II. International Europa-Park Symposium on Cardiac Arrhythmias

Welcome Address

Dear Colleagues and Friends,

It is my great pleasure to invite you to attend the “2nd International Europa-Park Symposium on Cardiac Arrhythmias” which will be held on the 28th of June, 2014, in Rust, Germany.

The Symposium was initiated in 2012 in response to the remarkable progress that has been made in the management of cardiac arrhythmias, over the past number of years. The second edition of this symposium will focus on many important areas of cardiac arrhythmias: atrial fibrillation, ventricular arrhythmias, inherited rhythm disorders, device therapy, cardiac resynchronisation therapy and new percutaneous treatment modalities that could facilitate the therapy of cardiac arrhythmias.

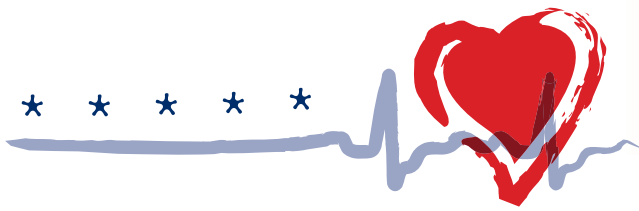

An outstanding Faculty, consisting of distinguished cardiologists and speakers, will provide attendees with comprehensive and practical lectures in a collegial atmosphere.

The Symposium will be held at the Hotel Colosseo in Rust, which is set in a delightful and culturally rich region, near the borders of Germany, France and Switzerland.

Looking forward to seeing you in Rust!

Sincerely,

Prof. Juraj Melichercik, MD, PhD
