

VPM2014

A Cardialysis Event

Save the date

21 - 24 of June 2014

The Vulnerable Patient Meeting (VPM) is an annual event hosted by Cardialysis in a small boutique-setting. Participation of opinion leaders from academia and industry, is by invitation only.

Topics

- current & future therapeutic targets for atherosclerosis
- Vulnerable patients - cross-talk between treatment strategies in CAD & ACS
- (non-)invasive imaging for cardiovascular & metabolic trials
- breakthrough imaging technologies
