

Draft program

AOTrauma Video Seminar—LCP Technique

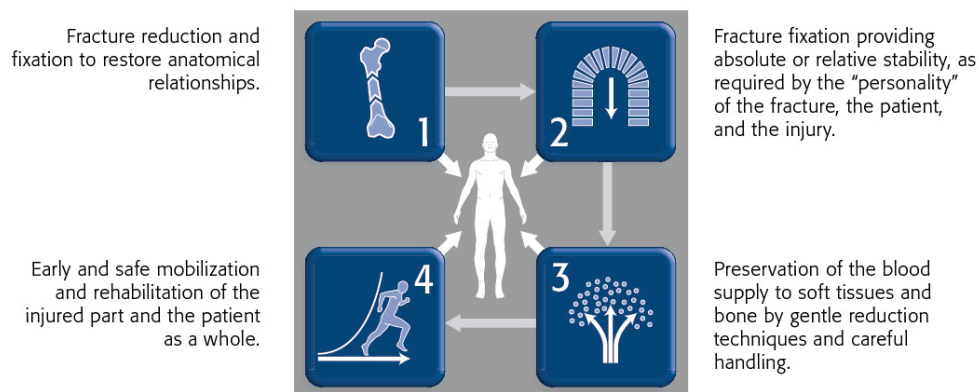

November, 13–14, 2015 Siófok, Hungary

Value statement

AOTrauma is committed to improve patient care outcomes through the highest quality education. We strive to combine the right knowledge and surgical skills that empower the orthopedic and trauma surgeons to put theory into practice and to improve fracture management for the benefit of the patient.

The AO principles of fracture management

Dear AOTrauma course participant,

We are honored to welcome you to the AOTrauma Masters Video Seminar—LCP Technique. We hope you will enjoy your course and the entire experience.

What is AOTrauma? We are a "clinical division"—a community for trauma and orthopedics within the AO Foundation. As a clinical division we aim to integrate and align applied and clinical research, education, and community development functions into one direction—AOTrauma for the benefit of our members, stakeholders, and patients.

How can AOTrauma benefit you? By working as a single team we focus and leverage our resources, expertise, and skills to create and deliver new and greater value to our members.

What does this mean in education? AOTrauma is committed to providing you the best possible educational experience by continuously embracing and introducing new educational techniques to help you learn and more effectively implement your knowledge for the benefit of your patients.

Why join AOTrauma? Joining AOTrauma means you are part of the trauma and orthopedic community within the AO. AOTrauma will help you develop lifelong friendships and relationships. We will help you access our "knowledge network" and take part in new opportunities that advance trauma care.

Yours sincerely,

Kodi Kojima
Chairperson AOTrauma
Education Commission

John (Jack) Wilber
Chairperson AOTrauma
International Board

PS: Your experiences with us, over the next few days, will result in the realization of new and meaningful knowledge, skills, and understanding that we hope will translate into improved patient care.

A szeminárium célja

A 2015. évi siófoki AO video szeminárium célja, hogy ötletet adjunk a nehéz helyzetek megoldásához, illetve a napi rutin feladatok könnyebb kivitelezéséhez. A hallgatók video felvételtől bemutatott műtéti lépéseket sajátíthatnak el, amiket később hasznosítanak a mindennapokban.

Célközönség

Olyan fiatal szakorvosok, akik az elméleti alapokkal tisztában vannak és szívesen vesznek gyakorlati tanácsokat kollégáiktól.

A kurzus végére a hallgatóság

Képes lesz alkalmazni a kurzuson bemutatott műtéti lépéseket az also végtagon végzett szögstabil lemezes osteosynthesisek kapcsán.

Leírás

Az előadásokat 5 szekció keretében tartjuk. 10 perces prezentáció után 5 perc megbeszélés következik. Célunk a hallgatóság aktív bevonása a megbeszélésekbe, hogy ezzel mélyítsük az előadásokon megszerzett tudást.

Goal of the seminar

The goal of Siófok AO Video Seminar in 2015 is to share and discuss ideas about LCP technique applied for the fractures of the lower extremity. The audience will find tricks to solve difficult cases and tips to make the everyday procedures even easier.

Target participants

Traumatology specialists, who possess the knowledge but still able to accept ideas, and tricks from colleagues.

Seminar objectives

After the seminar, participants should be able to perform the surgical procedure steps presented on videos about angular stable plate systems used for fracture fixation on the lower extremity.

Course description

The presentations will be presented in 5 sessions. The presentations will be 10 minutes long, and after each presentation we will have 5 minutes for discussion. The participants will be involved in the discussions as much as possible, for deepening the knowledge gained by the presentations.

Elnöki köszöntő

Kedves Kollégák!

Idén ötödik alkalommal rendezzük meg a siófoki AO Video Szemináriumot. A korábbi évek nagy sikerű rendezvényeinek tematikáját folytatva a femur distalis végének, a lábszárnak és a boka régiójának törésével fogunk foglalkozni. Az ez évi szemináriumon kissé eltérve a korábbi évektől egy moziban fogjuk meghallgatni az előadásokat. A videók nagyszerű betekintést engednek az előadó munkájába, elképzeléseibe, lehetőséget adnak a kis trükkök elleséséhez. Ezt szeretnénk segíteni azzal, hogy mozi minőségben fogjuk bemutatni az elkészített kis filmeket. Biztos vagyok benne, hogy mindenki talál majd olyat az előadásokban, ami megragadja a fantáziáját, és érdekesnek tartja arra, hogy hazavigye magával.

Üdvözlettel,

Dr. Lenkei Balázs

Adjunktus

B-A-Z Megyei Kórház, Traumatológia

Welcome words

Dear Colleagues,

In 2015 we will have the fifth AO Trauma Video Seminar in Siófok. According to the idea of the last year seminar, this year the main topic will be the fractures of the distal femur, the proximal tibia, and fractures around the ankle joint. This time the seminar will take place in a movie theatre. The video block in a presentation provides a closer look at the work and ideas of the author, giving us the possibility to find the little tricks in it. This is what we would like to enhance with the wonderful picture quality of a movie. I am sure that every participant will find something interesting, that worth it to take home.

Best regards,

Balazs Lenkei MD.

Course information

Course fee

AOTrauma Masters Video Seminar registration fee:

AO members: 55.000 HUF

Non-members: 65.000 HUF

International participants: 93.000 HUF

Included in the course fee are conference bag with documentation, coffee breaks, course dinner, course certificate and accreditation.

Accreditation

An application has been made to the UEMS-EACCME® for CME accreditation of this event.

Evaluation guidelines

All AOTrauma courses apply the same evaluation process, either audience response system (ARS) or paper and pencil questionnaires. This will help AOTrauma to ensure that we continue to meet your training needs. In some regions, CME accreditation is dependent on the participant's evaluation results.

Intellectual property

Course materials, presentations, and case studies are the intellectual property of the course faculty. All rights are reserved. Check hazards and legal restrictions on www.aofoundation.org/legal.

Recording, photographing, or copying of lectures, practical exercises, case discussions, or any course materials is absolutely forbidden.

The AO Foundation reserves the right to film, photograph, and audio record during their events. Participants must understand that in this context they may appear in these recorded materials. The AO Foundation assumes participants agree that these recorded materials may be used for AO marketing and other purposes, and made available to the public.

Security

There will be a security check at the entrance of the building. Wearing of a name tag is compulsory during lectures, workshops, and group discussions.

No insurance

The course organization does not take out insurance to cover any individual against accidents, theft, or other risks.

Mobile phone use

Mobile phone use is not allowed in the lecture halls and in other rooms during educational activities. Please be considerate of others by turning off your mobile phone.

Transportation

Transport should be arranged individually.
