AOSpine Advanced Symposium— Deformity

April 29-30, 2016

Adana, Turkey

[AOSpine](#)—the leading global academic community for innovative education and research in spine care, inspiring lifelong learning and improving patients' lives.

Welcome to Adana

Dear Colleagues;

On the behalf of AOSpine Europe, we look forward to host you for an Advanced Deformity Symposium on 29-30 April 2016, in Adana, Turkey. This event will elevate current concepts and principles to an advanced level and address controversial topics. This event shows an integrated approach to understanding surgical treatment of congenital and acquired deformities of the spinal column. The symposium will include case studies, group discussion and expert opinions. Cagatay Ozturk will be the Chairperson and Alpaslan Şenköylü will be the Educational Advisor (EA).

Once again, we would like to remind you that the success of the event is dependent not only on the faculty but also on you, the participant. We urge each one of you to take an active part in the discussions, to ask questions, to raise controversies and to help the program be more interactive and fruitful to all of us. During this nice social gathering, we will sit together, as faculty and participants from both events, to discuss cases in an open and friendly atmosphere.

We invite you to enjoy the great atmosphere of Adana and, above all, a great educational experience.

Cagatay Ozturk

AOSpine Curriculum

This educational event carries the AOSpine Curriculum logo. This indicates that the program, content, and objectives have been developed based on the Curriculum framework and that the event meets the implementation criteria defined by the AOSpine Education Commission (AOSEC). For more information, visit www.aospine.org

Symposium Description

The new developments in approaches to spinal deformities brings with new controversies in surgical treatment spinal deformity care. There is no common consensus in the treatment of many spinal deformities. This event will address different deformities of spine in both frontal and sagittal plane and their operative managements. This educational event offers you a challenging and interactive learning experience and a new approach insights for even experienced surgeon and also will provide suitable environment to share experiences. The event will compromise case presentations, group discussions, expert opinions and problem solving sessions parts between faculty and participants.

Target Participants

This event is targeted at surgeons with 3 to 10 years of experience in spine surgery, who are aiming to further improve their knowledge and/or specialization in the surgical management of spinal deformities.

Course/Symposium Objectives

After the course, participants should be able to:

- Analyze the history and physical examination of the patient presenting with spinal deformity
- Order and evaluate appropriate imaging to assess the deformity
- Use evidence based decision making when recommending operative interventions
- Consider the factors for safely performing appropriate surgical procedures
- Manage intraoperative and postoperative complications

Accreditation

An application has been made to the UEMS-EACCME® for CME accreditation of this event. An application has been made to Eucomed for compliance approval of this event.

Mobile phone use is not allowed in the lecture halls and in practical exercise rooms. Please be considerate of others by turning your mobile phone to off.

Photography

Photos taken during the event may be used as AOSpine promotional material. Please inform the AOSpine Project Manager if you do not wish photos of yourself to be used.

Intellectual property

Course materials, presentations, and case studies are the intellectual property of the event faculty. All rights are reserved. Check hazards and legal restrictions on www.aospine.org/legal. Recording, photographing, or copying of lectures, practical exercises, case discussions, or any course materials is absolutely forbidden.

The AO Foundation reserves the right to film, photograph, and audio record during their events. Participants must understand that in this context they may appear in these recorded materials. The AO Foundation assumes participants agree that these recorded materials may be used for AO marketing and other purposes, and made available to the public.

AOSpine Europe Education

AOSpine welcomes the participation of our partners in supporting our efforts to deliver education of the highest quality. Industry partners agree to the following at this educational event.

1. Introduction

- This event is for the benefit of the AOSpine community
- The objective is to offer the highest quality education in spine surgery

2. Academic Independence

- This event must be free from commercial bias or influence
- The content of this event will focus solely on the teaching of medical principles, knowledge, skills and generic techniques
- The event chairpersons are solely responsible for determining faculty, topic and program
- Our industry partners provide logistical support, including workshop material and technical support

3. Branding

- The AOSpine logo and associated imagery must be the only visible corporate branding
- Commercial advertising—including but not limited to promotional materials, merchandizing items and gifts—is not permitted
- Our industry partners' logistical support may be mentioned in the event program, but without any use of logos

4. Product Usage

- Products may only be visible in a neutral setting, ie, free from any corporate branding
- Products may only be displayed in areas as defined by the event chairpersons; products should never be displayed in lecture theatres, and in principle neither in reception areas nor in food and beverage areas
- Any practical workshops must take place in an area clearly designated as a workshop area, and clearly separate from any lecture, discussion group, social or rest areas
- Such workshops may only be run by members of this event's faculty
- Surgical technique manuals may be made available to participants upon request

5. Venue & Personnel

- This event may not be held at the premises of any industry partner
- The presence of industry partners is solely to provide discrete background logistical support
- The ratio of each industry partner's representatives to participants at this event may not exceed 1:10
- Industry partners may join meals and breaks, but may not use these as sales opportunities
- The aggressive use of this event as a sales opportunity is not permitted
- The presence of industry partners at any practical workshops must remain discrete at all times

All logistics handled by partner representatives must be conducted in accordance with this and with the approval of AOSpine (event chairpersons and the AOSpine Europe division), to ensure the event's academic independence.
