

### Course Format

The Course in Shoulder Surgery is one of the «Classics» at Balgrist University Hospital. One day is dedicated to open shoulder surgery (focussing on prosthetic reconstruction) and one to arthroscopic shoulder surgery (focussing on instability and rotator cuff).

The techniques are presented and discussed during live broadcasts from the OR. The participants can then practice in small workshop groups with tutors.

### Course Language

Main language: English

Workshops taught also in German, Italian and French

### Course Fee

CHF 1200 (approx. EUR 1000) including course dinner, no accommodation

### Workshops

First day: cadaver shoulders / second day: shoulder models

### Registration/Information

Karin Wettstein, phone: +41 44 386 38 33, fax: +41 44 386 30 09
