

LINC 2013

The Leipzig Interventional Course is committed to advancing the scientific and clinical evaluation and treatment of patients with complex vascular disease through an interdisciplinary discussion of novel endovascular techniques.

LINC is a comprehensive and international live course designed to foster collaboration between colleagues of differing specialities and to promote the understanding and development of endovascular therapies that can be incorporated into daily clinical practice.

Main topics at LINC 2013

- Advanced techniques for revascularization in critical limb ischemia
- Chronic total occlusions – the role of alternative approaches and dedicated technology
- Drug eluting balloons and stents – How do they change our practice?
- Pioneering techniques in aortic surgery and endovascular aortic repair
- Venous interventions for thrombotic occlusions and pulmonary embolism
- Endovascular solutions for varicose vein disease
- The role of renal denervation for treatment of hypertension and beyond
- Carotid revascularization – new insights and state of the debate

Main Arena 1

1

Full day programme with state of the art lectures, clinical trial reviews and controversial, interdisciplinary debates, alternating with numerous live case demonstrations highlighting current interventional challenges and new technologies.

Main Arena 2

2

The Main Arena 2 will have a capacity of approximately 700 seats and the programme will focus on endovascular aortic interventions and other fields of endovascular surgery.

Global Expert Exchange Forum

5

Renowned experts from around the globe will present challenging case reviews. Region-specific experiences and techniques

Technical Forum

3

The programme in this room with a capacity of approximately 500 seats, is dedicated to detailed discussions of featured live and recorded cases and interdisciplinary debates.

Discussion Forum

4

This amphitheatre-style room has a capacity of approximately 200 seats and will feature sessions with specific technical focus, as well as on controversial interdisciplinary debates.

will be discussed with an interdisciplinary faculty. The programme will be supported with selected pre-recorded and live cases.

New @ LINC 2013

Global Expert Exchange Forum

In response to the growing international diversity in attendance at LINC, we are creating a new platform, called the Global Expert Exchange Forum, to help to better understand the background of region-specific experiences and techniques, also incorporating selected pre-recorded and live cases.

LINC 2013 will have an extended call for complications and call for abstracts. Each day of the course, the new platform will offer young doctors the opportunity to present their scientific work to a truly international and interdisciplinary audience.

We are looking forward to welcoming you in Leipzig on January 23–26, 2013, for another exciting edition of LINC.

In 2013 we are very happy to continue extending our international collaboration with leading vascular courses:

VIVA@LINC 2013

VIVA – one of the leading multidisciplinary endovascular courses in the United States has defined excellence in professional education in the field of vascular medicine over the years. As part of a close collaboration, we are very happy to introduce live cases broadcasted from featured VIVA live sites, as well as the VIVA Chalk Talk format – sessions with a limited number of participants, dissecting specific technical topics in greater detail than can be covered during larger symposia.

Visit the LINC Asia-Pacific website at
www.lincasiapacific.com
www.lincasiapacific.cn

CX@LINC 2013

Sharing the vision of interdisciplinary collaboration as the basis of innovation and patient care, we are proud to continue our productive partnership with the Charing Cross meeting by providing a dedicated CX@LINC programme. The involved faculty will discuss controversial topics, challenge the evidence and take part in a series of head-to-head debates to reach a consensus after discussion.

Live case transmission

During LINC 2013 more than 90 live cases will be performed from leading interventional centers. All live case transmissions during LINC will be coordinated, filmed, and produced by mediAVentures, using the latest in high definition and wireless technology.

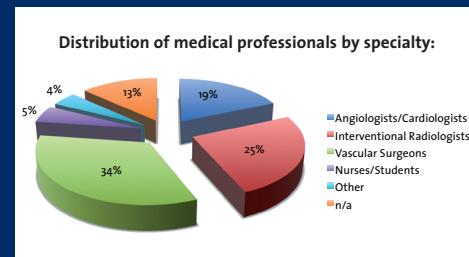

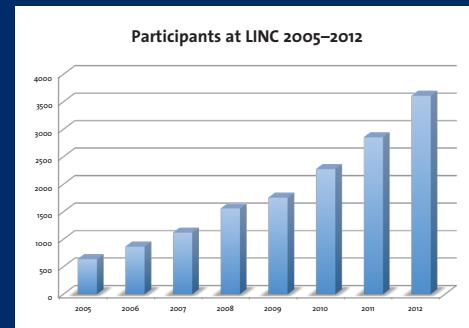

LINC Asia-Pacific

In 2012, LINC Asia-Pacific was arranged for the fourth time, attracting 586 attendees from the Asia-Pacific region. LINC Asia-Pacific 2013 will take place from March 18 to 20, 2013, at the AsiaWorld-Expo in Lantau, Hong Kong. LINC Asia-Pacific will focus on the demonstrations of interventional techniques, presenting multiple live cases and interdisciplinary discussions.

LINC 2012 Statistics

LINC 2012 had a multidisciplinary attendance of 3,607 participants from more than 60 countries. Please visit our website under www.leipzig-interventional-course.com for more details.

LINC 2012

Accreditations and Endorsements

LINC 2012 was accredited by:

The Sächsische Landesärztekammer with 24 CME points.
www.slaek.de

The Swiss Society for Angiology with 30 CME points.
www.angioweb.ch

The Dutch Association for Surgery with 20 accreditation points in Category I.
www.vaat-chirurgie.nl

LINC 2012 was endorsed by:

The Belgian Society for Vascular Surgery
www.belsurg.org

The Italian Society of Vascular and Endovascular Surgery
www.sicve.it

VIVA

The National Education Course for Vascular Intervention and Medicine

LEIPZIG INTERVENTIONAL COURSE 2013

L | N | C

January 23 – 26, 2013

New Venue for 2013:

Trade Fair Leipzig
Hall 5
Messe-Allee 1
04356 Leipzig
Germany

Preliminary Faculty List

Scientific Committee:

Iris Baumgartner, Angiologist, Switzerland
Giancarlo Blamino, Cardiologist/Angiologist, Italy
Piergiorgio Cao, Vasc. Surgeon, Italy
Roger Greenhalgh, Vasc. Surgeon, UK
Andrew Holden, Radiologist, New Zealand
Michael Jaff, Angiologist, USA
Friedrich Wilhelm Mohr, Cardiac Surgeon, Germany
Dierk Scheinert, Cardiologist, Angiologist, Germany
Andrej Schmidt, Cardiologist, Angiologist, Germany
Gerhard Schuler, Cardiologist, Germany
Karl-Ludwig Schulte, Angiologist, Germany
Giovanni Torsello, Vasc. Surgeon, Germany
Thomas Zeller, Cardiologist/Angiologist, Germany

Live Case Committee:

Gary Ansel, Cardiologist, USA
Martin Austermann, Vasc. Surgeon, Germany
Alberto Cremonesi, Cardiologist, Italy
Andrew Holden, Radiologist, New Zealand
Ralf Langhoff, Angiologist, Germany
Felix Mahler, Angiologist, Switzerland
Antonio Micari, Cardiologist, Italy
Andrej Schmidt, Cardiologist, Angiologist, Germany
Frank Vermassen, Vasc. Surgeon, Belgium
Thomas Zeller, Cardiologist, Angiologist, Germany

Invited Faculty:

Bagrat Alekyan, Cardiologist, Russia
Jörn Balzer, Interventional Radiologist, Germany
Stanislav Bartus, Cardiologist, Poland
Steffen Basche, Interventional Radiologist, Germany
Yvonne Bausback, Angiologist, Germany
Erwin Blessing, Cardiologist, Germany
Ammanulla Bolia, Interventional Radiologist, UK
Michael Borger, Cardiac Surgeon, Germany
Marc Bosiers, Vascular Surgeon, Belgium
Spiridon Botrios, Vascular Surgeon, Germany
Karin Brachmann, Vascular Surgeon, Germany
Daniela Branzan, Vascular Surgeon, Germany
Sven Bräunlich, Angiologist, Germany
Marianne Brodmann, Angiologist, Austria
Jan Brunkwall, Vascular Surgeon, Germany
Jacques Busquet, Vascular Surgeon, France
Nick Cheshire, Vascular Surgeon, UK
Angelo Cioppa, Cardiologist, Italy
Gioacchino Coppi, Vascular Surgeon, Italy
Michael Dake, Cardiologist, USA
Tony Das, Interventional Cardiologist, USA
Jean-Paul de Vries, Vascular Surgeon, Netherlands
Sebastian Debus, Vascular Surgeon, Germany
Koen Deloose, Vascular Surgeon, Belgium
Nicolas Diehm, Angiologist, Switzerland
Dai-Do Do, Angiologist, Switzerland
Stephan Duda, Interventional Radiologist, Germany
Dariusz Dudek, Cardiologist, Poland
Michael Edmonds, Diabetologist, UK
Andrej Erglis, Cardiologist, Latvia
Roberto Ferraresi, Interventional Cardiologist, Italy
Peter Gaines, Interventional Radiologist, UK
Lawrence Garcia, Cardiologist, USA
Reza Ghotbi, Vascular Surgeon, Germany
Hans-Martin Gißler, Interventional Radiologist, Germany
Yann Gouëffic, Vascular Surgeon, France
William Gray, Cardiologist, USA
