INVITATION

Dear colleagues and friends,

in 2016 the Berlin Charité Shoulder Course will celebrate its 10th anniversary. Together with our international scientific committee we will provide a program of high scientific quality. This year the course will focus mainly on arthroscopic reconstructive procedures and will combine theoretical and practical elements providing plenty of space for exciting dialogs and discussions to get a detailed overview of the current controversies in shoulder surgery.

Video demonstrations, live surgeries and mini battles with international and national experts will complement the scientific lectures. Practical skills can be improved and enhanced in ultrasound and cadaver workshops.

The course will take place in one of the most attractive locations in the heart of Berlin, between Kurfuerstendamm and Potsdamer Platz. The InterContinental reflects the dynamics of the German capital and unites tradition and modernity. Its outstanding meeting facilities guarantee professionalism in a familial atmosphere.

We are looking forward to welcome you to the Berlin International Shoulder Course from April 07-09, 2016!

Prof. Markus Scheibel

PROGRAM

Scientific Lectures, Invited Special Guest Lectures, Mini Battles, Video Demonstrations, Live Surgeries, Lunch Symposia, Ultrasound Workshops, Cadaver Workshops
