possible solutions M. Goudsmit (NL), J. Parlevliet (NL) Diagnosing dementia in Turkey: facts about incidence and prevalence, screening and socio-cultural factors P?nar ??çen The North European Cross-Cultural Neuropsychological Test Battery (CNTB) T. Rune Nielsen (DK) Cross-Cultural Dementia screen (CCD): validation of a new test for dementia screening in elderly migrants and a short demonstration of the CDD J. Parlevliet (NL), Ö. Uysal (NL)	Free Communications Chairpersons: R.J. Schulz (DE)	Methodological issues in ageing studies Chairpersons: S. Volpato (IT) , G. Ruppe (AT) Interpretation of study results: focus on 95% confidence interval and P value G. Tripepi (IT) RCT's in the elderly: from extrapolation to investigation F. Mattace-Raso (NL) What makes a good study? K.J. Jager (NL)					
9.15	9.30										
9.30	9.45										
9.45	10.00										
10.00	10.15										
10.15	10.30										
10.30	10.45										
10.45	11.00										
11.00	11.15										
11.15	11.30										
11.30	11.45	Outcomes of Diabetes Management in older patients Chairpersons: N. Holand (NO), G. Paolisso (IT) Diabetes in the elderly in special settings: the Nursing Home L. Rodriguez Manas (ES) Risk of hypoglycaemia vs of long term complications: which is the more relevant? A. Zeyfang (DE) Evidence Based Medicine for the therapeutic approach in elderly diabetics G. Paolisso (IT)	Role of Family in Care Older People in Asian Countries Chairpersons: A. Ekdhal (SE) , G. Vendemiale (IT) Family care for frail older adults in Japan H. Arai (JP) Roles of family care for older people in Taiwan C.-K- Liang (TW) The role of family in providing care to elderly Malaysians P.J.H. Poi (MY)	Innovative approaches for better outcomes in geriatric cardiology Chairpersons: B. Szekacs (HU) Ageism in geriatric cardiology: dimension and clinical impact N. Marchionni (IT) Additional diagnostic and prognostic value of copeptin ultrasensitive for diagnosis of non-ST elevation myocardial infarction in older patients presenting to the emergency department Ph. Bahrmann (DE) Bone markers predict cardiovascular events in chronic kidney disease G. Wirnsberger (AT) Update on Antithrombotic Therapy : new anticoagulants O. Hanon (FR)	Prevention is Better than Cure Also in Geriatric Medicine Chairpersons: T. Strandberg (FI), G. Ceda (IT) Prevention of heart failure and cardiac death T.Strandberg (FI) Prevention of falls and fractures A. Hylen Ranhoff (NO) Prevention of frailty and disability G. Zuliani (IT) Prevention of loneliness and social isolation K. Pitkälä (FI)	Translational research on Osteo-Arthritis Charipersons: Dorly Deeg (NL) , S. Zambon (IT) European Project on Osteoarthritis: design of a pre-harmonized cohort study of the personal and societal burden of osteoarthritis in an older European population S. Ven der Pas (NL) Physical activity levels among older adults with clinical hip and knee osteoarthritis in 6 European countries F. Herbolzheimer (DE) Self-reported and clinical OA are associated with low physical performance across six countries: the European Project on OSteoarthrities (EPOSA) M. Edwards (GB) Health services utilisation in the older population with and without osteoarthritis across six European countries A. Otero (SP)					
11.45	12.00										
12.00	12.15										
12.15	12.30										
12.30	12.45										
12.45	13.00										
13.00	13.15										
13.15	13.30										
Coffee break											
POSTER ROUNDS											
Determinants and detection of PRE FRAILITY - Introduced by JP. Michel (CH)
